Ottawa, September 15th, 1941.

Dear Sir:

With reference to requisition dated May 26th, for supplies for the Assiniboine Indian Day School, you may arrange for the purchase and delivery of the following:

60 bars laundry soap.	6 paring knives.	
60 " Lifebuoy soap.	1 butcher knife.	
12 yds. hand towelling.	36 dinner knives	inexpensive.
24 " tea towelling.	36 forks	
6 pkts. needles, assts.,	24 soup spoons	
2 spools thread, white,	24 " bowls	
2 " " black,	3 wash basins,	
10 pcs. knitting needles,	2 brooms,	
3 bundles fret saw wood,	36 clothes hooks.	
6 dozen " " blades,		

It is noted that the teacher requests 12 pounds wool and 25 yards cotton print. You may purchase a reasonable quantity of sewing materials and wool for the purpose of teaching plain sewing and knitting to the pupils, but the expenditure should be kept to a minimum.

Thirty-six tooth brushes will be sent from the Department.

The other articles on the requisition considered necessary are being ordered from the Government Stationery Office.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Sir:

I am in receipt of your voucher No. 236 amounting to $10.00 covering the cost of supplies purchased for midday meal purposes at the Assiniboine School. The account is being paid but I cannot understand why you have submitted this account in view of the contents of official letter of May 13, 1941, to which no reply has yet been received.

No further accounts for purchase of midday meal supplies will be paid until you reply to the letter mentioned above and a decision has been made regarding the amount, if any, which should be allowed for midday meal purposes at the Assiniboine School.

Dear Sir:

With reference to your letter #102-1-5 dated May 13,1941, I wish to submit the following report:

The Day School on the Assiniboine Reserve is possibly one of the outstanding Day schools in the Province, both as regards to the work accomplished and to the average attendance, which is very high considering the distance some of the pupils have to travel to school.

The Indians on the reserve are very poor as they have had, until this year, nine complete crop failures. This condition has made it very difficult for the parents of the pupils to provide a satisfactory lunch.

There is no doubt that the lunch provided at the school is very beneficial to the health of the children and if the Department grant us the usual $10.00 per month, the cost per lunch for each child is approximately 1½ cents.

I would be very pleased to receive the authority as soon as possible.

Your obedient servant,

Frank Booth

Dear Sir,

With reference to my Voucher #329 in favor of Lowe's Hardware, Wolseley, for muresco etc for Assiniboine Day School, I would state that the muresco was purchased to re-decorate the class room.

When the school was re-opened this fall it was found that several of the windows had been badly cracked and broken and it was necessary to replace these as the building was cold.

Your obedient servant,

Frank Booth

Dear Sir:

I would be glad to receive authority to spend the sum of Ten dollars per month for lunches for the pupils of the Assiniboine Day School for a period of five months, November 1, 1942 to March 31, 1943.

This authority has been granted for some years and the hot lunch provided for the children at noon, has proven very benificial.

I would also be glad to receive an accountable cheque for $18.00 to purchase firewood for the school. This item was provided for in my 1942-43 estimates.

Frank Booth

In my 1943-44 estimates I asked for 5 gals paint at $4.00 per gallon for interior decoration of classroom Assiniboine Day School; also $16.00 for Indian Labor to do this work.

Will you please advise me if authority is granted for this expenditure as Iwould like to have the work done before the children return to school.

It will be necessary to have two new holes dug for the outside toilets at Assiniboine Day School, and the buildings removed to the new locations, before the children return to school next month.

The cost for this work was included in my 1943-44 estimates and I would be glad to receive authority to have the work done.

Ottawa, August 25, 1943.

Mr.Frank Booth, Indian Agent, Kuscow, Saskatchewan.

With reference to your letter of the 21st instant, you may expend an amount of $10.00 a month for mid-day meal supplies at the Assiniboine Day School for a period from November 1, 1943 to March 31st 1944.

You may also arrange to have the necessary repairs made to the outside toilets at the school.

Authority ~~has been~~ granted for the purchase of 5 gallons of paint at $4.00 a gallon for the interior decorating of the classroom and also $16.00 for labour.

With reference to vouchers # 60 and 61 re decorating and white-washing the Assiniboine Day School class room and basement, I wish to report that the chimney caught fire and although the building was not in danger the rooms were badly smoked up and it was necessary to have this work done so as to give the rooms a clean appearance.

Carry The Kettle Reserve --

School (Day) - is a good building, clean and neat. The stove, on which the noon-day meal for the children is cooked, is worn out beyond repair. Agent Booth stated that he could obtain a good reconditioned second - hand stove for $30.00. I would recommend that when his request is received authority be given him to purchase.

The boys' and girls' toilets are in need or repairs to the floor and the seats. Agent Booth was instructed to have these inexpensive repairs made and to submit a voucher. The cost should not exceed $15.00.

The Secretary, Department of Mines and Resources, Indian Affairs Branch. Ottawa.

I would be pleased to receive authority to purchase supplies for the purpose of providing a mid-day meal for the pupils of the Assiniboine Day School.

It necessitate an expenditure of $10.00 per month for the five winter months.

The meal provided is a benefit to the children as some of them drive over six miles to school and a hot lunch is just what they need, also I think it helps with the attendance.

The Department of Mines and Resources, Indian Affairs Branch, Ottawa.

I would be pleased to receive authority to purchase supplies for the purpose of providing a mid-day meal for the pupils of the Assiniboine Day School.

It would necessitate an expenditure of $12.00 per month for the five winter months.

This mid-day meal is of great value to the Indian children as some of them drive over six miles to school and a hot meal is nearly a necessity on cold days, almost no doubts encourages better attendance.

Ottawa, November 9, 1945.

Mr. Frank Booth, Indian Agent,
Muscow, Sask.

With reference to your letter of the 5th instant, the Department will allow an amount of $10.00 a month for a period of five months for the purpose of providing supplies for a midday lunch at the Assiniboine School. In addition, we have ordered the usual quantity of biscuits.

The amount provided for midday lunches is the same as last year. It is reasonable to suppose that, in view of the payment of family allowances, the Indian children will receive better food and quite probably will bring better lunches to school. We are not discontinuing our allowance for midday lunches, but in view of what has just been said, we do not feel that it is necessary to increase the amount over last year's.

Philip Phelan,
Chief, Training Division.

Dear Sir;

On 27 Sep 45 we purchased the hardware business here as our rehabilitation endeavor.

Our first credit account was to the Dept of Indian Affairs, Qu'Appelle Day School in the amounts of $7.53 on Oct 1st; $5.25 on Oct 5th and $1.50 on Oct 8th. Total of $14.28.

A statement of this account was submitted through the proper channels early in November '45. To date it has not been paid.

Will you please have this matter investigated and advise who is responsible for such bad business principles

Mr. Frank Booth, Indian Agent, Muscow, Sask.

I am in receipt of a letter from R.S. Gibson of Gibson's Hardware, Sintaluta, Sask., complaining about the delay in paying his account for $14.58 for supplies ordered for the Assiniboine Indian Day School. Your Voucher No. 406 was dated January 10th, 1946 and reached this office January 15th. A cheque for $14.58 was mailed from here to the firm on January 19th.

I note that the account from Gibson's Hardware which was attached to your Voucher No. 406 was dated October 25th. Please let me know why the voucher was not forwarded to this Branch until January 10th.

Re alterations Assiniboine Day School

Department of Mines & Resources Indian Affairs Branch. JUL 21 1947 REGISTERED

With reference to the alterations necessary before we can operate two separate school rooms it will be ~~XXXXXXX~~ necessary to alter the building we are now using as a ration house into a school room, renovate the building that was the Agency office into a teacherage and rebuild an implement shed into a ration house.

The building that we propose to make into a school-room is 26' x 26', it will be necessary to take out all partitions and stairway, change entrance, build cloak-rooms 14' x 14', build 8 new windows in east wall, new tin roof 10 X 10, repair all plaster, complette paint job, new coal bin in basement, new cupboard. benches and table for 30 pupils, and basement lights.

It will also be necessary to build three out-door toilets, the two for the school children will have to have a 30 ft fence erected between them.

Mr Erickson tender for this work is $2375.00

The building that we propose to use for a teacherage will necessitate some alterations and painting, the proposed work and tender is submitted, I may say that the building is in first class shape and will be ideal for such purposes, there also is a furnace in the basement which could be put in good working order for approximately $25.00.

We have a large implement shed 60 x 26 that is not used and this could be taken down and the most of the material used to build a rat-proof ration house, Mr Erickson has submitted a plan and tender for this work, quoting labor only, I do not consider that the extra material needed to complete the ration house would be over $200.00

I am enclosing all plans and tenders from Mr Ericsson and also to imform you that Mr Erickson is willing to provide labor only for all this work, the Department providing all material, at the following wages.
Foreman. $1.20 per hr
Carpenters @ 1.00 per hr.
Laborer @ 60c per hr.

We certainly would have a very fine school unit if this work was complete: and would be able to have accommmdation for 60 pupils.

I know that I am rather late asking for this work but I have been unable to get quotations from other firms and carpenters as everyone has more work ahead of them that they can do this year, Mr Erickson will commence work immediately so as to have the buildings ready for September 1st if he is awarded the contract.

Memorandum:

DEPUTY MINISTER

EXD.
A.

Assiniboine Indian Day School

The growth in school population on the Assiniboine Indian Reserve is such that we will have to open an additional classroom this September. It is recommended by Mr. Ostrander and the Indian Agent that we carry out the following alterations:-

(a) Renovate the former agency office as a teacherage.

(b) Alter the present ration house for use as an additional schoolroom.

(c) Rebuild the implement shed into a ration house.

After considerable delay we have finally located a contractor willing to do the above alterations. He is Mr. H. L. Erickson, of Fort Qu'Appelle, Sask. You will find attached the three tenders which Mr. Erickson has submitted for the work required to open this extra classroom. The total cost is $3,597.00. You will note that Mr. Erickson will provide labour, paint and materials for all alterations with the exception of the store-room, which will involve labour only. Most of the lumber for the store-room will be provided by tearing down the implement shed. We may have to provide a small quantity of lumber, cement and paint to complete this latter job.

Memorandum:

DEPUTY MINISTER

Assiniboine Indian Day School

The growth in school population on the Assiniboine Indian Reserve is such that we will have to open an additional classroom this September. It is recommended by Mr. Ostrander and the Indian Agent that we carry out the following alterations:

(a) Renovate the former agency office as a teacherage.

(b) Alter the present ration house for use as an additional schoolroom.

(c) Rebuild the implement shed into a ration house.

After considerable delay we have finally located a contractor willing to do the above alterations. He is Mr. H. L. Erickson, of Fort Qu'Appelle, Sask. You will find attached the three tenders which Mr. Erickson has submitted for the work required to open this extra classroom. The total cost is $3,597.00. ATTENTION PLEASE

We have crowded into this 9-page circular some of the items of school supplies and equipment usually required by the average school between September and January. We have specially prepared this circular for the convenience of buyers of school supplies so that they could quickly and at a glance, more or less decide their immediate school needs. For a complete line of school supplies and equipment and, too, full descriptive matter on all items shown in this circular, see Moyer's large catalogue "The School Buyer's Guide", and revised price lists.

EX'D. A.

October 7, 1922.

F. Booth, Esq.,
Indian Agent,
Moosomin, Sask.

I have received your letter of October 4th in reply to mine of the 22nd in connection with the rebuilding of an implement shed on the Assiniboine Reserve into a ration or store house.

You did not return to me the account of Montmartre Co-operative Assoc. which was sent to you with letter of the 22nd.

I may say that the reason the account was returned was that the voucher (No. 477) was directed for payment to the Agencies Division, who had no knowledge of the work, and on account of the wording that the work was to provide a ration or storehouse no one in the Agencies Division realised that the matter was one which should have been referred to the Schools Branch.

Upon receipt of your letter of the 4th, however, the Agencies Division made a search for the Purchase Order referred to in your letter (No. 22044), and could not find it. However, Purchase Order 22040 was finally located and the School file drawn, when it was discovered that the matter should have gone in the first instance to the Indian Education Service.

I give you this information to show you how much trouble can be caused by a voucher not being completely worded. When sending in the voucher in this instance please state on it that the implement shed being remodelled is for the use of the School, being part of the group of buildings at the Assiniboine Agency required for school purposes.

DEPARTMENTAL PURCHASING AGENT.

Attached is an account amounting to $231.23 covering the cost of the emergency purchase of materials for renovating the old ration house on the Assiniboine Reserve to serve as a second classroom at the Assiniboine Day School.

The enrolment at this school was so large that it was absolutely essential to provide a second classroom and the only building available was the ration house. Instructions were given to the Indian Agent to renovate it in order to have it serve as a second classroom for the current academic year at least.

It would be appreciated if you would issue a Purchase Order so that the account may be paid. The coding is as follows:

INDUSTRIAL WORKERS GET BOOST

Four Unions Conclude Agreements

REGINA.—Negotiations for wage increases have been completed with four groups of Saskatchewan government industrial employees, with pay boosts made in all cases, it was announced jointly recently by D. H. F. Black, deputy industrial executive, and C. G. Palmer, regional director of the Canadian Congress of Labor, parent body of all four unions.

The increase affects approximately 270 employees in the shoe factory and leather tannery at Regina of Saskatchewan Leather Products, the Moose Jaw woollen mill of Saskatchewan Wool Products, the brick plant at Estevan of Clay Products, and the Government Insurance Office at Regina.

Increase in pay of five cents per hour "across the board" was granted the National Union of Shoe and Leather Workers Local 32, representing employees of the shoe factory and tannery, under an "open end" clause in the contract of the union. The new agreement, which took less than two days to negotiate, makes the pay boost retroactive to August 1. The agreement concerns wages only, since the collective bargaining agreement with the union does not expire until December 7.

A similar agreement for five cents per hour increase, retroactive to June 1, was concluded with the Textile Union Workers of America Local 750, representing woollen mill employees.

Negotiations with the Clay Products Workers Union Local No. 3 and the Saskatchewan Insurance Employees Union led to new collective bargaining agreements to replace those which had expired. Reclassification of jobs and changes in conditions were involved, as well as wage increases. Pay boosts in the case of the brick plant were effective August 16, while in the case of the Insurance Office they were retroactive to July 1.

"All negotiations with industrial employees have now been concluded except those with employees of the Saskatchewan Power Commission," Mr. Black pointed out.

Commenting on the new agreements, Mr. Palmer said they had resulted in a very satisfactory feeling among employees.

Big Machinery Imports

REGINA.—Agricultural machinery to the value of $11,068,968 was imported into Saskatchewan from the United States through provincial ports of entry in 1946, according to a compilation made by W. J. Hansen of the Trade Services Division of the Department of Co-operation. In addition, there were imports coming through eastern or western Canada for which

Children Like Saskatchewan-Made Radios . . .

THE HAPPY LOOKS on the faces of these school children at Hazlet, Sask., demonstrates how a radio-phonograph can give young students greater interest and enjoyment in their work. For the story of how these radios came to be made by the Department of Education see page two of this issue. BFH Photo.

Fodder Still Serious In Areas, But Self-Help Program Assists

REGINA.—While still serious in some northern areas, the feed and fodder shortage in Saskatchewan had eased considerably during the past few weeks, Agriculture Minister I. C. Nollet said recently. He added that improvement has resulted through the efforts of farmers engaging in the self-help program instituted by the department of agriculture.

While the feed and fodder deficiency in some districts was "still serious," the department stood a better chance now of meeting the most necessitous demands for fodder which may arise after November 1, he said. The minister urged farmers to redouble their efforts to salvage all available feed in drought areas in order to more nearly meet their winter requirements.

Up-to-date lists of locations where standing feed can be secured on a share basis by anyone willing to harvest it, are maintained by the agricultural representatives. Hay in the stack is also available for purchase, Mr. Nollet pointed out. "The cheapest hay, except that which he harvests on his own farm, will be that put up or moved under the department's fodder policy, this plan providing the farmer with freight assistance until November 1, 1947, together with transportation costs of moving haying equipment."

In the case of farmers who make their own contracts to purchase hay from available sources of supply, inward freight assistance in the amount of $3 per ton will be granted. The suggestion that the government undertake full responsibility for the program and do the job alone has been advanced, but to do so, Mr. Nollet said, "would mean that only a limited amount of fodder would be available and supplies would be higher in price and more expensive to the person in need.

"If the self-help program is properly carried out, there should be no great necessity for liquidating valuable livestock," he added.

Two Bus Routes Added To Service

REGINA.—Opening of two new bus routes by the government-owned Saskatchewan Transportation company was announced recently by W. T. Bunn, company manager. The new routes are Raymore to Yorkton, operating daily except Sunday, and Regina to Kipling, daily through the week.

"The company now operates 32 bus routes, owns 49 buses, and with the addition of the two new routes has added 214 route miles to its present system. More than 3,500 route miles are covered by these buses," said Mr. Bunn.

Increasing use of the service was also announced by the manager, who stated that a total of 4,662 persons travelled to and from Regina in the company's vehicles during the Labor Day weeke[illegible]

Added interest in school work is provided by radio broadcasts, as is shown in this picture of eager students in a Saskatchewan school. SFB Photos.

LOCAL RADIO MAKES GOOD

ONE OF THE most important new aids to education is radio, and school radio broadcasts have developed to such an extent that the Canadian Broadcasting Corporation and the various provincial education departments co-operate in producing programs for each of the five school days per week. Dramatized programs bring to life history, literature, science and many other school subjects in a manner that holds children's interest so that learning becomes both easy and entertaining. Just how valuable these broadcasts can be is illustrated by the fact that one Saskatchewan radio station repeated a series of broadcasts during its evening program and received an enthusiastic response from its adult listeners.

But it was discovered in Saskatchewan, as it has been found in other parts of Canada and in the United States, that well-produced programs which apparently left the studio in good shape were not getting into the class rooms satisfactorily. After complaints had been received from Saskatchewan teachers, James Kent, supervisor of the School Broadcasts Branch of the Department of Education, set out to investigate.

Reception Not Good

From first hand investigation Mr. Kent found a situation here similar to what had been found in other places. Radio receiving sets in use were simply not suitable for class room use. Many were old sets, purchased to fit the budget of the school district, but even the newer sets were not satisfactory in school use, for which they were not designed. Voices were "muddy," sound effects were indistinct and music reproduction was inferior. In addition, many sets did not have enough power [illegible] children [illegible] without strain. If more power was used distortion became so bad as to ruin the program completely.

It was evident that what was needed was a radio receiving set which was built for class room use, instead of home use, and would perform satisfactorily under school conditions. Radio manufacturers in Canada were contacted by the School Broadcasts Branch, but all except one were not interested in producing a special type of receiver for school use. One manufacturer would agree to make a special set, but only under conditions which were prohibitive.

Problem Could Be Solved

That was the state of the problem when it came to the attention of G. L. Powell, who was then in charge of maintenance of Saskatchewan Film Board movie projector equipment. Mr. Powell was an electrical engineer who had keenly followed the technical developments of radio from almost its earliest days. Years ago he had been one of that happy group of "hams" who had constructed their own receiving and sending sets when radio was still a novelty and not the commonplace thing it is today.

Mr. Powell felt there was a way to solve the school radio problem, and he set out to prove his contention right. Basically, the problem was a simple one. You had to produce a radio set that would give fine reproduction of the full range of sound tones, at high volume, from programs broadcast from nearby stations during the daytime.

Setting about to do this, Mr. Powell drew on his broad grasp of the technics of radio. Ordinary house radios are fine for the purpose for which they are intended, in which tone is necessarily sacrificed for great selectivity and static suppression, and in which great volume is not required. Mr. Powell's problem was to design a radio having the characteristics wanted for school use, instead of those needed in home radios.

The first experimental set was finished in December, 1945. After tests and adjustments, the new receiver demonstrated that it was the answer to the school receiver problem. It did the work for which it was designed even better than had been hoped. Beautiful, realistic tone was matched by phenomenal power, which enabled the set to operate the large type of speakers required for school rooms.

As Mr. Powell explains, he had worked no miracles nor invented something new and revolutionary. He had merely applied known principles to the making of a set designed to fulfill a specific purpose. By sacrificing selectivity, which is not needed in a school radio, and by providing for adequate power output, he had produced a machine which filled the bill perfectly. Addition of a phonograph pickup and turntable was made to allow teachers to use records for music instruction.

Production Started

By September, 1946, Department of Education officials had been convinced of the advantages of the new machine and the School Broadcasts Branch was given permission to produce them in quantity for Saskatchewan schools.

Since then till the end of August this year 120 battery and electric radio-phonographs had been produced and delivered. During that time 150 orders were received from schools, and more are coming in every day.

The project has grown in size so that now there is a special division in the Department of Education, the Radio Production Branch, to make the radios. Mr. Powell is in charge, and he has two young Saskatchewan veterans helping him, Roy Smith and Lawrence Babin. Mr. Smith, who comes from Rocanville, was a radio instructor in the Air Force during the war. Mr. Babin, of Debden, who was also in the Air Force, took a year's course in radio at the Moose Jaw vocational training school before joining the new branch.

Saskatchewan Made

The radios are an entirely Saskatchewan product, except, of course, for the various parts which are made by radio manufacturers, and these are purchased through Saskatchewan dealers.

Cabinets, for instance, are made by several cabinet makers in Saskatchewan, at Regina, Qu'Appelle and Beechy. The steel chassis were first made by a local tinsmith from scrap metal when it was impossible to obtain new sheet metal, and now they are made by a sheet metal fabricator in Regina.

The cabinets are another feature of the school radios which are specially designed for this use. Not made for appearance so much as for utility, they are nevertheless quite attractive. But they are made much stronger than ordinary radio cabinets, batteries are fully enclosed, and the lid locks securely over all controls. This prevents accidental damage and unauthorized

use by the children. One type of cabinet, made by a returned veteran, is made out of alternate layers of red cedar and white pine wood which give it an unusually attractive appearance.

The radio-phonographs are produced solely for school use, and there is no thought of producing radios for sale to the general public. Schools are not required to purchase the sets made by the Department of Education, but they are so superior for this purpose that most schools are doing so.

Despite the heavy inflow of orders, the Radio Production Branch has pretty well caught up with the backlog. Production is going ahead at the rate of about 30 to 50 machines per month, depending on type. Both battery and electric sets can be delivered almost immediately, while sets specially designed to meet certain local conditions take a little longer.

Sold at Cost

As well as producing radio-phonographs more suitable for school use, the Department of Education is providing them to schools at cost, which is resulting in considerable savings to the budgets of school districts and school units. The original price was $80, but a recent ruling by the Department of National Revenue has made the machines subject to the Dominion sales tax of 8 per cent, and the excise tax of 10 per cent. This added cost has forced an increase in the price to $89.70 for battery sets and $105.45 for electric sets. Since the ruling applied to sets sold from the first; the Department of Education was forced to absorb the tax charge on these.

Despite all difficulties and trials, the products of a new little industry in Regina are going to schools throughout the province. And as thousands of Saskatchewan children listen every afternoon to the exciting dramatizations of their school work, they will have Mr. Powell to thank that every word is as clear and precise as if spoken in their own class rooms.

Production of school radio-phonographs by the Radio Production Branch of the Department of Education is shown in the upper photo. Worker is Roy Smith, who used to instruct in radio in the Air Force. Lower picture shows one of the completed machines in eye-catching cabinet of cedar and pine wood, made by Saskatchewan cabinet maker. Large size speaker for good reproduction in large class rooms is used in the smaller cabinet. Locking lid of cabinet prevents damage to [illegible] supplied fingers.

1947 Seasons and Bag Limits For Game Birds Announced

REGINA.—Official 1947 migratory bird seasons and bag limits were announced recently by E. L. Paynter, game commissioner, as follows:

Season for ducks, geese, coots and Wilson's snipe in that portion of the province lying south of the northern boundary of township 50 is set at September 22 to October 31. North of township 50 and south of township 60 the season for these birds opens September 15 and closes October 31. North of township 60 the season on all four birds will run from September 8 to October 31.

A closed season is in effect on eider and wood ducks, swans, cranes, and all migratory non-game and insectiverous birds.

Bag limits are set as follows: daily—seven ducks, five geese, 10 coots, and five snipe; season limit—56 ducks, 20 geese, 50 coots, and 50 snipe; possession limits—14 ducks, 10 geese, 36 coots and five snipe. Possession of migratory birds killed during the open season is allowed in Saskatchewan until March 31.

The use of any weapon other than a shotgun or bow and arrow is prohibited. Also, shotguns may not be larger than 10 gauge. Other restrictions, violations of which are punishable by law, are the use of live decoys, aircraft, power boats, sunken punts, sail boats and night-lights. Shooting from any motor or wheeled vehicle or any vehicle to which is attached a draught animal, is also prohibited. Hunters were advised by Mr. Paynter to thoroughly acquaint themselves with migratory bird laws, violations of which could evoke heavy penalties.

Trip for Kids In Crow Contest

REGINA.—Ten Saskatchewan children who obtained the highest score in the campaign against crows and magpies, sponsored jointly by the game branch of the resources department and the Saskatchewan fish and game league, will receive a bus and airplane trip around northern Saskatchewan. Winners of the contest, which closed September 1, have not yet been announced.

Commenting on the contest, Game Commissioner E. L. Paynter said that one boy had accumulated over 2,000 points long before the contest closed. Bounties of five cents per pair of crow's legs, and 15 cents per pair of magpie's legs were paid the campaigners. Points were credited on the following basis: five points for a pair of magpie legs, two points for a pair of crow legs, one point for each crow egg, and two points for each magpie egg.

Winners of the contest will assemble at Prince Albert, with the fish and game league paying their expenses to that point. There the resources department will take over, and the winners will ride on the Saskatchewan transportation company's first bus run to Lac la Ronge. Inspection tours will include the Hudson Bay post, Brookes' sawmill and the government's fish plant. Following an air trip to Island Falls, the children will return to Prince Albert by bus where the fish and game league will assume responsibility for their return to their homes.

Name Northern Lake After Jerrold Smith

REGINA.--Large, newly-named Jerrold Lake, in the rocky pine belt of far northern Saskatchewan about 20 miles west of Cree Lake, will honor the memory of F/O Jerrold Smith, who was reported missing while on air operations in August, 1943, and presumed dead in April, 1943. F/O Jerrold Smith's parents live at 3052 18th avenue, Regina.

Enlisting with the air force in 1940, F/O Smith was commissioned and went overseas in 1941. He took operational training as a fighter pilot in northern Ireland, was posted to the Mediterranean theatre in 1943, and there gained for himself the reputation of being an efficient, cool and daring officer during the island's terrific bombardment.

The name Jerrold Lake has been approved by the National Geographic board, and documentary evidence of the action will be filed in the provincial archives as part of the province's history, according to A. L. Bereskin, controller of surveys in the resources department, and the provincial representative [illegible]

Dantow Named Health Officer

REGINA. — Dr. Matthew Dantow, B.Sc., M.B., Ch.B., D.P.H., has been appointed medical health officer of the North Battleford Health Region No. 13, according to a recent announcement by Deputy Health Minister Dr. C. F. W. [illegible]

Dr. Dantow

Since November, 1946, the medical officer of the newly formed health region has worked with the Hospital Services Plan and the Regional Health Services Division of the Saskatchewan Department of Public Health.

Born in New York City in 1909, Dr. Dantow received his bachelor of science degree from the University of New York in 1930, and his bachelor of surgery and medicine degree from the University of Glasgow in 1936. The following year he took a three months course in tropical medicine from the University of London. In 1946 he received a diploma in public health from the University of Toronto.

In 1936 and 1937 Dr. Dantow, was house physician in the Royal Infirmary at Doncaster, England. From 1938 to 1944 he engaged in private practice in the Ferryland district of Newfoundland, serving also as part-time medical health officer. He was medical health officer for the city of St. John's, Newfoundland, from 1944 to 1946.

Three Clinics Operating To Treat Polio Patients

REGINA.—With a total of more than 160 recorded cases of poliomyelitis in Saskatchewan up to the early part of September, the expansion of clinic facilities to cope with the increased incidence of the disease was outlined recently by Dr. H. S. Doyle, director of the Division of Communicable Diseases in the Department of Health.

Two new clinics, at Regina and Moose Jaw, were opened to provide additional facilities, since the original clinic at St. Paul's Hospital in Saskatoon, which has been in operation since 1943, was not sufficient to handle the epidemic.

A 50-bed clinic was opened at the Regina general hospital with the cooperation of local health authorities, the staff of the hospital and local physicians. The Department of Health provided special equipment, while both the provincial and city health departments provided extra nurses. The Department also provides a nurse specially trained in hot packing and muscle re-education, while contracts were made with orthopedic surgeons to supply free physiotherapy treatment to clinic and out patients.

A similar but smaller clinic was also set up in Moose Jaw. In all three clinics hospitalization and extra services were provided free of charge, although private doctors' fees were not paid. Practically all of the 160 recorded cases in the province have been treated at the clinics.

"The Department of Health feels that treatment of polio, which in the case of paralyzed patients may run into months or years although many cases are cured in a short time, can prove an economic catastrophe to most families, and therefore it is our policy to provide specialized treatment free," said Dr. Doyle.

The clinic in Saskatoon, which has been in operation since 1943, was designed to reduce disability and prevent the appearance of late deformaties. Open about eight months of the year, the clinic provided treatment for an indefinite time, using a modified type of the Kenny treatment.

From January, 1944, to March this year 77 cases were treated. Of this number, not including three cases of long standing, 50 were discharged free of handicap, 14 were discharged with some handicap, and there was one death.

Royal Fisheries Report Available To Public

REGINA.—Now available to the public is the report of the Royal Commission on the Fisheries of Saskatchewan, Resources Minister J. L. Phelps said recently.

Totalling more than 350,000 words, the 130-page report deals with fish resources, production, improvement of supply, sustained yield, marketing and many other aspects pertinent to the fisheries of Saskatchewan. Copies of the report may be obtained on application to the Department of Natural Resources, Regina, at a charge of $1 per copy.

William Turner Retires

REGINA.—Thirty-five years of service with the provincial government ended recently for William P. Turner, first and only secretary of the Civil Service Superannuation Board, and secretary and executive assistant to the Public Service Commission, when he retired on superannuation.

Joining the civil service in 1912 as a draftsman in the highways department, Mr. Turner was called into the British Imperial Army in 1914, and later transferred to the Royal Flying Corps. He returned to the Saskatchewan government service in May, 1919, and in 1923 transferred to the civil service commission as a clerk.

Corman Asks for Vigorous Action Against Price-Fixing Combines

REGINA.—A statement from the Saskatchewan government requesting the Dominion government to take more vigorous action against monopolies and cartels was issued by Acting Premier J. W. Corman following the announcement of Justice Minister J. L. Ilsley that a combine in restraint of price competition existed in the dental supply industry.

"The people of Saskatchewan are convinced that price-fixing combines exist in many other industries and that action by the federal authorities is long over due," Mr. Corman said. "With government price controls practically gone the public is entitled to protection against exorbitant prices fixed and maintained by monopolies and cartels."

Mr. Corman pointed out that criminal information has recently been filed against 19 United States firms, charging a conspiracy to fix automobile tire prices. And he noted that in the war crimes trials of German industrialists documents had been introduced linking 51 United States and seven Canadian firms with former German combines.

"The people of this province are demanding that the Canadian counterparts of those German big shots be investigated from top to bottom and where price fixing and supply control are established that they be prosecuted to the fullest extent of the law," the attorney general added.

Mr. Corman said the Saskatchewan government contended that federal retirement from price control meant that control merely passed to large corporations and monopolies in many cases, and he added that failure to take action against all combines, monopolies and cartels would confirm this [illegible]

Car Crashes Cut

REGINA. — Saskatchewan citizens killed or injured in motor vehicle accidents during the peak summer driving period this year were less in number than for the corresponding period in 1947, According to the Saskatchewan Government Insurance office there were 81 people killed and 867 injured in the first five months of the present license year, and in the same period in 1946, 88 persons lost their lives and 706 were injured.

A total of 1,100 claims for collision insurance were made up to the end of August, an indication that there were more than 1,600 accidents where collision damage exceeded $100 in the case of passenger cars, or in the deductible provision of the S.G.I.C. for other vehicles.

Teacher Shortage Still Great, But Increased Training Helps

REGINA.—The present shortage of teachers in Saskatchewan will result in some rural schools remaining closed temporarily, Education Minister Woodrow Lloyd said recently.

About 1,300 teachers of an approximate total of 8,500 who had taught school in 1946, gave up their teaching jobs at the end of the school year, the minister said, adding: "part of this loss was made up by the services of 900 new teachers, but there is a present need for at least 300 more teachers in the province."

While the present situation was serious, said Mr. Lloyd, he felt that the future looked far more encouraging, in that registration at the college of education at Saskatoon had reached 331 to date, and was expected to be 560 by the time classes began. The minister pointed out that this enrolment was the largest on record for teachers taking advanced training. They would eventually be absorbed in the educational stream to provide higher teaching standards.

Conforming to the policy of previous years, it would be necessary to release a number of normal school students at the end of October to fill the gaps in teaching staffs. This would mean that some of the students sent out as temporary teachers would have only about six weeks' training, he said.

Approximately 900 more students had enrolled for normal schol training this year than in 1946, the total registration to date being 500 with the possibility of an additional 100 students registering before classes begin. Mr. Lloyd said that school boards were enlisting the aid of former school teachers to assist in meeting the present emergency. These teachers would be employed for the whole or part of the school year until the situation eased.

DEPARTMENT OF EDUCATION

November 28, 1947.

Dear Mr. Vincent:

Thank you very much for your letter regarding the combination radio phonograph produced by the Department of Education for classroom use.

We are enclosing a copy of Saskatchewan News which outlines the background concerning the production of radio phonograph equipment. You will see that the equipment is manufactured by our own production unit. We are only permitted to offer the equipment for sale to Saskatchewan schools.

Thank you for your interest.

Yours faithfully,

Mr. R. A. Hoey.

Kindly refer to your requisition of the 14th ultimo, for one combination radio and record player for the Assiniboine Indian Day School.

We immediately contacted the Department of Education for the Province of Saskatchewan, with the result as shown in a copy of their letter of the 28th ultimo, attached.

It might be possible for Superintendent Ostrander, at Regina, to personally contact the Supervisor of School Broadcasts and endeavour to see if they would dispose of one of these sets to us by purchase. If, however, it cannot be arranged to procure one of these radio receivers from the source suggested, would you kindly let me have your comments as to the type, range and size of any radio phonograph which we might endeavour to obtain elsewhere.

Indian Agent Booth forwarded all correspondence on the above file concerning the purchase of a Combination Radio-Phonograph for the Assiniboine Day School to this office. Acting on Mr. Vincent's suggestion as outlined in his Memo to Mr. Hoey 76513-15-16 of December 2nd I was able to purchase the required radio from the Saskatchewan Department of Education and I think by this date the machine has been delivered to the school.

Miss Nelson, the teacher, requests records be purchased for this phonograph. The records requested are described as " The Basic Record Library", consisting of twenty-four 10-inch records and albums to hold the same. These records are Canadian Victor and can only be purchased through Victor Dealers at a total cost of approximately Twenty-One Dollars after the educational discount has been deducted.

Could authority please be granted to make this purchase?

Re Voucher # 582.

With reference to your letter of the 7th inst, #I02-1-5 (WT- 1) I wish to imform you that the lumber etc was purchased by the Department to finish the store house, as Mr Erickson only tendered for ~~lumber~~ labor in the alteration of the implement shed to a store-house and as on the order #22040 .page 2, it called for cement , flooring etc I naturally came to the conclusion that it had to be bought locally, because without the material it would have been impossible to finish the building.

I have corrected the voucher and hope that it will now be passed for payment as the Montmartre Co-op are rather anxious to have this account settled.

MINES AND RESOURCES

INDIAN AFFAIRS BRANCH

OTTAWA, January 30, 1948.

Memorandum:

MR. [illegible].

Assiniboine Indian Day School.

On Mr. Hoey's recommendation of August 5th, 1947, the contract was awarded to Mr. H.L. Erichson of Fort Qu'Appelle, Saskatchewan. His recommendation reads, "You will find attached the three tenders which Mr. Erichson has submitted for the work required to open this extra classroom. The total cost is $3,597100. You will note that Mr. Erichson will provide labour, paint and materials for all alterations with the exception of the store-room, which will involve labour only. Most of the lumber for the store-room will be provided by tearing down the implement shed. We may have to provide a small quantity of lumber, cement and paint to complete this latter job".

It appears that this expenditure of $361.42 for Montemartre Co-op Assn, is for this additional material that is required to build the store-room from the torn down implement shed. This account should not be charged to Purchase Order 22040 as indicated by the Agent. Mr. F. Booth in his letter of July 17, 1947, indicated that this extra material would cost not more than $200.00.

The last paragraph on the Purchase Order 22040 reads as follows: "The above price ($3,597.00) includes labour, paint, and materials for all alterations with the exception of the store-room which would involve labour only".

The following sums have been paid to Mr. Erichson in connection with this work:

Oct. 22	V.R. 495	Labour & Material	$800.36
Oct. 24	V.R. 496	Trucking of Lumber	22.00
Nov. 3	V.R. 509	To complete job on School room	2432.87
		Total:	$3255.23

One more thing, I am not sure whether this is the same job, but on September 11, by voucher # 447, Purchase Order # 23522 we paid Mr. Montmartre $231.33 for lumber in connection with Assiniboine School, when Mr. Erichson was supplying the labour.

This is in connection with your voucher No. 582 for $361.32 in favour of Montmartie Co-op Assn, Montmartie, Saskatchewan.

Please be advised that the Federal Government does not pay any provincial or municipal taxes, Education tax being one of these, it is on this account that this voucher is being altered. Shortly the Montmartre Co-op Assn. will be getting a cheque for $354.67. This being $361.32 less the Education Tax as payment for materials supplied in connection with the remodelling of the implement shed at the school.

March 10, 1948.

Mr. Frank Booth, Superintendent,
Indian Agent, Muscow, Sask.

Re: Purchase Order 22040

The above covered the alterations and repairs to the buildings at the Assiniboine Agency in order to provide a second class room for the Assiniboine Day School. If you will review that purchase order you will note that it was divided into three sections, (a), (b) and (c).

You submitted voucher 495 for $800.36. Of this amount $525.00 was shown in item (c) of the purchase order and we presumed the amount over and above $525.00 was some of the material approved by section (b) and consequently paid the whole voucher at a total amount of $800.36.

You subsequently submitted voucher 509 for $2,432.87. The purchase order only authorized $2,375.00 but we arranged to pay the additional amount requested. You also submitted voucher 496 for trucking lumber; this amounted to $22.00.

The total amount already paid is as follows:

Voucher 495.....	$800.36
Voucher 496 (trucking).....	22.00
Voucher 509.....	2,432.87
Total	$3,255.23

You now submit voucher 54 for $697.00 and you quote purchase order 22040 as authority for the expenditure. After making the payments shown above

Indian Affairs. (RG 10, Volume 6280, file 601-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

www.collectionscanada.gc.ca

the balance left in this purchase order is, therefore only $341.77 ($3,597.00 - $3,255.23).

In the meantime you also submitted voucher 582 for $354.67 in favour of Montmartre Co-operative Association. We had to secure a special purchase order for this particular item.

In view of the information given in your letter of January 19th we would like to know why the total amount of purchase order 22040 has been exceeded. We would also like a further explanation of voucher 582 in view of clause (c) of purchase order 22040 which mentioned $525.00 as the cost of rebuilding the implement shed into a ration house and further states that "the above price includes labour,paint and materials for all alterations with the exception of the store room which would involve labour only".

With reference to your letter of the 10th inst, #102-1-5 (c.1), I wish to submit the following report.

Statement of expenditures, order # 22040.

(a)	Amount of order.	$2375.00		
	Voucher #509	$2432.87	overdrawn	57.87
(b)	Amount of order	$697.00		
	Voucher # 84	$697.00		
(c)	Amount of order	$525.00	for labor only.	
	Voucher #495	$525.00	labor. H.Erickson material	275.36
	" #582		Material.Montmartre Co-op	354.67
	" #496		Trucking material	22.00
				642.03

It will be noted that the material [redacted] purchased to complete the store room cost #642.03 and that in section (c) only 525.00 was allowed for labor only, although the labor involved the erection of cement piers, double floors, wall board, shingles, brick chimney, etc, not any amount was requisition for this, and all the material mentioned above could not be salvaged from an implement shed and had to be purchased, therefore I can readily see now that I should have asked for another purchase order instead of going ahead with the building.

I certainly regret this misunderstanding occurred and will govern myself accordingly in the future but I am pleased to report that this store room built at a total cost of 1107.03 is I consider a better building than the store room built at the same time on the Lucowpetung Res at a cost of $2395.00

Re coal for Qu'Appelle Agency Buildings
I.A.B. File 44-114.

ified and
Forwarded 8 Sept 3/48 ML.

In view of the fact that Mr. Booth's original requisition was submitted to this office sometime before the recent moving of Agency headquarters to Fort Qu'Appelle, may we have a requisition with revised shipping and invoicing instructions.

Mr. Neary

We have Mr. Neary's requisition for coal for Assiniboine School, but have not been advised as to the requirements for the teacher's residence at the same school.

We shall await your reply before arranging for the purchase of this coal.

Mr. W.J.D. Kerley,
Supt. of Indian Agency,
Broadview, Saskatchewan.

Attached is a petition which has been forwarded to the Deputy Minister.

Please let me have your comments. You might also state the cost of transporting the children from November 1, 1948 to March 31, 1949. You should also let me know if you feel that if this extra convenience was provided, the children concerned would attend regularly.

An early reply would be appreciated and when answering this letter you should return the enclosed petition.

Referring to our letter of Sept. 27th regarding repairs to the furnace at the teacherage on Assiniboine Reserve, on closer inspection it was found that the fire pot is burned out and cracked, the collar on the smoke dome is broken and most of the pipes are rotted out and the grates burned out. It would appear that it would be more practical to install a new one as the cost of material and labour to repair it would amount to more than half the cost of a new one and you would still have an old furnace.

We have secured a quotation of $250.00 for a Prairie Pride all steel 19" furnace, installed with all new hot and cold air pipes, from A.M.Edwards, Wolseley, Sask.

We would appreciate authority by telegram as this matter is very urgent.

Enclosed herewith are requisitions for:
School Material
Range and utensils for preparing and serving mid day meals at the Assiniboine Day School No.2
New furnace for Assiniboine Day School No. 1.

The present furnace is giving lots of trouble and would cost $100.00 to repair and it would be more economical to install a new one.

Authority is requested to install the new furnace already received for the Assiniboine Day School No. 2 at a cost of $65.00. Also authority to repair the furnace in the teacherage, new set of grates, 2 cold air pipes, and new furnace pipes at a cost of $90.00. Quotations on these items was from A.M.Edwards, Wolseley, Sask.

Two new toilets are also needed for the No.1 Assiniboine Day School. These would cost approximately $55.00 each for material and Indian labour.

H. M. Keenleyside, Esq.,
Deputy Minister,
Mines and Resources,
OTTAWA, Ontario.

DEPUTY MINISTER

21.(5)

We, the undersigned, Members of the Assiniboine Reserve and parents of children who are attending the two room Day School on our Reserve humbly pray that a school van with a capable driver be provided at least for the cold winter months commencing from the 1st of October to the 31st of March, to enable the pupils, who live from three to six miles away from school to maintain regular attendance.

Heretofore some of us had to send our children to the Residential Schools but this breaks up the family ties, whilst others had to carry on with the unequal fight against the elements of blizzards and bitter cold during the winter months to avail themselves of the facilities provided by the Indian Department on our reserve.

However, now that the Department has completed the two room Day School on our Reserve we have every reason to believe that the "Great White Father" will give favourable consideration to our plea.

Re 601-5 (E.1), Nov. 3rd,1948.

With reference to your above letter we are enclosing herewith voucher in favor of Hugh Haywahe and amounting to $110.00 for driging the Assiniboine Day Schools' van for the period Nov. 17 yo Dec. 17 inclusive.

There were twenty-three children that took advantage of this transportation each school day and the teachers are very pleased with the improved attendance. The Indians are also very pleased with this service that the Department has provided. I would recommend that it be continued for the months of January, February and March 1949.

Mr. F. Booth,
Supt. of Indian Agency,
Ft. Qu'Appelle, Sask.,

Re: Assiniboine Day School.

Mr. R.J. Penny, School Superintendent of Saskatchewan noted on his report that the school had a meager supply of library books and school supplies.

On reviewing our files it is noted that no requisition for supplies and books has been received to date. It might be advisable to forward a requisition in at once to make certain that it will be filed before the opening of school in September.

It was also noted that the school needs painting after being repaired.

You are authorized to purchase two three gallon glazed stoneware water coolers costing $9.55 each at Moyer's and one unpainted four shelf open front bookcase.

Philip Phelan,
Chief, Education Division.

With reference to your letter of the 19th inst regarding the fireman wages at the Assiniboine Day School, I wish to report as follows.

On a recent visit of myself and Mr Ostrander to the Assiniboine reserve the question of caring for the two school furnaces came up and is was found that the Indian women did not give the care that was necessary to obtain sufficent heat, also they were not able to keep the fire baskets in the furnaces sufficently clean and therefore new grates would be needed frequently, so it was decided to hire a man as fireman for both schools, also it was decided that 15.00 per month would be a fair wage. Edwin Ryder was placed in charge of the furnaces but I should have immediately asked you for the authority to hire a fireman.

As it is necessary to have this man hired to care for the furnaces during the winter months, kindly give the authority.

Frank Booth.

Your File 2-34-76-114

In view of the information contained in your letter of the 24th instant, the Department will allow an amount of $15.00 a month for the person who has been appointed to act as fireman in both classrooms at the above school. It is understood that this appointment is for the winter months only.

We infer from your letter that you have appointed this man recently, and we would like to know his name and the exact date on which he began duties.

Ottawa, March 21, 1912.

Sir,-

Referring to your report on the Assiniboine Day School and the matter of the enlargement of the basement and improvements to the cabin erected for the use of the Indians who bring their children to school in order that it may be made fit for a teacher's residence I have to ask you to be good enough to submit an estimate of the cost of this work, at the same time stating how you would propose to have it done. I may say that both of these suggested improvements meet with the approval of the Department.

Extract from Mr. Inspector Graham's report on the Assiniboine Day School, dated February 25, 1912. Original on 334701/6.

Last year I received your permission to enlarge the basement of this school but owing to a very busy fall and the unfortunate conditions at this Agency, I was unable to get the work done. The want of a large basement is much felt and I hope to get the work done this spring. In this connection I would ask if it will be necessary to have a renewal of your authority.

There is another matter that I would like to bring before you for your favorable consideration. When the school was built a small shell of a cabin was erected for the use of the Indians who might bring their children to school. It was found that this building was not used very much in view of the fact that the children were driven to and from school by an Indian hired for the purpose. Miss Lawrence, late last fall, converted this into a living house and she resided there ever since. She asks that the Department spend $150 to $200. in lining this cabin and adding a small lean-to kitchen for her cook stove, etc. I would strongly advise that this be done. She is doing excellent work and deserves encouragement. Might I at the same time ask permission to buy a foot-ball for the use of the pupils. Miss Lawrence has asked for this several times.

In reply I will say that the work at Assiniboine school and the teacher's shack could be done without engaging skilled labor. I have a fair knowledge of cement and concrete work myself. I could supervise the carpenter work, which can be done by some of our Indian boys.

Kindly specify what has to be done with the school and the teacher's shack. The farm instructor and myself will attend to this matter.

Sir,-

I beg to inform you that I visited the Assiniboine Agency on Tuesday last and in accordance with your instructions submit herewith particulars as to the work that should be done in connection with the Day School and teacher's residence at that point.

Day School

There are about three hundred and fifty yards of earth to be excavated from underneath the building. This will give a full sized basement of 32X 26. It will be necessary to build a concrete wall 32 feet long on the East side of the basement and another wall 20 feet long on the north side. The floor of the new basement will have to be cemented and three extra windows put in.

The Teacher was very anxious to have a galvanized iron cistern put in the basement so that she could use the soft water from the roof. I would advise that her request be granted as they use a great deal of water at this institution.

Teacher's residence.

The little cabin that the teacher is now using is only a mere shell. The idea is to line this building with building paper and V joint ceiling and it can then be used as a kitchen. An addition 18' X 14' X 8' should then be

The most of the work in connection with this little house and the basement of the school can be done by the Agency staff and Indians at a cost of about $600.00.

Ottawa, May 30, 1912.

Sir,-

I beg to enclose herewith memorandum of the repairs and improvements in connection with the Assiniboine School submitted by Mr. Inspector Graham. The Department desires to have this work done by day labour under your supervision and you may commence work on the residence at once. The work in connection with the school-room may be left until the school closes at the end of next month. Indian labour should be used as much as possible and the rate of wages allowed should be fair. I am enclosing herewith pay sheets, which you will be good enough to submit to the Department weekly. Payment will be made for the material upon the presentation of vouchers. I am sending you, under separate cover, an accountable cheque for $100.00 for the payment of wages. The Department trusts that you will have this work carried out expeditously and at a reasonable expense.

Your obedient servant,

[redacted]

Assistant Deputy and Secretary.

Memorandum for file:

Correspondence on file 21-102 indicates that authority has been granted for dismantling the Agency building on the Assiniboine Reserve.

A couple of rooms in this building have been used for living purposes by the teacher of the Assiniboine Indian Day School but in a letter dated June 7, 1937 Inspector Robertson stated that the teacher could be transferred to the old office which is a good building and would make a good teacher's residence.

Gentlemen,

Re Purchase Order No. 22860

We have your advice of the 24th instant, that you are unable to supply the Huron range 56L-130; that the nearest stove you have to that is your Western range with reservoir and high shelf priced at $75.00.

It will be in order for you to supply the latter unless you have available for immediate delivery a range corresponding more closely to the Huron.

Re: Telegram December 10th 1948,
Furnace Assiniboine Teacherage.

With reference to the above mentioned telegram, I beg to report that Purchase Order No. 35033 issued October 20th to Al M. Edwards was received, but owing to the steel shortage the furnace was not immediately available, and the old one was used. This furnace a 21" is now on hand being received a few days ago. I have contacted Mr. Edwards and he will install this furnace this week.

Enclosed herewith is a requisition for a 19" furnace required for the Teacherage (This furnance is also on hand),and is urgently needed.

We have two very good teachers at this reserve, they get on very well at the schools and the teacherage, we have Grades 1 and 2 with several grade 7 in No. 1 school and the rest in the new No. 2 school. The attendance is very good being much improved since the school sleigh started in mid November with 23 pupils taking advantage of this conveyance.

If authority is granted for the other furnace the two can be installed at the same time making one trip do the two installations, as the roads are very bad.

Authority is also requested for the installation of the furnace in School No. 2 at a cost of $65.00 this furnace was purchased last year. I might add that we have not received instructions regarding the new toilets required for school No. 1 (See letter of September 27th.)

DEPARTMENTAL PURCHASING AGENT

Re: Attached requisition for furnace for Teacherage - Assiniboine Reserve.

Purchase order 35033 has been issued for a new furnace for the Assiniboine School, but Indian Superintendent Kerley now advises that a furnace is also required for the teachers' residence on this reserve.

The present furnace is burnt out and corroded, the collar on the smoke pipe is broken and the grates are burnt out. The Superintendent considers that the cost of material and labour to repair it would amount to more than half the price of a new one and we would still have an old furnace.

He has secured a quotation of $250.00 for a Prairie Pride, all steel 19" furnace, installed with all new hot and cold air pipes, from A.M. Edwards, Wolseley, Sask. Mr. Kerley states that Mr. Edwards has this furnace in stock and he is prepared to install it immediately.

Under the circumstances, we would appreciate it if you would issue purchase order at once and wire Mr. Edwards to install the furnace in the teacherage. We have two good teachers at this school and we have received complaints from them to the effect that the teachers' residence is extremely cold.

At Big River a similar* request was made. As this Band are now nearly all located on their reserve with the understanding that they would be assisted in making a start something will have to be done towards making them self-supporting. As they have already received considerable assistance it is very little use giving them more in the way of stock and implements, unless a Farm Instructor is appointed to teach and direct them in their work.

Sir,

In answer to your letter of the 20st. instant, in regard to Mr. J. Isbister of the Big River School, I would say that he having been in our employ elsewhere in the same capacity and having had no complaint, the Commissioner had no hesitancy in giving him his present appointment. However, it was not mentioned that it was for one year, or more or less. It has been always understood that these appointments were during pleasure, and terminable on reasonable notice. In the present case although the Inspector reported as early as January as to the inefficiency of this man it was not contemplated that his engagement should end before the end of the fiscal year. The school is conducted in conjunction with the Church Missionary Society and Rev. Mr. Hines, who is in charge of the district protem, may have hired Mr. Isbister one year; but this office had nothing to do with this arrangement.

Replying to your letter of the 14th instant, I would say that Mr. Hines some time ago selected Mr. William Bear as teacher for the Big River school, and the selection has been confirmed by Archdeacon Mackay. I should like therefore to be definitely advised whether Bear is to be employed at the beginning of the new school term, or Mr. Isbister continued in the position. Sir,

With reference to the letter from Joseph Morin, addressed to you on the subject of the Green Lake school, I beg to say that there is only one school on Kenemotayoo's reserve (No.118) in the Carlton Agency ~~which~~ and it is conducted under the auspices of the Church of England. It is at present in charge of William Bear and is known in the Department as the Big River school.

We have never had a Roman Catholic school on this reserve to the Department's knowledge, and no such teacher as Rev. Pere Testom is connected with any recognized school, so far as the records show.

Sir,—

Referring to your letter of

Concerning Farming Instructor J.C.Macleod of the Big River Reserve, I have the honor to report that the relations between him and the Indians under him have been strained from the beginning of his work there. Umbrage was first taken by them at his exclusion of them from his dwelling. His predecessor had allowed them the freedom of the house and invited them to the table whenever their visits coincided with the meal time. The change was very marked and antagonized them.

Mr. Macleod has a very forceful and masterful manner in directing their work which they resent, and the unpleasantness between them has steadily increased, until a recent occasion when he lost his temper, and struck the orphaned boy Daniel Netmaker son of the late Hector (Nayneekikwonape H.M.No.14). This furnished a desired opportunity to the Indians and th those outsiders whom he had ~~xxx~~ antagonized; proceedings have been thratened and so much made out of it that his influence over those Indians has been lost. He recognises this fact and after first tendering his resignation, has replaced it, with a request for a transfer to some other reserve where his wife could also be employed in teaching. I recognize that Mr. Macleod has been most earnest in the discharge of his duties, and that his failure has been chiefly due to over zeal and an uncontrolable temper. I also recognize the excellent qualities of his wife; the kindly sympathy with which she attracted the Indian children, while maintaining a quite firm discipline over them. She will be missed from the Big River School,and I very much regret that her husbands hasty temper should apparently render impossible her continuance in the work.

With the hope that the Department may know of a suitable exchange such as asked for by Mr. Macleod ~~which~~ will also continue Mrs. Macleod's services to the Department,

I have the honor to remain,
Sir,
Your obedient servant,

Indian Agent.

Ottawa, April 9th, 1910.

Sir,

I have to acknowledge the receipt of your letter of the 29th ultimo in reference to the transfer of Mr. McLeod, farming instructor on the Big River reserve, to some other reserve.

In reply I beg to say that, as you have been advised, the Department has asked for the appointment of new teachers at the Ahtahkakoop and Sturgeon Lake schools. Could not an exchange be effected between Mr. McLeod and either Mr. Campbell at Ahtahkakoop or Mr. Isbister at Sturgeon Lake? Mrs. Macleod's services as teacher could then be utilized.

The Department would like you to consider this matter from both the school and farm point of view and report fully.

Dear Sir,

I desire to nominate Mrs McLeod wife of the Farming Instructor at Sandy Lake, the teacher in the Day School on that Reserve at Big River.

1. George Crane has left as there were no children to come to school in the quarter March to May 31st - Parents away.
2. It is at best a small school, & the parents, mostly Pagans, are quite indifferent about it
3. The Farming Instructor, Mr McLeod, seems interested in the welfare of the Indians, & his wife would like to teach. She seems capable of doing so, & they have both taken an interest in this sort of thing in Manitoba.
4. I can not get a certificated or trained teacher for your $300 salary, & I think the school as yet hardly requires one.
5. I have told her to begin from June 1st so as not to lose time, & that I hope you will appoint her.

I beg to remain
Yrs. Faithfully,

Right Reverend Sir,-

I have the honour to acknowledge the receipt of Your Lordship's letter of the 3rd inst., and in reply I beg to say that the Department approves of your action in placing Mrs. McLeod in charge of the Big River school.

The Department recognizes how difficult it is to secure teachers with proper qualifications for schools on outlying reserves. Much good ~~xxxx~~ may be done, however, by Mrs. McLeod, if she is interested in Indian work. The enrolment at this school is no as large as it should be, and if, after a fair trial, Mrs. McLeod is able to show an improvement in this and other respects, the Department will be Pleased to continue her services.

The Department does not wish Mrs. McLeod to confine her efforts to the school work alone, but would like her to Pay attention to the betterment of the home life of the Indians on the reserve in respect to cleanliness, neatness, ventilation, cooking, etc., working in conjunction with her husband, whose aim should be to raise the standard of husbandry among these Indians.

Right Reverend Sir,

I beg to refer Your Lordship to official letters of March 3rd, last, in which you were asked to advise the teachers of the Ahtahkakoop and Sturgeon Lake schools that their services would not be required after June 30th, next.

In this connection I beg to inform Your Lordship that the Department has under consideration the transfer of Mr. MacLeod, the farming instructor on the Big River Reserve, to either of the reserves above mentioned. In the event of this change being finally decided upon the services of Mrs. MacLeod would be available as teacher of the school. Excellent reports on her work at the Big River school have been received and presumably Your Lordship would have no objection to her appointment at Sturgeon Lake or Ahtahkakoop.

Ottawa, March 4th, 1910.

Sir,

The Department is in receipt of Mr. Chisholm's inspection report on the Big River school and is pleased to learn that Mrs. McLeod, the new teacher, is doing good work.

Mr. Chisholm recommends that the walls of the building should be willowed and plastered inside and outside, and he also states that the foundation is sinking and that the walls should be jacked up and a complete surface foundation put in before the plastering is done. The interior woodwork also requires another coat of paint. You will be good enough to obtain an estimate of the cost of having these improvements made and submit it to the Department.

In order that Mrs. McLeod may teach sewing to the girls you will be good enough to see that she is supplied with the following material:-

1 piece, (about 36 yards), of Chambray, for making dresses and pinnafores.

12 spools of crochet cotton, for crochetting.

12 crochet needles.

1 doz. spools No. 24 cotton thread.

1 doz. No. 40 " "

2 papers sewing needles.

12 yards lawn, for making handkerchiefs.

12 doz. buttons (10 doz. china and 2 doz. metal).

Sir,—

I have the honor to report that during my recent visit to the Big River Reserve, the Indians of that Band presented a request for the transport of their children to the day school on their reserve.

I submit herewith a rough sketch showing the distances of the different Indian families from the school, and would recommend that their request be granted, as I am satisfied that Mrs.Macleod will make a success of the school if the children can be brought within her influence.

I believe that I can secure the transport of the children there for $1.00 per day, and perhaps rations.

I now learn that the Bishop is in Germany, and will be away for five months.

In a post-card mailed by him Sept. 29th, (but only received to-day through a mistake in the addgess) His Lordship admits that Louis Ahenakew is no an Al teacher but says he is the only man availe -able. As any new pupils secured for the Big River School would not understand English, Louis would be better able to give them their first lessons, than a teacher who was unfamiliar with the Cree language, and I would therefore suggest that Louis Aheankew be accepted as a temporary appointment for a short time, say 3 months, until a suitable teacher can be secured.

In view of the temperary nature of the appointment which would not justify the expense of moving his family, I would suggest that his salary be increased for the time.

I beg to thank the Department for this decision, as, after a visit, from which I have just returned, I do not see any better arrangement open at present. In accordance with your letter, I am writing to Mr. Bonthwick informing him that I have nobody else in view at present for the position of teacher at Big River.

I am also suggesting to the agent that it might be a help to Mr Abemukew's efficiency if he would spend a day or two with Mr Hutchinson, in the school at Sandy Lake, before going to Big River, in order that he might get a little insight into methods of teaching and discipline. His weak point is not so much lack of knowledge as lack of up to date methods of imparting that knowledge.

Yours obediently

Sir,—

I have the honor to request authority to transport the Big River children to school, during the very severe weather, that is, for the next three or four months. Mr. Ahenakew, the teacher, is doing very well, and expects an attendance of at least 12 children, should authority be granted. The rate of $1.50 per day is asked, owing to the distance some of the children have to be fetched.

I have the honor to remain,

Ottawa, December 14, 1912.

Sir,-

I have to acknowledge the receipt of your letter of the 3rd instant in reference to the transport of children to school on the Big River Reserve during the winter months.

In reply I beg to say that you may arrange to have these children driven to school and the Department will pay for the services at the rate of $1.50 per day, if these are the best terms you can make. It is noted that only $1.00 was previously paid for this work and, owing to the very small number of children who could attend, it is thought that this should be sufficient now.

The attendance at this school has been so small that if some improvement cannot be effected the Department will have to take into consideration the closing of it and sending the children to one or other of the residential schools. The Department would like to know whether the teacher, Mr. Ahenakew, makes any effort to interest the parents in the school work.

Referring to your letter of December 14th, 1912, No.192747/1, I have the honor to inform you that Mr. Anenakew, teacher of the Big River Day-school, is an extremely conscientious worker and seemingly is endeavoring to interest the parents in connection with his school work. He informs me that at times he is apt to get a little discouraged, principally due to the small attendance. This however being rectified now that the children are being transported.

Taking into consideration that the majority of the Big River Indians were only half civilized a few years ago, one can see at a glance that the education which a few of these children have received, has had a very good effect on the Band as a whole, caused undoubtedly by Mr. Anenakew's efforts.

Dear Sir,-

Knowing that through your recommendation much can be done by the Indian Department, beg to request that you will be kind enough to recommend me to the said Department and ask them to raise my salary, near to, or equivalent to the salaries paid to other teachers on different reservations. I have taught school for a long period and my teaching has not been without fruit: for instance, Edward Ahenakew, clergyman; Alex Ahenakew, H.B.Co's book keeper; Adam Ahenakew, Shem Ahenakew, Edwin Ahenakew, and Allan Ahenakew, ambitious young men, are all my old scholars.

But if it turns out contrary to my wish and the Indian Department is not able to grant us our request, then, I wish to resign my position as teacher on Big River Reserve at the end of October 1913, and hope that the said resignation will be accepted and granted.

I have the honor to enclose herewith a copy of a letter this day received from Mr. Louis Ahenakew teacher of the Kenemotayoo's school in which he applies for an increase of salary, etc.,

In endorsing his application I beg to point out to the Department that great difficulty will no doubt be experienced, if his application is unfavorably receivedx, and his resignation is accepted, on the grounds that the teacher's residence at Big River is in such a dilapidated state, in fact hardly habitable, which would necessarily mean that Mr. Ahenakew's position would be hard to fill.

Mr. Ahenakew, on the other hand, is certainly trying to advance the education of the children under his charge, and latterly it is felt his exertions have met with very good results, in view of which, I would suggest that his services be continued, with an increase of salary, at least until a new residence for the teacher is erected.

I have the honor to be,

Mr. Louis Ahenukew, teacher of the Big River school in the Carlton Agency, has asked me to write to the Department to request for him a raise of salary "eqivalent to the salaries paid to other teachers on different reservations". I know that the Department has in some instances increased the salaries of teachers of ordinary day schools to $400.00, but I do not know whether the co ndition of things in connection with the Big Rive school would be considered by the Department to justify an increase of salary. Mr. Louis Ahenukew has served for many years and has been a fairly successful teacher considering the disadvantages under which he has worked, and, if the Department could see its way to grant his request, it would be an incentive to greater effort.

Now, while I do not know what salary Louis is getting at the present time, I think his pupils are making as much progress as at any of our other schools in the Agency, and owing to the high cost of living he should have at least $600.00 per year.

I understand that unless he can get an advance he intends resigning, and in event of him doing so, very few married men would be willing to accept the position, owing to the miserable old teachers dewelling they are compelled to live in., of course a single man, or Lady might be secured, but it is doubtful at the present salary.

Right Reverend Sir,-

I have the honour to acknowledge the receipt of Your Lordship's letter of the 15th instant in reference to the appointment of teachers for the Indian schools at Big River, Montreal Lake and Misteawasis in your diocese.

In reply I beg to say that, in view of Your Lordship's statement that you see no prospect in the present shortage of teachers and of manpower of filling these vacancies, the Department considers it advisable that the Big River and Montreal Lake schools should be closed at the end of this quarter at the latest and, if Mr. Ahenakew wishes to leave before then, he may do so.

The Misteawasis schools is not now in operation and the Department has nowish to retain the services of Mr. Settee after the end of the current quarter.

I have to request that Your Lordship will be good enough to inform Mr. Settee and Mr. Ahenakew accordingly.

The Department will be prepared to re-open these schools when Your Lordship is in a position to secure suitable teachers and a salary of $700.00 per annum will be allowed to teachers with the necessary qualifications.

Mr. Agent Milligan is being written to to the above effect.

Dated. Ottawa, October 28, 1926.

Sir,-

I beg to advise you that His Lordship Bishop Newnham, who was written to in regard to securing teachers for the Mistawasis and Montreal Lake schools, states that he can see no prospect, in the present shortage of teachers and of manpower, of filling these vacancies. His Lordship also states that Mr. Louis Ahenakew wishes to resign as teacher of the Big River school just as soon as he can be replaced.

His Lordship has been informed that the Department considers it advisable that the Big River and Montreal Lake schools should be closed at the end of this quarter at the latest and that, if Mr. Ahenakew wishes to leave before then, he may do so.

As you are aware, the Mistawasis School is not now in operation.

The Bishop has been requested to inform Mr. Settee and Mr. Ahenakew that it has been decided to close these schools.

His Lordship has also been informed that the Department will be prepared to re-open these schools when he is in a position to secure suitable teachers and that a salary of $700.00 per annum will be allowed to teachers with the necessary qualifications.

Ass't Dep't of Indian Affairs

Dear Mr McLean,

I desire to nominate Miss J. D. (Mrs G. M.) Prudden as teacher at Big White Fish Lake Reserve (Big River Reserve) where the school is now vacant & closed. She is the daughter of Mr & Mrs Hutchinson, teacher & matron at Stanley Blankets' Reserve, Sandy Lake, & has had experience under them in teaching & in the matron's hygienic work. This & her school-education should fit her for the work at Big River. She is, I believe, 25 years old. Her husband is away on Military service, which is, perhaps, an additional Claim on your Consideration. If you accept, as I hope you will, her services, will you kindly correspond with her as to terms, date of commencement, &c. &c. This will save time, as I am somewhat of a wanderer.

I have also asked Mrs McClair to correspond directly with you as to the Mistawasis Reserve School. The I.D. accepted my nomination of her, but she is in doubt as to some of the Conditions.

Yours faithfully,
J. A. Saskatchewan
Bishop

Dear Sir:-

In reply I can only say that at present I have not any idea where to look for a Teacher to take Mrs. Pruden's place at Big River. It is almost impossible these days to find a fit and suitable person to teach an Indian School at the current rate of salary, and I do not care to nominate one who is unfit. Wages are high and teachers are scarce. For a reasonable salary I might hope to get a returned soldier who is unfit for Active work. Ottawa, April 10, 1920.

MEMORANDUM.

Mr. Scott,-

With Compts

His Lordship the Bishop of Saskatchewan in a memorandum states that the Big River School in the Carlton Agency has been vacant for sometime.

In November, last, the question of appointing a teacher and re-opening this school was brought to the attention of the Department and Mr. Acting Agent Weir was instructed to inform His Lordship that the Department would pay a salary at the rate of $600.00 per annum for a suitable teacher, and that he should endeavour to obtain the services of a teacher. Nothing further has been heard from either the Agent or the Bishop since that time.

The Bishop now states that the salary is insufficient to secure a proper teacher. There is no doubt that in the Province of Saskatchewan it is impossible to secure a qualified teacher for a salary of $600.00 per [redacted]

I shall be pleased to be informed as to what salary will be allowed for a qualified teacher for this school.

The Bishop also states that both the schoolhouse and the teacher's residence are in a shocking condition and need repairs. The teacher's residence is the property of the church and they should have it repaired and made comfortable to provide suitable accommodation. I am not aware as to what repairs are needed to the school building, but, if it is decided to have the school reopened, the Agent should be requested to state what repairs are needed and the probable cost of the same.

Ottawa, April 15, 1920.

Right Reverend Sir,-

I have to acknowledge the receipt of Your Lordship's memorandum of the 31st ultimo regarding various matters in connection with the Indian day schools under your auspices in the Province of Saskatchewan.

In reply, dealing with the case of each school in the order in which they are mentioned in your memorandum, I beg to say, first,- with reference to the Fort a la Corne Day school, as you were informed by letter of January 13th, last, the question of providing educational facilities for the James Smiths Reserve is being considered by Mr. Commissioner Graham. He has asked that this matter stand in abeyance until next summer, when he will personally investigate and advise as to the best plan to provide educational facilities for the children of this reserve. He will consider the erection of a teacher's residence at Fort a la Corne; moving the residence from the James Smith's school; the re-opening of this school, or the removal of these schools to a more central point on the reserve, and report as to which of these schemes he considers to be the most advantageous.

Second,- Thunderchild's Reserve. The question of providing a day school for the children of this reserve cannot be favourably considered at the present time. It is hoped to be able to provide for the education of these children in residential schools.

Third,- Red Pheasants. It is noted that the teacher will be leaving on June 30th, next. The Department will be prepared to pay a salary at the rate of $900.00 per annum for a teacher with a Normal School Certificate. There is no need for the services of a married couple at this school, as the field matron work has been discontinued and there is no need for a dispenser. It is considered that a single female teacher would best meet the requirements at this school, and the Department will be pleased if you will endeavour to secure the services of a female teacher with a Normal School Certificate in time to take charge upon the re-opening of the school after the summer holidays..

Fourth,- Big River School, Carlton Agency. In November, last, Your Lordship brought to the attention of the Department the question of re-opening this school and appointing a teacher. Mr. Agent Weir was instructed to inform you that a salary at the rate of $600.00 per annum would be provided and to request that you endeavour to obtain a suitable teacher. The Department will be prepared to pay a salary at the rate of $900.00 per annum for a teacher with a Normal School Certificate.

With reference to the accommodation, the present house is owned by the Church and it is considered that Your Lordship should arrange to have it repaired and made comfortable to provide the necessary accommodation. Mr. Commissioner Graham is being written to regarding school matters on this reserve and requested to advise the Department as to his views in connection with the carrying on of the day school and the repairs necessary to the school building. As he is familiar with the conditions at this point the Department will await his decision regarding the re-opening of the school.

Fifth.- Regarding the salaries the Department is prepared to pay for qualified teachers I beg to say that a salary at the rate of $700.00 per annum will be paid to teachers having Normal School Certificates. The names, qualifications and experience of teachers nominated by you should be submitted for approval in each case.

Sir,

His Lordship the Bishop of Saskatchewan requests that the Big River Indian Day School in the Carlton Agency, which has been vacant for sometime, be re-opened. He states that both the school-house and the teacher's residence at this point are in a shocking condition and need repairs.

His Lordship is being informed that this matter is being referred to you to furnish a report concerning educational matters on this reserve and whether, in your opinion, you would advise that the school be re-opened. I shall be glad if you will at your early convenience report as to your views concerning the Bishop's request.

The Department will be prepared to pay a salary at the rate of $900.00 per annum for a teacher having a Normal School Certificate.

As far as the Department is aware the teacher's residence is owned by the Church authorities, and, if so, they should make the necessary repairs. Any repairs required to the school building should be stated and the probable cost of having the work done.

The last reports from this school when it was in operation shows that there were about twenty children enrolled, but the average attendance was only six.

Your consideration and report as to the best means of providing educational facilities for this reserve will be appreciated at as early a date as possible, in order that the Bishop can be informed as to what the Department is prepared to do regarding his request.

REGINA, SASK....Apr1.20, 1920.

Sir,-

I beg to acknowledge receipt of your letter of the 15th instant, informing me that His Lordship the Bishop of Saskatchewan, has made a request that the Indian day School on the Big River Reserve, Carlton Agency, be reopened and pointed out that both the school house and Teachers residence are in a shocking condition.

This is quite true, the school and residence are in a shocking condition. The buildings are old log structures and I doubt if they can be made habitable. The school has been nothing more or less, than absolute failure, during the last two years that it was open.

The Indians in this Reserve are hunters and are away a great deal of the time, and naturally this makes it hard to keep up a school. The Indians take little or no interest in education and although there has been a school on this Reserve for years, I doubt if you can find a child on the reserve that shows any appearance of ever having attended it.

In view of these conditions, I cannot advise the re-opening of this school, infact it would be a mistake to do so.

But how to find educational facilities for these children and the children of other Reserves, that are under the auspices of the Anglican Church is a question that will have to receive the serious consideration of the Department, as the day schools in this District are not a success. The sooner we can provide an up to-date residential school that will take care of all the Anglican children on the north, the better it will be for the Indians and the Department.

Right Reverend Sir,-

With reference to previous correspondence regarding the re-opening of the Big River school in the Carlton Agency I beg to say that the Department has received a report which bears out Your Lordship's statement that both the school-house and teacher's residence are in a very poor state of repair and are unfit for school purposes.

As it would appear that considerable expenditure would be required to place these buildings in a suitable condition, it is considered that, owing to the indifference of the Indian parents and the lack of interest taken by them in education, the expense involved would not warrant the Department in having the necessary work completed in putting the buildings in good condition. In view of these conditions, it is advisable that the re-opening of this school be postponed for the present.

Miss O'Donohoe:-

Mrs. G. M. Pruden is a daughter of Mr. and Mrs. Hutchinson, who are teacher and matron, respectively, at the Ahtahkakoops Indian Day School. She is at the time of this writing 31 years of age. Her husband saw active service in France. Mrs. Pruden taught the Big River Indian Day School, in the Carlton Agency, for the months of March to October, 1919, and resigned to take up a course in "Hospital Training". These are her own words. I am unable to learn whether Mr. Pruden is an Indian or not.

Sir:

I have to acknowledge receipt of your letter of the 22nd instant, informing the Department that you have been advised by Mr. John K. Bettee, teacher of the Montreal Lake Indian Day School, that he is being transferred to take charge as teacher at the Big River Indian Day School.

In reply I beg to say that His Lordship the Bishop of Saskatchewan, at the time of his recent visit to the Department, suggested that Mr. Bettee be transferred to Big River, and that a qualified teacher be secured for the Montreal Lake Indian Day School. He was informed that this arrangement would be satisfactory. We have not been informed as to the action taken by His Lordship to carry out the above suggestion, and we are communicating with him in the matter. As soon as we hear as to the arrangements he has made for the transfer of Mr. Bettee and the appointment of a teacher to succeed him at Montreal Lake you will be advised.

Your obedient servant,

Right Reverend Sir:

I have to acknowledge Your Lordship's letter of the 11th instant, with reference to the application of Mr. W. A. Austin for the position of teacher of the Montreal Lake Indian Day School. I have noted Mr. Austin's professional qualifications, and in view of the necessity for early action, sent you a night lettergram, as follows: -

> "Reference your letter eleventh instant, Department approves appointment Mr. Austin to position of teacher Montreal Lake Indian Day School. Salary at rate of $800 for ten teaching months, plus any bonus allowed by law. $60 per annum also allowed for services as overseer."

Mr. Austin's duties as overseer will be explained to him by Mr. Settee, who is being transferred to Big River Indian Day School. Mr. Indian Agent Weir will also write the new incumbent in this connection. Please communicate with Mr. J. Weir, Indian Agent, Leask, Sask., concerning the date Mr. Austin will report for duty.

Extract from Report of Inspector Murison on the

Big River Indian Day School.

I visited this school on January 29th, it is situated on the Big River Reserve about forty miles north of the Agency. This school was re-opened in September 1924 with Mr. R.B. Settee in charge as teacher. Mr. Settee had been teacher at the Montreal Lake Day School for a number of years, but I am informed did not make a success of that school. It is my opinion that he does not possess the personality required to make a success as a school teacher. While he is very respectable he does not possess the force of character which is necessary to command attendance at an Indian Day School.

The old class room has been repaired and I found it very clean and nicely decorated with spruce branches. The Church Authorities have not made provisions for proper housing accommodation for this man, and he is living in the old farm house which is in a very poor state of repair.

There are twenty-six pupils enrolled, twelve boys and fourteen girls. These range in age from six to sixteen years. The average attendance for the past month is shown on the register as 12.61. The children have to come from two to four miles, and I am told that many cannot come during the cold weather on account of poor clothing. The members of this Ban d largely subsist by hunting and take their children along with them when following this pursuit. It would be a difficult matter to operate a Day School successfully under those conditions. In my opinion I think it would be advisable that an increased effort be made to have these children attend the Boarding Schools. A start has been made already in this direction, but I think a more determined effort should be made to have these children properly cared for.

Commissioner Graham forwarded the above under cover of his letter of February 19, 1926, and states:-

"I would draw your attention to what the Inspector says about Mr. Settee, teacher at the Big River Day School. It seems to me that steps should be taken to place a qualified teacher here but the question is, could we get a teacher to go and live under the conditions that Mr. Settee is living under. The buildings are very poor and isolated, and I am quite sure we would have difficulty in getting any person who was a qualified teacher to go out there.

Inspector Morison's report on schools, Carlton Agency.

Dear Mr. Graham:-

I beg to submit the following report on the day schools in the Carlton Agency, which I visited when making my last inspection this year. Day schools are in operation on the following reserves:-

Big River,
Sturgeon Lake,
Wahpaton Sioux,
Sandy Lake,
Montreal Lake.

The day school on the Mistawasis Reserve has been closed by the Department, but it has been re-opened and is being operated as a boarding school by the Continuing Presbyterian Church at their own expense. I visited this school, however, and am submitting a report as to conditions there.

PIG RIVER DAY SCHOOL.

I visited this school on November 23rd, and found 3 boys and 4 girls in attendance, out of an enrolment of 21, 7 boys and 14 girls. The classes are divided as follows:-

Standard	I	- 11
"	II	- 2
"	III	- 6
"	IV	- 2

The average attendance for the September quarter was 14.86, but there has been a falling off in the attendance owing to the cold weather and the fact that a large number of the parents have been away from the reserve working out and hunting. The people on this reserve are

poor, and I found that the children had not adequate clothing for the cold weather. The girls in attendance, with one exception, were clad in a single print dress with an overall apron. The exception had a sweater only in addition. They all had 1 pr. of stockings and moccasins. This is not sufficient protection for winter weather, and as some of the children have to come from three to four miles from their homes, a regular attendance cannot be expected during the winter months. It is a wonder that they turn out at all during the severe weather.

They are provided with biscuits, tea and beef and rice soup for a mid-day lunch. The teacher had a garden and gives the children potatoes and turnips while they last.

Of the children enrolled, eight are from 12 to 15 years of age, and I think it would be a good thing if the parents of these children could be induced to send them to a boarding school.

The school building is log, willowed and plastered outside. It has been whitewashed inside and out, and was very clean, tidy and comfortable. The old double desks are in a very poor state of repair.

Mr. J. R. Settee is still in charge as teacher at this point. This man's qualifications are well known to the Department as he has been teaching day schools for over 20 years. He also has charge of the missionary work on the reserve. He was living in the old farm house, but has now fixed up what was formerly a small blacksmith shop as he found it very hard to keep the old house warm. It would be quite impossible to expect a qualified teacher to take over this school and put up with the conditions as they exist. I found the children rather backward in answering

COMMISSIONER'S OFFICE,
REGINA, SASK., December 23rd, 1927

Dear Mr. Scott:-

I am enclosing herewith a report on the five Day Schools in the Carlton Agency, which were inspected by Mr. Murison during the latter part of November and the early part of December.

The Big River Day School has never been considered satisfactory. The attendance is irregular and the building is poor. I cannot see that any improvement has taken place since the last inspection. In forwarding a report on this school on February 14th. last, I stated that I was in doubt as to whether it would be advisable to build a new school or not, and I am still of this opinion. The children in this northern part of the country will, sooner or later, have to be brought to a Boarding School, as none of the Day Schools at this point is doing what I consider to be good work.

EXTRACT 602-1-1

The average attendance at the Sturgeon Lake Day School is not bad, considering the conditions under which the Indians are living. This is undoubtedly the best school of the lot. You will note that the teacher has no desk. It might be a good idea to send one from Eaton's, as it would cost very little. There is nothing in the Estimates to provide for a floor for the teacher's residence. This, however, would not cost more than $25.00. The heating stove in the building should be replaced without delay. This will cost about $35.00.

EXTRACT 602-1-1

You will note that the Sandy Lake Day School is a log building sheeted on the outside and wainscoted inside with V-joint. The Inspector says it should be re-kalsomined and painted inside, and I may say that there is an amount in the Estimates for this purpose. You will note that there is indifference here on the part of the Indians about sending their children to school.

With reference to the Wahpaton Sioux Day School, I may say that,in my opinion, it has never amounted to anything and never will.

Regarding the Inspector's remarks in connection with the Mistawasis Day School, I think this is a decidedly bad arrangement to have children housed up in rooms of that size with no fire protection, and with no control over the feeding of them. The teacher cannot begin to feed, clothe and house children on the small amount he is receiving.

I have been of the opinion for a long time that there should be an Anglican Boarding School in the northern part of this province to take care of the large number of children who are getting a very indifferent education in Day Schools.

Dear Mr. Graham:

I have your 303-11 of the 23rd ultimo, enclosing Mr. Inspector Murison's report on the five day schools in the Carlton Agency. I note your opinion that one residential school should be provided so that these more or less unsuccessful day schools could be all closed. I am giving the situation at the Mistawasis Reserve serious consideration.

In connection with the Ahtahkakoops Indian Day School, I may say that we are arranging for desks and blackboard and I am authorizing the agent to repair the fence in the spring. At a later date, I will send you the necessary authority for the renovating and repairing of the interior of the school building.

You will receive a further communication regarding the improvements required at the Sturgeon Lake Indian Day School.

The school is being managed about as well as we can expect from a man who has had no professional training but until trained teachers are placed in charge of such schools, satisfactory progress cannot be made.

The attendance was very low on the occasion of my visit. This low attendance is due to the fact that a large number of the Indians are away hunting rats.

KINOOMOOTAYO DAY SCHOOL (BIG RIVER)

This school is under the auspices of the Anglican Church with Mr. John R. Settee in charge as teacher. This school was visited on March 13th, when I found 5 girls and 4 boys present out of an enrolment of 26. The average attendance for the December quarter was 16.42. The pupils were poorly, but fairly warmly clad. Their parents are poor and subsist by hunting, fishing and working out for settlers. These occupations take them away from the reserve a great deal and affect the regularity of the attendance. A bowl of hot nourishing soup, as well as tea, is given the pupils at mid-day. I was present and noted that the children thoroughly enjoyed it.

The school building has been repaired and a frame lean-to porch added. I found the building bright, clean and comfortable. A wash basin, as well as a water cooler, has been furnished.

Settlement 107-3-8

The teacher is still living in the old farm house, a very dilapidated building, and I feel that more fitting accommodation should be provided. The house is really not fit to live in during the cold weather, or at any time for that matter.

Mr. Settee is very easy going and does not appear to have any ambition to help himself. Conditions at this point do not change much from year to year and it seems to me that they are simply marking time under the present conditions.

It seems to me there is room for a change at the Big River Day School, but I do not know what to suggest. The school has just been started and perhaps another year will make it clear as to what should be done. I hesitate to recommend a new building for the teacher. However, if one could be built of logs for four or five hundred dollars it might be a good investment. I doubt if Mr. Settee is the man for this job, in fact I do not think he is.

I consider that I have done my duty on various Indian Reserves and also in Indian day schools for 14 years. On Big River Reserve for 3 years and 8 months. I am not certificated but I have had more exreriences than any of the school teachers in Carlton Agency so I think its about time the Department of Indian Affairs should consider this. They should increase my salary and give me a suitable dwelling house. The building or house that I am using was the farm instructor's dwelling house years' ago. When it rains in the summer the water comes right through. I don't see why I shouldn't get the help which the other teachers in Carlton Agency get. They can't do and will not be able to do any better than I can. My wife helps me a lot for she also has had a college education.

Dear Mr. Graham:-

I beg to submit the following report on the Big River (Kinemataye), Ahtahtakoops, Sturgeon Lake, Little Red River, Wahpaton Sioux, and Mistawasis Indian Day Schools, which I visited during the month of October last.

BIG RIVER DAY SCHOOL (Anglican)

I visited this school on October 22nd, but did not find any children in attendance. The teacher stated that there had been a dance over the weekend and the children had not turned up. The dance had broken up before our arrival. It is very evident that the teacher, Mr. Settee, has very little influence over these Indians. He made no attempt to get the children, and I attribute the poor attendance at this school, to a great extent, to his lack of aggressiveness. If the children come of their own accord it is all right, but if they do not turn up I am of the opinion that the man is too listless to make an effort to correct the parents.. It appears to me that this school, under present conditions, is not of any value, insofar as providing the Indian children with an education is concerned. It would be much better to close it up and endeavour to have the children placed in residential schools.

I would again call your attention to the teacher's residence. In the event of making a change of teachers, I am of the opinion that it would be hard to get a qualified, self-respecting teacher to take up residence the

in the building now being occupied by Mr. Settee. The need for a new residence at this school is a pressing one if the school is to be continued in operation.

The schoolroom is in good condition and I found it very clean and tidy. It has been kalsomined and painted.

There are 25 pupils enrolled, 13 girls and 12 boys. The average for the 15 school days in October was slightly over 11, or less than 50%.

Sir:-

I am enclosing herewith Inspector Murison's report on the various schools in the Carlton Agency.

Big River Anglican School.

The report on this school is very unsatisfactory. In Department letter No. 107-3-1 dated October 28th. last you state that you believe the time has come when it is necessary to erect a residence at this school and secure the services of a properly qualified teacher. It would be a mistake to put a residence here and let Mr. Settee occupy it, and I think that if it is proposed to reorganize the work it would be advisable to retire Mr. Settee at once and if necessary close the school until such time as a proper teacher can be secured.

Ahtahtakoops Day School.

I question very much if it would be good business to supply drivers at this school. It would be a pretty expensive business and it seems to me that the children who live at great distances from the school should be sent to Boarding School. With reference to the repairs required to the classroom and teacher's residence, the Agent has placed nothing in the Estimates for this work.

Sturgeon Lake Day School.

You will note the attendance has not been at all satisfactory here. This is not the first time I have received complaints about this school and the Agent has been written to but apparently is unable to improve matters.

Mistawasis Indian Day School.

You will note what the Inspector says regarding the matter of bringing the children back into residence. I am of the opinion that this would be a mistake. You will remember that we have had a lot of correspondence on this matter. However, I do not think it would be wise to take any steps until something develops.

chist who can speak no Cree, just at the present time would seem fatal to our work as a Church. Mr. Settee, being ably to converse freely with the old people in Cree is gradually winning them over to Christianity. I know the house is not like that of a good white housewife, and I know that the school attendance has not been good, though I am doubtful if that is the teacher's fault. But as a missionary, I believe he has given teaching which a non-Cree-speaking man could not give. Under these circumstances we should like to keep him there as missionary, and he could visit Chitek Lake also. Would the Department pay the new teacher a sufficient salary for him to live on without any additional salary from the Church ? Also would it approve of appointing his wife as field-matron, so that the salary would be added to in that way?

Dear Sir,

Re Big River Reserve (no.118) Day School.

The Bishop of Saskatchewan received a letter from you last Fall saying that at the end of this present term the Department would dispense with the services of Mr. J.R.Settee, and asking him to look out for a good qualified teacher for that Reserve.

I am in touch with a fully qualified male teacher, First Class Saskatchewan certificate, and many years teaching experience both in England and in Canada. He is married, and has an invalid daughter of twenty and a boy of fourteen and a half. His wife, to use his own words "prefers above all to nursing and taking care of children."

Now there are a few things to consider in regard to such an appointment. (1). I do not think it would be fair to ask such a family to live in the present house, but you have already said that the Department would consider the building of a new house.

(2). The Indians on that Reserve are in a transition stage between the aboriginal beliefs and Christianity, and very few of them speak English. Therefore to put in a teacher-cate-

Venerable Sir:

I have your letter of the 17th instant, regarding the Big River Indian Day School. I note that you would like to retain Mr. Settee's services as missionary for this locality. The Department is prepared to allow $1,000 for the 10 teaching months for a fully qualified teacher. If his wife is free for field matron's duties on the reserve, a salary of $300 per annum can be allowed.

I am pleased to state that funds are available for the erection of a teacher's residence, and, if you are able to make an appointment, please inform the Department at an early date, so that building arrangements can be made.

Dear Chief:

I have your letter of the 20th instant, concerning Mr. J. R. Settee, teacher of the Big River Indian Day School. I note that you and the Indian Band are satisfied with his services. I may say, on the other hand, that for some time the Department has considered it advisable to supply a really qualified instructor for this important school. I am sure you and the other leaders of the Band are desirous of a good education for your children. The Department has discussed the advisability of securing a new teacher with His Lordship the Bishop of Saskatchewan, and I am pleased to inform you that we hope to have a fully qualified instructor next fall. It may also be possible to erect a suitable teacher's residence at the school.

That portion of your letter which has reference to the establishment of a Roman Catholic Church on the reserve is receiving consideration.

Sir:-

I enclose a copy of the Agent's report of his visit in February to the Big River Day School. I wish to draw your attention to the significant statement of the Agent in the column of 'Remarks'. The report of his visit in January contains no remarks at all. The fact is that Mr. Settee's services have long ceased to be of any use, and I have constantly drawn this matter to the attention of the Department during the past year or two. Last October under cover of your 107-3-1, you expressed the opinion that the time had come when it would be necessary to erect a residence at this school and secure the services of a properly qualified teacher. Apparently no action has been taken to secure the better education of the children of the Big River Indians, and, in my opinion, the time for a change is past due.

I trust that I can receive the Department's assurance that action will be taken in the very near future, if it has not already been taken.

In this connection I have to say that the Department has taken up with the Church authorities the question of obtaining a qualified teacher for this school to succeed Mr. Sottee. The Church authorities were informed that the Department would be prepared to allow $1000 for the ten teaching months for a fully qualified teacher, and that, if his wife is free for field matron's duties on the Reserve, a salary of $300 per annum would be allowed. Dear Sir,

The Bishop of Saskatchewan begs to nominate Mr. David E. Eastmead as teacher of Pigeon River Indian Day School as from Sept.1st. next. Mr. Eastmead was trained as a teacher in England and was for assistant of a London school for five years. He came to Canada in 1912, taught several school in Saketopwan, secured a First Class Certificat in 1921 and has taught all grades up to 12.

Mrs. Eastmead is fond of nursing work and of taking care of children, and would like to apply for the position of Field Matron.

Mr. Eastmead is at present teaching at Kilwinning not far from the Carlton Agency and Mr. IndianAgent Moir has called on him and discussed the matter with him.

I am, Sir,

Yours sincerely,

BIG [illegible] DAY SCHOOL

107. 3. 1

I visited this school twice during the month of June, and found it closed on both occasions. It has been a common practice to close this school for very slight reasons, for example, the two days when I visited the reserve, the reason for closing the school was that there had been a death on the reserve, and the school in consequence was closed for two or three days. Mr. R. J. Settee has been in charge as teacher for about five years, but is being replaced, and I understand a new teacher has been appointed. When at the reserve I made complete arrangements for the erection of a residence for the teacher, and the work was well under way before I left the Agency. It is to be hoped that with the appointment of a new teacher, something more will be accomplished at this school. It certainly has not been a success in the past.

The roll calls for 20, and I found 9 present. They are graded as follows:- 15 in Grade I, and 5 in Grade II.

The school is a log building with the windows on both sides. It was clean, and I found the room bright and cheerful.

A new residence was erected this year for the teacher. It is a five roomed bungalow, and is well built and very comfortable.

A garden should be ploughed in readiness for next year, as the teacher wishes to help the children along this line, and it will also be a means of supplying vegetables for the noon meal. The garden, school, and residence should be fenced.

Sir:-

I am enclosing herewith a copy of Inspector Ferris' report on the Big River Day School, Carlton Agency, which was inspected by him on the 16th of the present month.

I would draw your attention to the small number of pupils present, and it looks to me as if the Department are not warranted in keeping this school open. It is absurd to keep a school open for an attendance of 1 boy and 1 girl. Of course, this may have been an off day, but I have looked over the return of a year ago, and I find that there were only 2 boys and 8 girls in attendance. This does not signify what the average was - it may have been 3 or 4.

I think the Department would do well to investigate this matter and see whether it is advisable to keep this school open at this particular time.

Sir,

I have the honor to acknowledge receipt of your letter No. 107-3-1 of the 27th. ulto. relative to the poor attendance at the Big River Indian Day School when Inspector Ferris made his inspection recently.

As far as I have been able to ascertain the following returns are correct:-

	Enrolment.	Average.
December Qr. 1930	24	12
March 1931	16	8
June 1931	20	9
September 1931	18	10

The teacher informs me that on the day of Mr. Ferris' visit it was very cold which accounted for the poor attendance. On November 26th. no children attended on account of weather, 26th. three attended and on 27th. five. Since this time he has had between ten and fifteen daily.

I might mention that the Indians of Big River reserve make their living from hunting and trapping, which means that at times they take their children with them as they cannot be left behind. Also at times they have dances which interferes with schooling though I endeavour to discourage dances as much as I can possibly can at all times.

I have the honor to be,
Sir,
Your obedient servant,

John Weir
Indian Agent.

EXTRACT FROM REPORT OF MR. R. S. DAVIS, INDIAN AGENT, ON HIS INSPECTION OF THE BIG RIVER INDIAN DAY SCHOOL in MAY, 1934.

JUN 13 1934

Original on 107-3-7.

This Band being Indians that hunt and trap for their livelihood keep on the move and consequently the children do not get a chance to attend school as they should. I noticed children that had apparently been in school for some time just playing with plasticine that in my opinion should be further advanced. They are not learning much and I do not consider that school warrants expense of keeping same open and I would recommend that same be closed and children sent to boarding schools.

Chief and Councillors also mentioned to me that they were not just satisfied with the way children were being educated. It appears to me that we are under a big expense and accomplishing very little and the only solution appears to be boarding schools as the day school on this reserve has been given a good trial.

Sir:

In his May report regarding the Big River Indian Day School, Mr. Agent Davis states as follows:-

> "I noticed children that had apparently been in school for some time just playing with plasticine, that in my opinion should be further advanced. They are not learning much and I do not consider the school warrants expense of keeping same open. The Chief and Councillors also mentioned to me that they were not just satisfied with the way children were being educated."

The teacher at this school is Mr. D. E. Eastmead, who has been in charge for the past 3½ years.

If the Agent's opinion of the work that is being done is correct, the Department considers that it would be advisable to change the teacher. Please let me have a recommendation from you in the matter.

Sir:-

I beg to acknowledge receipt of your letter No. 107-3-1 dated the 16th ultimo regarding the report of Mr. Agent Davis on the Big River Indian Day School in the Carlton Agency.

Mr. Davis' remarks with reference to conditions at this school were a great surprise to me, as I have felt that Mr. Eastmead and his wife have been the means, through their efforts, of considerably improving conditions at that school. In this connection I would refer you to Provincial Inspector R. H. Ferris' Report of an inspection, which he made of this school on November 22, 1933. The Inspector's report indicates very satisfactory progress, and I can hardly think that the work has gone back very materially since that time. Before acting on Mr. Davis' report I would like to visit this school again personally.

E X T R A C T from Report for the Month of September from R. S. Davis, Esq., Indian Agent, Leask, Sask., regarding the Big River Indian Day School.

Original on File 107-3-7.

I am not satisfied at all with this school. It appears to me on checking back returns that, since Mr. Eastmead was engaged four years ago, that children who were in Grade 1 are still in this grade, and if a change is not made we will have pupils in Grade 1 on the old age ration list. I am convinced no progress will be made until Mr. Eastmead is transferred and another one put in his place. In fact, I feel expense of operating this school under present conditions does not warrant the expense.

Received Ottawa, Feb. 24th 1925.

Kinoomeetayo Day School (Big River Reserve) 107-3-1

I visited this school on February 19th and found 5 pupils in attendance out of an enrollment of 16. I noted from the register that 7 of these pupils attended very regularly, practically 100%, the balance of the pupils attending very intermittently. Practically all the children come from homes within a radius of 3 miles of the school. The 5 pupils in attendance were all in Grade 1. I asked them questions in English, but they did not appear to understand me. They did understand Cree and would answer me in that language. In so far as the academic work is concerned at this school, I consider it very unsatisfactory. Fifteen of the pupils are classed in Grade 1 and 2 in Grade 2.

When on the Reserve the Indians complained to me that their children were not learning anything and they charged that the teacher was not giving the time and attention to work in the classroom that he should. Mr. Eastmead holds a First Class Permanent certificate. His academic standing is good. However after seeing the school and the teacher, I am of the opinion that he is out of his element in an Indian day school. The Indians apparently have no confidence in him and I question if he has the personality to inspire the necessary confidence to enlist the co-operation of the Indian parents. I am now quite in accord with Mr. Davis in that their should be a change of teachers at this point, if we are to expect even a measure of success in connection with the work of the school.

I found the school building neat and tidy, as well as the teacher's cottage and premises. I am sure the children are not below average in intelligence and they are capable of being taught, but it is a question of obtaining a teacher who can impress his personality on the Indian parents and make the school work attractive to the Indian pupils. The Chief and Councillors were sufficiently interested in this question to make a special trip of nearly 40 miles to the Agency to see me for the purpose of having another talk and put in a further appeal to have this teacher transferred and a new one appointed. With that feeling towards a teacher existing, it will be impossible to look forward to much success.

The Honourable the Superintendent General.

On the recommendation of the Right Rev. C. E. Lloyd, D.D., who was at that time Bishop of Saskatchewan, the Department appointed Mr. David E. Eastmead as teacher of the Big River Indian Day School (Reserve No. 118 - Electoral District of North Battleford). Mr. Eastmead began duties at the Big River School on September 1, 1930. This school is in the Carlton Agency. Within the past six months the Indian Agent has reported on two or three occasions that he was dissatisfied with the work of the teacher.

Inspector Murison was requested to visit the school and make a special report, a copy of which is enclosed.

In view of Inspector Murison's report, I should appreciate your concurrence in notifying Mr. Eastmead that his services will not be required after the end of the current academic year, viz., June 30, next.

INSPECTOR'S REPORT

.....Big River(Kinoomootayaa).....INDIAN DAY SCHOOL

Date of Inspection ..... November 14 , 1934.

Number of Pupils present { Boys ..... TWO
Girls ..... SEVEN

Number of Classrooms and number of desks in each ..... ONE : twenty-two.

THE TEACHER

Name ..... DAVID ERNEST EASTMEAD ..... Age Between 50 and 60.

Salary ..... One thousand dollars per annum less ten per cent.

Qualifications ..... Permt. First Class Certificate, No. 234-27.

Health ..... Good.

Success ..... From the standpoint of strictly academic achievement no great progress is being made. Pupils show little capacity in this direction.

Suggestions ..... I would suggest that the teacher continue to stress that phase of the classroom work which may be classified as "manual training".- sewing , knitting, and hand-work of that sort. Every possible effort should be made to induce the children to talk in the English language. Pupils are disposed to be very shy and reticent.

REMARKS RELATIVE TO THE EXAMINATION OF THE PUPILS

All pupils present on the above date were classified as Grade 1 , though there were two or three divisions of the grade. Some of these children have been in attendance off and on for the past two years. Those who have attended two years submitted specimens of WRITING which were neat and legible. Those in attendance from 1 year to 4 months are getting the form of the letters but their performance is not as yet of high quality.

ATTENDANCE PROBLEM, REMEDIES SUGGESTED, Etc.

The average attendance for the current quarter, as indicated by the school register, is a little higher than that recorded in previous reports on this school. Some of the children reside as far as five miles from the school and this may be regarded as a valid excuse for irregular attendance. Those living within reasonable distance of the school have been fairly regular in attendance. Regularity in attendance can be attained only through the co-operation of parents and teacher. The teacher's part is to endeavor to make school life sufficiently attractive to induce children to attend more or less of their own accord. The hot mid-day meal is an important factor in this respect.

ORDER, CLEANLINESS AND DISCIPLINE

PUNCTUALITY..... Pupils frequently late in arriving at school.

CLASS ORGANIZATION ..... Satisfactory.

PRESERVATION AND ARRANGEMENT of Furniture..... Good.

CARE OF MATERIAL..... Good.

CLEANLINESS of Pupils..... With one or two exceptions, pupils were clean.

OBEDIENCE..... Good.

CONDUCT of Pupils in School..... Good.

do out of School..... Enter cheerfully into play activities.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

As stated elsewhere in this report, there seems to be little hope of making any great showing with these children along academic lines. The most that the teacher can hope to accomplish with the material at hand is to develop habits of cleanliness and encourage better living conditions. If pupils acquire a knowledge of the principles of healthful living and some measure of skill in hand-work , that is about all that can be expected. Possibly a little more emphasis on oral language work could be introduced to good advantage.

REMARKS RELATIVE TO EXAMINATION OF PUPILS(continued from sheet 1)

NUMBER WORK OR ARITHMETIC : In this line of activity pupils displayed little more than the ability to count as far as "ten". It is apparently very difficult to build up any real or lasting number concepts. At one moment the sum of 2 and 4 is"6". But five minutes later it may be "3", "4" or "7". It will take long and patient effort to teach these pupils the fifty-five addition facts required for grade 1.

READING: Pupils read from the "Joe-and-Ruth" Primer for me. One improvement noted was that pupils now speak out so that they can be heard from a short distance at any rate. Pronounciation was good with the exception of those sounds with which children of this race experience special difficulty,- "f", "v", "l", and "th". They evidently have some idea of what they are reading , but it is very difficult to induce them to make any attempt to express this idea in their own words.

WORK BOOKS: The work books which accompany the readers referred to above were examined. Some of the pupils show an appreciation of color and a measure of skill in drawing. Other show very little capacity along this line.

The most valuable part of the pupils' training and the one in which the greatest measure of success is being achieved is in the field of hand-work already referred to. It would appear that this is about the only line of work that the children have the capacity to grasp.

The Secretary
Dept of Indian Affairs.

Dear Sir,

In amplification of question re Interest of Parents in Children's Education, I beg to state that with a band existing by trapping and hunting, there is not that keenness for education that is seen in other bands. Especially at this time of the year, the whole band seems to go off after muskrats, only one or two leaving their wives and children. All those living within 3 miles attend whenever they are on the reserve.

One man always sends notice when he is going away, and sends his children as soon as he returns. Another has built a house one-half mile from school, so as to give his children a chance, but has gone back to the North end of reserve for trapping. There are one or two more who need no urging to send their children but in many cases I have to try to get them by talking to the parents. The two councillors help, but the chief is not very keen. The, too, part of the band resides mainly at Stoney Lake, twenty miles directly N.E, and I only see those children when they visit here. Even at that they usually come to school. On the whole the average attendance by percentage has remained about stationary for the last ten years.

I wish to refer to my memorandum dated March 25th, last, relative to dispensing with the services, as from June 30th, next, of Mr. David E. Eastmead, teacher of the Big River Indian Day School (Reserve No. 118 - Electoral District of North Battleford).

Mr. Inspector Murison, Regina, took this matter up with His Lordship the Bishop of Saskatchewan, under whose auspices the school is conducted. As it was not found possible to arrange for a transfer for Mr. Eastmead, His Lordship considered it advisable that his services be dispensed with. He now nominates Miss Cora Merrett for the position as teacher of the Big River School for the coming academic year, to begin duties September first, next. Miss Merrett holds a permanent second class professional certificate for the province of Saskatchewan and has had considerable teaching experience. Mr. Inspector Murison recommends the appointment of Miss Merrett. The salary allowed at this school is at the rate of $100 per teaching month.

Dear Sir :

Reference Your No.107-3-1 of May 15th.
Big River School.

In reply to this letter I shall attempt to give my ideas and reason for the conclusion at which I have arrived.

In a survey of the Reserves on which we have day schools, we find certain reserves where agriculture predominates, others where hunting and trapping are the chief source of subsistence. On the farming Reserves there are farming instructors, on the others the only contact we have is through the occasional visits of the Agent, or through the School teacher.

In the appointment of teachers I think consideration should be given to each particular type of Reserve. For example, on an agriculture Reserve there is a farming instructor, the Indians are more advanced. On these Reserves a more intensive programme of education can be carried on, sewing, knitting and housekeeping should be stressed, and I think the teacher should be required to visit the homes, organize the women and give half a day a week instructing them in sewing, knitting, handicraft and

housekeeping work, using the school room for that purpose. The farming instructor should, during the winter, give half a day a week to instructing the boys in the use of the hammer, saw, etc. He could do this on the day the teacher had the womens' class, and the girls could work with their mothers.

The carrying out of this policy would necessitate the employment of women teachers, or a married man whose wife would undertake to instruct the girls and women in sewing, etc.

On Reserves where hunting and trapping predominate I think a man teacher who would fill the dual position of Teacher and Overseer would be in the best interests. This man should, of course, be carefully selected and with the understanding that his wife would be required to instruct the girls in sewing, etc., and also organize the women for the same purpose.

The Indians on these Reserves are very backward. We cannot hope to make any great advance in either education or farming in this generation. Consequently a man and woman with the ability to impart knowledge and a propensity to social work, together with a fair education and a knowledge of gardening and farming should be selected for the position.

With a closer co-operation with the Church and a better understanding of what our aims and objects are, I do not think we should have any difficulty in securing satisfactory men and women for these positions.

Kinistino Reserve - We have had a farming instructor on this Reserve for some time but these Indians are very backward. They do not believe in education and do very little agricultural work. I may be wrong, but it is my opinion that a man and women of the type mentioned will for the next few years do better work than a separate farming instructor and teacher and at less expense to the Department.

Big River Reserve - This is another place where in my opinion we should have a man as teacher and overseer. We have, however, in Miss. Merrett a splendid teacher and one whose services should not be lost to the Department. As there is no other school to which she could be transferred, I would recommend that no action be taken this year. This will give us time to give the matter

further consideration, and if next Spring a change is considered advisable, the probabilities are that a transfer could be arranged.

I am in accord with the necessity for security of tenure and thatbe teacher should not be dismissed for not doing work they were informed came under the contract. At the same time I do not think that a teacher who takes no interest in anything outside his school, more particularly on Reserves where there is no other representative of the Department, is the type of person we want in the service.

It appears to me that there is not the co-operation between the different branches of the service that there should be. The Teacher, the Missionary, the Clerk, etc., seem to feel that theirsare separate units or machines, that their work is circumscribed by certain limits, and that the co-operation, assistance or advice of one Branch is not asked for, appreciated, or wanted by the other.

I believe if we could impress upon the minds of the members of each Branch, including the clergy, the fact that they are not seperate units but that they are vital cogs of one machine, working for the advancement of the Indian, that the success of one depends upon the success of the other, that their co-operation, assistance and advice is not only welcome but vitally neces ary, we would make much greater progress.

In conclusion I wish to say that I believe we have not paid enough attention to the Indian woman. The Indian woman has great influence on the destiny of the Indian, she makes or breaks him.

We spend a lot of money educating the girls in cleanliness, housekeeping, etc., yet whenthey marry we let them go into homes when they have nothing to work with, nothing in which they can take any pride or that will keep up their morale. I am satisfied the fault is greatly ours that so many of them fail and that $75.00 or $100.00 spent in supplying these young couples with household equipment would do more to advance them than $200.00 spent on horses, etc.

I trust I have not worried you with my ideas.

Yours very truly,

Thos. Robertson

Ottawa, June 11, 1937.

Dear Dr. Robertson:

I desire to acknowledge receipt of your letter of the 4th instant and to thank you very heartily for the information contained therein.

It is my hope that, with the active co-operation of the church authorities, we shall be able to move steadily toward the objectives you have in mind. When the new school at Kinistino is built, we have in mind a very capable teacher, who has had agricultural experience and who, with his wife, should be in a position to proceed with a worthwhile community programme at that reserve.

I note, also, your suggestion that the sum of $75.00 or $100.00 be spent in supplying young Indian couples with household equipment. We are making a number of such grants at the present time, but the appropriation at our disposal is somewhat limited. I shall be glad to keep your recommendations in mind, however, in the hope that this appropriation may be substantially increased in the year ahead of us.

Yours very sincerely,

Dear Mr. Flemming:

Rev. Father G. E. Paquette, O.M.I. who is in charge of the Catholic Mission of the Big River Indian Reserve has asked me to write to you and ask you to help him in securing the services of a Catholic Teacher for the School on the Reserve. The population on the reserve is according to Father Paquette divided as follows:

Indians	Catholics	152
do	Anglicans	36
do	Others	38

Children supposed to attend school

Catholics	23
Anglicans	8
Others	6

I am getting in touch with our Prince Albert Office regarding this matter, but I am depending on your support of this request as I really think it is well founded and justified.

If you wish to write Father Paquette his P.O. is Shell River.

I expect to be down your way soon but in the meantime let me congratulate you on the firm stand you took on the Tariff question.

Dear Omer:

Re: Your letter of July 19, Big River Reserve.

With reference to the Big River School I might point out that our Schools both Residential and Day are run under the auspices of either Church. That Church nominates the Teachers, and so long as that School continues that Church has this privilige. The Big River School is under the auspices of the Church of England, consequently the Church of England has the right of nominating the Teacher. Any effort to have a Roman Catholic appointed to this School would simply stir up trouble, as any effort to have a Protestant appointed to a School under the auspices of the Roman Catholic Church would. Father Paquette should know this and I would be very sorry to see him take any further action in the matter.

No religious instructions are given that exception can be taken to by any Church, but I am sure that arrangements can be made where by the School will be made available to Father Paquette to give the Children of his denomination religious instruction.

DEPUTY MINISTER

Re: Big River Indian Day School

I desire to acknowledge receipt of Mr. Pratt's memoranda of July 20 and August 5 enclosing correspondence from Dr. H. H. Fleming, M.P., Omer Demers, M.L.A., and Rev. G. E. Paquette, O.M.I., requesting that a Catholic teacher be employed at the above-mentioned school.

About thirty years ago the Anglican Church authorities brought to the Department's attention the necessity for having a day school on this Reserve. The Big River School was started at that time and ever since the Anglican Bishop of Saskatchewan has been allowed to nominate the teacher.

The statistics regarding the religion of the Indians of the Big River Band as supplied in Mr. Demers' letter are practically the same as shown in our official census of 1934. From this it is evident that the Catholics on the Big River Reserve greatly outnumber the Anglicans.

As our day school return forms do not require the teacher to state the religion of the pupils attending the school I am unable to advise you whether or not the information regarding the religion of the children of school age is correct.

Indian Affairs. (RG 10, Volume 6280, file 602-1, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

I am under the impression that very few of the Catholic Indian children have been attending the day school but they have usually been enrolled at the Duck Lake Indian Residential School. Owing to the general increase in school population the Duck Lake School apparently finds it impossible to accept as many children as formerly from the Big River Reserve. As a result the Catholic children of school age on the Big River Reserve are apparently attending the day school in larger numbers and, as the Catholics are in the majority on the Reserve, the Missionary, Rev. G.E. Paquette, O.M.I., considers that the teacher should be a Catholic.

It will be difficult to change the teacher for the academic year 1938-39 due to the fact that the school year opens within the next few weeks and the same teacher who was in charge of the school last year is, I understand, prepared to resume duties.

On the other hand the Catholic Indians have the right, under the Indian Act, to demand a school conducted under Catholic auspices, provided they have sufficient children to justify operation of a day school. From the information now available it would appear that this is the case. However, I am communicating with Inspector Robertson requesting him to obtain definite information regarding the religion of the children of school age on this Reserve in order that we can ascertain how many of them are Catholics and how many Anglicans.

I return the correspondence which was forwarded with the two memoranda mentioned above.

Dear Sir:

I desire to acknowledge the receipt of your letter of the 22nd ultimo enclosing letter received by you from Mr. Omer Demers, M.L.A., also a copy of your reply in connection with the teaching services at the Big River Indian Day School.

This matter had already been brought to the Department's attention. If you refer to the last official census you will note that the Catholics on the Big River Reserve greatly outnumber the Anglicans and consequently it was to be expected that at some time they would demand a Catholic teacher. I realize, of course, that it would be awkward to change the teacher for the coming academic year but in view of the provision in the Indian Act there is no question that if the Catholics ask for a day school on this Reserve, and if they have enough children to justify operation of a school, the Department would be obliged to provide a day school for the Catholic children. Apparently the majority of the Catholic children in the past have been attending the Duck Lake Indian Residential School.

I would appreciate if you would instruct Indian Agent Davis to obtain the following information at once and forward same to me through your office:

1. Number of Catholic children on Big River Reserve between the ages of 7 and 16.

2. Number of Anglican children on Big River Reserve between the ages of 7 and 16.

Dear Miss Merritt:

I have for acknowledgment your letter of the 27th ultimo, in which you submit, for departmental consideration, a number of problems confronting you in the operation of your school.

I must express regret that the funds at our disposal did not permit us to proceed with the reconstruction of the kitchen at your school. However, if you are urgently in need of a stove, you should submit your request to the Indian agent and have him forward it to the Department. If this is done, an attempt will be made to purchase a stove at the earliest possible date.

The earlier part of your letter suggests that an attempt is being made to have a Roman Catholic school established on your reserve. If such is the case, this action is in no sense due to dissatisfaction with your work. It is my opinion that your work at the school has been uniformly good and uniformly satisfactory over a period of years. The Department has not the right, however, to send Roman Catholic children to a Protestant school or to a school conducted under Protestant auspices. Section 10 - subsection 2 - of the Indian Act reads:

> "No Protestant child shall be assigned to a Roman Catholic school or a school conducted under Roman Catholic auspices, and no Roman Catholic child shall be assigned to a Protestant school or a school conducted under Protestant auspices".

I have been informed that this has been the law in Canada since -

since Indian day and residential schools were first established. I note your reference to the fact that no religious instruction of a sectarian character is given. It is just possible that the majority of the parents may be satisfied with the instruction provided. On the other hand, there may be parents, particularly Roman Catholics, who may be anxious to have definite religious instruction provided from day to day. Possibly, the Roman Catholic parents might be satisfied if their Priest were given an opportunity to conduct religious exercises or provide religious instruction for the Catholic pupils in attendance, after school hours, for at least two days each week.

This whole matter was referred to Dr. Robertson on August 12, last. No action will be taken by the Department until a full and complete report has been submitted by the Inspector and by the Indian Agent.

Dear Mr. Fleming:

I thank you very much and am very satisfied you used your influence about the school that we re-built this summer for my Catholic children and so you have succeeded my wishes. Immediately, the Catholic children will be in the new school, I will ask them to pray for you and also for the success in your works.

I heard yesterday the Anglican Minister at Sandy Lake and the Anglican school teacher here work very hard near the Indians to have only one school day on the reserve, here, but they want to control it in spite they are 67 Anglican people, 27 pagans and us we are 159. Then would you be kind enough to ask again to the Indian Department a new school for the Catholic people and the Anglican people keep the one that they got since 35 years For this to avoid some trouble and some blunders between Anglican and Catholic people.

Furthermore, I send you a copy of a letter of the school teacher here and my reply.

I thank you again and I remain,

Yours truly,

Dear Sir:

Since long time I never heard something about the school. The Government was supposed to build one for the Catholic Indians on the Big River Reserve according to your letter of last February. Today I heard the Government will build one school. I don't know which religious denomination is to have the control of this said school. Would you be kind enough to write to the Indian Department about the school and to press for my rights.

You know the census of the reserve - Big River is the following: 162 Catholics, 19 Anglican people and 27 pagans. As you may see according to the Indian Act the majority is supposed to have the control of the school or to have one school for his members.

Thank you and I remain,

Report on the Big River C.E. Indian Day School

Dear Sir:

As stated in my previous report, I visited this School on a Saturday and the children, of course, were not in attendance. However, I was informed that there are 18 children on the register and the average attendance for the last quarter was 13.

From information I have received I believe that Miss Cora Merrett is a very good teacher and she certainly would have to be interested in her work to live up where she is.

The furnishings of the school were all in good order and the same thing regarding attendance applies here as in the Roman Catholic School, that is, the Indians are all hunters and away mostly during November and December and also during the month of April. The same remarks I made in my report on the Montreal Lake School regarding holidays apply here if my suggestion meets with the approval of the Branch.

Sometime ago I noticed in the Prince Albert Herald that the Church of England was advertising for a teacher for the Big River Church of England Day School; I then was told by the Indians that Miss Merrett the teacher had been transferred to James Smith Reserve in the Duck Lake Agency; I visited the sch ool the other dayand found Miss Merrett all packed and ready to move.

Last year while talking over some matters with Bishop Martin, it was desided that she should be transferred at the first opportunity, but since that time had heard nothing further.

I would be pleased to learn where the agent stands regarding Day Schools, as I feel now that he is more or less than a chore boy, when any trouble arises with these schools, he is the first one to be blamed.

Very Reverend Sir:

I desire to refer to my letter of September 30 last approving the appointment of Mr. J. Nevin Ross as teacher of the Big River C.E. School. In a letter dated the 9th instant from Indian Agent Davis he encloses Mr. Ross's resignation, effective December 31, 1941. This resignation is being accepted.

It would be appreciated if you would nominate a qualified teacher to take charge of this school for the balance of the academic year.

Yours truly,

Dear Sir:

In reply to your letter of December 13 last, #107-3-1, we advertised for a teacher for the Big River Reserve C. of E. School and I now beg to nominate Mr. Brooks L. Gowen, Elfros, Saskatchewan.

Mr. Gowen is a young man of twenty-three years of age, unmarried. He took Normal at Regina during the season of 1939-1940 and taught a rural school near Foam Lake, Saskatchewan with 20 to 25 pupils, mostly foreign children. Last summer he took a further course at the University of Saskatchewan. He says he has received good reports from his superintendents.

We should have liked to find a married couple who would be suitable but have not been able to find such a couple. I hope, therefore, that you will approve the nomination of Mr. Gowen.

Faithfully yours,

Henry D. Saskatchewan.

SYNOD OFFICE
PRINCE ALBERT, SASKATCHEWAN

October 7, 1943

Dear Mr. Hoey:

I have good news to pass on to you regarding a teacher for the day school on John Smith's Reserve and also on the Big River Reserve.

Mr. Percy Farebrother, whose resignation took effect at the end of September from the Big River School, has just returned from Regina. He left the school to join the Army. He is a veteran of the last war. he was passed by the doctor here in Prince Albert but rejected by the Medical Officer in Regina on account of varicose veins. he is returning to the school at Big River today. I am most happy about this as Mr. Farebrother has done such splendid work among the Indians of big River during the past year.

I also nominate Mr. Edward Harry McGowan, of Davis, Sask., as teacher for the day school on John Smith's Reserve. Mr. McGowan has taught for many years both in Manitoba and Saskatchewan. He holds a third class teacher's certificate from Saskatchewan. Latterly, he has been farming but feels now that he would like to go back to teaching to help us in the present difficult situation. I have interviewed Mr. McGowan and I feel that he will do admirable work among the Indians at John Smith's Reserve.

May I trouble you to let me have an answer as soon as possible so that the school work on John Smith's may be resumed at the earliest possible date.

With kindest regards,

Sincerely yours,

Henry D. Saskatchewan

Re: Big River C.E. Indian Day School, No. 602.

In my memorandum of the 16th ultimo I advised you that Mr. Percy Farebrother had resigned, effective October 1, 1943. Please do not take any action toward returning any amount he may have to his credit, as it is likely that he will resume duties at this school in the near future. As soon as I have definite information on this point I will advise you further.

Mr. Philip Whelan,

Dear Mr. Phelan:

I have just had a talk with Mrs. McLeod, our teacher at Big Whitefish Reserve. She brought me a request of the Chief of the band which I am herewith passing on to you for your sympathetic consideration and possible action.

The Chief has asked that a small building be erected for the accomodation of children where they would be left while the parents go hunting. Behind this request is the fact that if these parents have nowhere to leave their children when they go hunting, then, out of necessity, the children must go with them, and this, of course, prevents the children from attending school.

I hope you will give this matter your consideration and also, if possible, help these people out.

I am, faithfully yours,

L'honorable J.A.Glen,
Ministre des Mines et des Ressources,
Ottawa, Ont.-

Monsieur le ministre,

Le révérend Père G.E.Paquette, O.M.I., qui fait du ministère à Big River, Réserve Indienne, en Saskatchewan, et qui vient de ma propre ville, porte à mon attention les faits suivants et me demande de vous en faire connaître également la teneur:

"Depuis septembre, nous avons de la difficulté avec certains enfants concernant l'assistance en classe. Ils disent qu'à l'école anglicane, ils peuvent s'absenter tant qu'ils peuvent et que l'allocation familiale leur est accordée quand même. Le Département avait fixé cinq jours par mois. S'ils manquent plus de cinq jours par mois, ils n'ont pas l'allocation. A l'école, ici, la maîtresse enseignante se montre sévère à ce sujet. L'automne dernier, le jeune Sam Lachance de l'école anglicane a passé quasiment deux semaines devant l'école catholique à attendre les enfants pour jouer. Les religieuses ont vu le jeune Lachance comme moi faire l'école buissonnière. L'allocation pour ce mois lui fut accordée comme elle le fut à ceux qui ont fréquenté l'école régulièrement. Je n'aurais pas dit un mot si le conseiller Thomas Whitefish dont les enfants fréquentent l'école anglicane a osé dire devant trois ou quatre Indiens à notre école, c'est-à-dire à l'école anglicane, les enfants manquent tant qu'ils veulent et l'allocation leur est donnée régulièrement".

L'honorable J.A.Glen:

"C'est une source d'ennuis pour nous et il me semble que la même loi doit s'appliquer aux enfants des autres dénominations comme aux enfants catholiques.

"Tout dernièrement une femme indienne, Mrs. Benjamin Netmaker prenait le chemin de l'hôpital de la Ste-Famille à Prince-Albert. Après examens des docteurs, décision fut donnée qu'elle a absorbé trop de médecines indiennes qui lui ont brulé tout l'intérieur. C'est ce que le Dr Tucker de Prince-Albert a dit dans une famille ici sur la réserve, et il a essayé de savoir qui lui ont donné ces remèdes. D'abord cette femme reçut des remèdes indiens de Frank Netmaker et en outre lui a donné une saignée au coudre. J'ai les preuves de ce que j'avance. Ensuite Charlie Lachance lui a donné lui aussi des remèdes. Ces deux individus après qu'ils ont soutiré tout ce qu'ils ont pu de la malade en question et qu'ils voient qu'ils n'ont plus d'espoir, à ce moment-là ils font demander le médecin et si ce dernier ne réussit pas, ils l'accusent d'incapacité, etc. Je crois que c'est le bon moment de mettre ces deux nigauds à la raison surtout dans ce cas-ci; on pense, d'après le rapport du médecin que c'est un empoissonnement de sang. Je demanderais au Département Indien d'agir et de faire en sorte qu'ils soient punis sévèrement. Alors les blancs qui demeurent près de la réserve cesseront de croire que le Département Indien ne fait pas sondevoir à ce sujet et qu'il accorde aux Indiens des médecins non qualifiés."

Je crois que ces faits méritent certai-

Ottawa, April 13, 1948.

Hon. J.A. Glen,
Minister of Mines and Resources,
Ottawa, Ontario.

Dear Sir,

Reverend Father G.E. Paquette, O.M.I., ministrant at Big River, Indian Reservation, in Saskatchewan, and who comes from my own city, calls the following facts to my attention and asks me to make them known to you. In his letter, he states:

"Since September, we have difficulty in getting certain children to attend school. They say that at the Anglican school they can stay away as much as they like and that the family allowance is granted to them just the same. The Department had set five days for absenteeism per month. If the children are absent over five days per month, they do not get the allowance. At the school here, the teacher is strict about this. Last fall, young Sam Lachance of the Anglican school spent almost two weeks in front of the Catholic school waiting for the pupils to go and play. The nuns have, like myself, seen young Lachance play truant. The allowance was granted for that month such as in the case of the pupils who attend school regularly. I would not have said a word if the councillor Thomas Whitefish whose children go to the Anglican school had not stated before three or four Indians at our school, "at the Anglican school the children are absent as often as they like and the allowance is granted regularly." That is a source of annoyance for us and it seems to me that the same law must apply to the children of other denominations as well as to the Catholic pupils.

Recently an Indian woman, Mrs. Benjamin Netmaker went to the Ste. Famille hospital at Prince Albert. After having been examined, the doctors stated that she took too great a quantity of Indian medicine and that her internal tissues are destroyed. That is what Dr. Tucker of Prince Albert said here to a family on the reserve, and he tried to find out who gave her the medecine. First, this woman got indian remedies from Frank

Netmaker and in addition, he bled her at the elbow. I have proofs concerning what I state. Then, Charlie Lachance also gave her medicine. When they have wheedled as much money as possible from the patient and when they see that there is no more hope, those two men call for a doctor and, if the latter is not successful, they accuse him of being inefficient, etc. I think that this is the good time to bring those two nitwits to their senses, particularly in this case; it is thought, according to the doctor's report, that the woman has blood poisoning. I would ask the Indian Department to get busy and to see that the two men get severe punishment. Then the whites who live near the reservation will stop to believe that the Indian Department is not doing its duty in this respect and that the Department appoints unqualified doctors to look after the Indians."

I believe that those facts certainly deserve your personal consideration and that of your department. Hoping to hear from you soon, I remain,

Yours truly,

Lionel Bertrand,

M.P. Terrebonne.

The first paragraph of this letter refers to an Educational and Family Allowances matter . The second paragraph refers to the Indian Health Services and is, therefore, being passed to them for attention.

With regard to Sam Lachance, our records here show that he was absent fourteen days in September (toxoid illness) five days in October (sore arm) and three days in December. Since then we have received no monthly reports from the Big River C.E. School. Therefore, it will be necessary for us to be provided with local details in order to answer this letter. We should also have the monthly reports from the Big River R.C. School for January, February and March, 1948. A copy of this letter is being sent to Indian Superintendent Jones so that you can correspond directly with him.

Dear Mr. Bertrand:

I have for acknowledgment your letter of April 13th concerning representations made by Reverend Father O. E. Paquette, O.M.I., Missionary on the Big River Indian Reservation in Saskatchewan.

In view of the local details provided, it has been necessary to refer this matter to our field officials in Saskatchewan. As soon as a report is received from them, we will provide you with further information.

As the second paragraph of Father Paquette's letter refers to a medical matter, it has been passed to the Indian Health Services for their attention.

Cher monsieur Bertrand,

J'accuse réception de votre lettre du 13 avril concernant les représentations faites par le Revd Père O.E. Paquette, O.M.I., missionnaire dans la réserve indienne de Big-River en Saskatchewan.

Vu les détails locaux qui ont été fournis, il a été nécessaire de soumettre cette question à nos fonctionnaires sur les lieux en Saskatchewan. Aussitôt que nous aurons reçu un rapport d'eux, nous vous donnerons plus de renseignements.

Comme le deuxième alinéa de la lettre du Père Paquette a trait à une question de médecine, nous l'avons porté à l'attention des services de la santé des Indiens.

With reference to Department letter of the 19th instant, File No. 130-7-1 (E.)/107-13-1, in connection with the Big River C.E. Day School and the Big River R.C. Day School, I am enclosing herewith copy of a letter received from Superintendent E.S. Jones, of the Carlton Agency, relative thereto.

Both train service and road travel is so disrupted in that area that it is impossible for Mr. Jones to visit the Big River Reserve at the present time. I had a discussion with him when I visited his agency two days ago, and he intends to thoroughly investigate the matters referred to by Reverend Father Paquette as soon as he can possibly reach that reserve, after which he will report to the Department, through this office.

I may say in this connection that Mr. Jones is of the opinion that Mr. Smith, the teacher at the Anglican Indian Day School, is doing a fairly good job and that his attendance records are properly kept. However, the matter is serious enough that Mr. Jones will give it the desired attention as soon as possible.

DEPUTY MINISTER

I regret the delay in answering Mr. Bethune's memorandum of May 22nd regarding the letter of April 19th from Mr. Lionel Bertrand, M.P. The reason for the delay is due to the fact that we have not received any report from our field officials and when Mr. Bethune's memorandum was received, we sent a signal to Regional Supervisor Ostrander.

He has replied by air mail in a letter dated May 26th, as follows:

Mr. J. P. B. Ostrander, Regional Supervisor of Indian Agencies, Regina.

Reference is made to your letter No.1022-303-11B of June 5th, 1948. A report on the attendance at the Church of England Day School, Big River Reserve has been received from Mr. Smith Atimoyoo. A copy of his letter and report is enclosed herewith.

Some of the members of the Big River Band have refused to accept Family Allowances and for this reason we have not pressed the regulations regarding school attendance to the limit. In this way we hoped to encourage all parents to register their children for payment.

I asked Mr. Atimoyoo to submit a report on several children who were habitually absent from school, a copy is attached hereto. Any necessary adjustments in their cases have been made.

Considering the nomadic mode of life these people live, the school attendance of their children can not be regarded as poor.

Dear Sir:

Enclosed is a report of the children's attendance for the months of September 1947 to April 1948 as you requested.

Difficulty in getting mail from Victoire is a matter that has given me some inconvenience due to the lack of transportation (no horses) and the flooded river. therefore I have been dealing for the most part at Pascal which is closer and more people go there from this direction. So in future do you mind if you would address all mail to Pascal, Sask.

Hoping the report above has been satisfactory.

Big River Indian Reserve.

I am now able to provide you with further information concerning the situation mentioned in my letter of April 19.

You will recall that the Reverend Father G. E. Paquette, O.M.I. of the Big River Indian Reserve, made certain representations with regard to conditions on this reserve. The delay in answering has been caused by the fact that our field officials have been unable to reach the reserve because of the condition of the roads. However, we have now received a report from our Indian Superintendent and also from the teacher of the Church of England school on the Big River Reserve.

The essential fact in this situation seems to be that some members of the Big River Band have refused to accept family allowances. For this reason, our field officials have not pressed the regulations regarding school attendance. In this way it was hoped that the parents would be encouraged to register their children for payment.

The teacher at the Big River Church of England School is an Indian named Mr. Smith Atimoyoo who is a graduate in Theology from Emmanuel College. He has submitted a report upon his pupils' attendance during the year. Unfortunately, this

Re: [illegible] Indian Day School

We have had within the last two days two letters from members of Parliament concerning the situation on two schools on the Big River Reserve. The first was from Mr. Castleden who had received a complaint relative to the maintenance of the schools in that area and who raised several questions concerning the two schools.

The second was from J.F. Joliet, M.P., who attached a letter from William Joseph, an Indian of this reserve. I have made a copy of this letter which I attach for your information. I have arranged to have a duplicate copy of this letter sent to you and also an extra copy of Mr. Joseph's letter, as you will presumably wish to get in touch with Mr. McLeod concerning the complaints made against Mr. Atimoyoo.

As I dictated this letter, I received a long list of names from Father Lourde which totals 54 children who will be of school age next September and also 11 children whom Father Laquette claims to be attending school at the Indian Day School. If Mr. McLeod wishes copies of these letters, I will be pleased to forward these to him. In Mr. McLeod's letter of March 16, he advised that he would be seeing Father Laquette in the near future concerning the request for additional classroom accommodation at the Big River R.C. School.

Ottawa.

Dear Sir!

I wrote twice to Mr. Castelden, member for Yorkton, after he promitted the Indians in a big meeting at Prince-Albert to help the Indians to have more attention from Indian Department and he never answered me back and no improvement. Then, I am asking you to help me in order to have a better school teacher or to demand to the Indian Department that the anglican school teacher would be on the job, not on the road. Because I heard from an official of the Indian Department, we, Indians of this reserve, we are fifty years behind of the other reserves. I did not know if this is true or not, but I know, the things are going that is true for since fifty years. On this reserve, we have two schools, the one runs on the auspices of R.C. for ten years from now, and the other one by the Englaman Church. This one has a very poor school teacher because since last January, he was not on the job for fourteen days. The 21 of january, this school teacher was on the road to Victoire Store and to Pascal Store to get the family allowance cheques in time for the assistant, Indian Agent. He was seen at 2 o'oclock at Pascal by Mr Walter Charpentier and John Breaver, councillor of this reserve. The shool teacher was on the road with Thomas Whitefish, the other councillor of the reserve. Besides, John Lewis of whom his children are attending Anglican School reported me in my own house, the children of this school did not attend school for ten days, last february. Furthermore when the saw outfit came on the reserve to saw wood, the sawman reported when he saw the wood for the anglican school, the children were playing outside of the school the whole day and the school teacher in the house the whole day.. This was the 17 th of february. To-day, the fourth

Riviere du Loup, P.Q.

Dear Mr. Pouliot:

I have for answer your letter of April 8 addressed to the Superintendent of Education. On the Big River Reserve we have two Indian Day Schools, one for the Catholic children and the other for the Anglican children.

It is evident that the Indian from whom you have received the letter attached to yours of April 8 is complaining against the teacher at the Anglican school.

This teacher is Mr. Smith Atimoyoo who is himself an Indian. He attended high school in Prince Albert and after four years of study graduated from Emmanuel College in Saskatoon with an Associate in Theology. He taught for five years at the Sandy Lake Indian Day School and transferred in September, 1947, to the Big River R.C. Day School.

We have written to our local Indian Superintendent under whom this teacher works and have requested a full report concerning the complaints listed in Mr. William Joseph's letter.

You can anticipate hearing from me again when I have heard from the Indian Superintendent concerned.

Sincerely yours,

Director.

Dear Mr. Neary:

I have received a complaint from the Big River Indian Reserve in Saskatchewan relative to the maintenance of the schools in that area.

Would you kindly send me a report which will give me a picture of (1) the reserves in this agency, (2) population on each reserve, and (3) school facilities provided for the children on this reservation.

I would also like to know whether or not there are any reserves in Saskatchewan where there is no provision for the education of the children. I have received several complaints about the education in different parts of Saskatchewan, some of them quite petty, but they indicate that there is apparently a lack of supervision. I would like to know what inspection services are maintained and how often these schools are visited by inspectors of your branch.

Thanking you, I am

Yours sincerely,

Dear Mr. Castleden:

I have for answer your letter of April 7 addressed to the Superintendent of Education. The information which you requested is as follows. On the Big River Reserve there are two day schools in operation. One of these is for the Roman Catholic children (the 1944 census shows 199 Catholics) and one for the Anglican children (the census shows 65 Indians for this denomination).

Both schools are located on the reserve about a mile and a half apart. They are identical in size and structure, but the classroom operated for the Roman Catholic children is crowded, and we are now investigating the possibilities of enlarging it. The teacher at the Anglican school is an Indian named Keith Atimoyoo who attended high school in Prince Albert and then attended Emmanuel College for a period of four years. There he received his Associate in Theology. He taught at the Shoal Lake Indian Day School from 1942 to 1947. He began teaching at the Big River C.E. Indian Day School in September, 1947.

The teacher at the Big River R.C. Indian Day School is Sister Marie Lalonde. She holds a First Class Teaching Certificate for the Province of Saskatchewan and has had three years of experience in private and provincial schools. She was appointed to this position on the 1st September, 1948, and replaced Sister Bernadette Marie who also had a First Class Teaching Certificate with some ten years of experience in provincial schools.

Our Educational Survey Officer spent a considerable part of last Spring in Saskatchewan, and as a result of his inspections, we are planning the building of a number

of day sch ols in that province. As you are aware, we have completed the schools at Meadow Lake, Nut Lake and Loorman. The new two-room school at Thunderchild is just now beginning construction.

We will shortly be advertising for tenders for other schools.

These schools are inspected by both the Provincial School Inspectors and by our own Indian Superintendents. The school inspectors naturally concentrate on classroom technique and teaching methods, whereas our superintendents check on the condition of the building, cleanliness of the children and school administration generally.

The Provincial School Inspectors visit these schools at least once a year, and our own superintendents visit them as often as possible, usually once a month.

I hope the a ove information provides you with the facts you are seeking.

Your letter of the 13th ultimo, addressed to the Department of Mines and Resources, Indian Affairs Branch, relative to your monthly salary cheques has been passed to this office for attention. In this connection we wish to advise that during the month of January, 1949, the Superintendent of the Duck Lake Indian Agency advised the Department of National Health and Welfare, Indian Health Service, that you had resigned as a Dispenser, Part Time, at the Pas Indian Agency, effective July 1, 1947. As you were in receipt of salary from July 1, 1947 to September 30, 1948, at $6 per month, you were overpaid $90. Effective February 1st, we are recovering the overpayment at the rate of $10 per month from your salary until same is liquidated.

Dear Mr. MacKay:

Thank you for your letter of April 20 regarding Indian education. In it, however, I find that there is no reply at all to my very definite question, "Are there any reserves in Saskatchewan where there is no provision for the education of the children?"

I have a complaint from Big River that the school was not being kept open and that the maintenance of the school was very lax.

I would like a report from your department with regard to these schools, and the number of days they have been in operation between September 1, 1948 and April, 1949.

Dear Mr. Castleden:

I have for acknowledgment your letter of April 28 concerning the Big River Indian Day Schools. It has been necessary to check carefully our records to provide you with the information requested.

The enrolment and average attendance at the Big River Roman Catholic School for the months 1 September, 1948, to 31 March, 1949, is as follows:

Month	Enrolment	Average
1948		
September	39	31.00

If we are able to complete our building program this year, I feel that educational facilities will be provided for most of the Indian children in Saskatchewan. As you are aware, the Residential Schools at Prince Albert are now providing for many of the children formerly served by the Lac la Ronge Residential School. The Gordon's Residential School has been closed for major repairs and the provision of an adequate water supply. It will re-open in September, 1949. Even with one school being closed, the enrolment at our residential schools in Saskatchewan has increased by 46 this year over the number enrolled last year.

The Day School statistics are as follows:

	Number of Schools	Enrolment	Average
1947-48	31	900	761
1948-49	33	1009	829
Increase	2	109	68

I feel that our school building program this year and next year will go a long way towards alleviating the present school shortage in Saskatchewan.

Yours sincerely,

Director.

W. Russ Joyner
Supt. Department of Indian Education
Sir.

I beg to inform you that it is over a month ago since I sent my March Quarterly Returns to Carlton Indian Office, and up to the present time I have not received any thing. I write this to let you know that it would be a great help to me if I were to get my pay just at the end of each Quarter. The men that supply us things we need such as provisions and groceries want their pay and if I cant pay them on time or sooner. They wont give us any thing which makes it bad for me and for them. If it is the Rule of the Department to keep me waiting for a month and a half after the end of each Quarter you please let me know, and they see for themselves. I have a pretty good school and I am glad to say that the children have done very well so far. It is only during the hunting season that the attendance is small. The Indians go out to trap and take their Children with them as they have no place to leave them.

Yours Sincerely
John R. Sellar
Big River Reserve.

Sir:

In reply to your letter of the 30th ultimo, I beg to say that the reason for the non-receipt by Mr. Settee of his June quarter salary as teacher of the Big River Indian Day School is owing to the fact that the Department has not yet received the June quarter return of this school.

I presume from your letter that Mr. Settee conducted the school during the quarter mentioned and I am, therefore, directing to you a cheque for $150 in payment of his June quarter salary. Please have him prepare and forward the quarterly return.

Your obedient servant,

Russell T. Ferrier

Ottawa, April 24, 1929.

Sir:

I have to inform you that, at the request of Mr. John R. Settee, teacher of the Big River Indian Day School, the Department has decided to grant him an increase, from the 1st instant, of $5 per teaching month in his salary. This will make the salary allowed him at the rate of $65 per teaching month. I have to request that you will inform Mr. Settee accordingly.

The Department has no funds available this present year to erect a new residence at this school.

Ottawa, June 19, 1930.

Sir:

I have to inform you that His Lordship the Bishop of Saskatchewan has nominated the services of Mr. David E. Eastmead as teacher of the Big River Indian Day School for the next school year. The Department is approving of Mr. Eastmead's appointment from September 1st, next, with salary at the rate of $100 per teaching month. I have to request that you will give Mr. Eastmead every assistance you can in his work at this school.

It is probable that Mrs. Eastmead will be appointed as field matron for the Big River Reserve, with salary at the rate of $300 per annum.

Ottawa, June 1st, 1935.

Sir:

I have to inform you that it has been decided to dispense with the services of Mr. David K. Eastmead, teacher of the Big River Indian Day School, as from the 30th instant.

His Lordship the Bishop of Saskatchewan has nominated the services of Miss Cora Merrett to succeed Mr. Eastmead. She has a permanent second class professional certificate for the province of Saskatchewan and considerable teaching experience. Miss Merrett's appointment dates from September first. The salary allowed her will be at the rate of $100 per teaching month.

Mr. Inspector Murison, who forwards the nomination in Miss Merrett's case, has been informed of her appointment and requested to arrange that she takes up duties on the date the school will open after the coming summer holidays, viz.: September third, next. I would request that you give her every possible assistance in her work at this school.

I enclose a circular, regarding the dates of the opening and closing of Indian day schools during the next academic year. I shall be pleased if you will hand same to Miss Merrett when she takes up duties.

Encl.

Your obedient servant,

A. F. MacKenzie,
Secretary.

To the Secretary,
Indian Day Schools,
Ottawa

Dear Sir,

You will note on the enclosed attendance returns that I did not commence duty until Sept. 7th. thus missing 4 days school.

Dr. Andrews, of the Fellowship of the Maple Leaf, under whose auspices I came to Canada, is over from England, and was to be in P.A. Prince Albert on Sept. 1st. and I wanted to see him.

The dates of his itinery were changed so that I did not know when I started on my holiday exactly when he was to be there, or I would have written to ask formal permission As it was I 'phoned the Agency and was given permission to stay to see him.

I have already made up one day, Labour Day? and should prefer to make up the other three, if necessary, on odd days rather than at Christmas. I shall be glad to know if this meets with your approval.

Yours truly

Edna Merritt

Kinoomootayas Day School

Miss Merrit phoned me from Prince Albert and I gave her permission This letter is a type of her attidute since she went to Big River, I wish you would drop her line informaing her to deal direct with me instead of endeavouring to go over my head as she is doing.

Dear Sir,-

With reference to letter of the first ultimo from Miss Cora Merrett, teacher of the Big River Indian Day School, forwarded to the Department with the September quarter return, you may advise her that her letter has been received and that whatever arrangements you make with her regarding her teaching certain days to make up for time lost at the beginning of the term will be satisfactory to the Department.

Miss Merrett is not being written.

Ottawa, March 10th, 1937.

Dear Sir,-

With reference to your letter of January 26th, last, and official reply of the 3rd ultimo, the Department is now in receipt of a letter from the teacher of the Big River Indian Day School, Miss Cora Merrett, in which she explains why she wishes to close the school a week early in June and, also, the difficulty of securing a substitute teacher for that period.

Under the circumstances, it has been decided to grant her permission to close the school early and I enclose a copy of official letter being directed to her.

Yours truly,

REPRESENTATIVE OF THE TREASURY

Re: Big River C.S. Indian Day School No. 602

In my memorandum of December 13, 1941, I advised you of the resignation of the former teacher, Mr. J. Kevin Ross, effective January 1, 1942.

To succeed him the Department has appointed Mr. Brooks L. Cowan at a salary of $65.00 a teaching month plus bonus. Mr. Cowan began duties on January 26, 1942. I enclose copy of letter of appointment, also National Defence Tax form and war savings pledge.

As Mr. Cowan is a single man without dependents I presume it is unnecessary to forward a declaration of head of household form.

Staff questionnaire is being prepared and will reach you shortly.

September 5th. 1935

Sir,

I am enclosing requisitions for Big River Reserve No. 11s. Indian Day School. Miss Merrett the teacher is asking for supplies for a mid-day meal, which in my opinion is needed . Would it be possible to give me authority to purchase supplies for a mid Day meal from November 1st. till March 31st at a cost of $5.00 to $7.00 a month.

Your obedient servant,

R.S.Davis

Ottawa, September 13th, 1935.

Sir,-

With reference to your letter of the 5th instant, I beg to say that you may arrange for the purchase and delivery of the following articles to the Big River Indian Day School:-

10 yds. hand towelling
6 " dish "
24 enamel cups
24 plates
24 spoons
24 forks
6 knives
1 large soup pan with lid
1 " kettle
1 dipper
1 ladle
1 water pail
3 hand bowls
1 wash dish
3 fine combs
1 broom
1 dust pan
4 cup hooks
1 medium sized hammer
10 lbs. mixed nails
1 spades
1 rakes
2 hoes
10 stove pipes
Lumber for shelves ($5.00)

With reference to the request for a 20 gallon galvanized tank for water, please let me know the approximate cost of this.

In connection with the teacher's request for supplies for a midday meal, I would point out that 450 lbs. of biscuits have been ordered for this school. These will cost $46.12 and, if served from November 1st to March 31st will mean an expenditure of slightly over $9.00 a month. Do you consider it necessary to serve a hot drink or soup in addition to the biscuits? If so, you may let me know the approximate cost per month. The Department is not prepared to supply all the articles for midday meal requested.

Your obedient servant,

A. F. MacKenzie.

Dear Sir,

I have for acknowledgment your letter No. 107-3-5 of the 13th. inst. authorizing certain purchases for Big River Indian Day School. With reference to the galvanzied water tank for this school, same can be purchased for $5.00.

Regarding biscuits for this school I wired you this mornin as follows:-

"Reference your letter No. 107-3-5 September 13th. do not have biscuits shpped for Day Schools, as I have enough on hand." I wrote you to this effect also March 15th. which applies to all the Day Schools of this Agency.

If $9.00 per month as from November 1st. to March 31st. could be allowed in order for the teacher to provide a mid-meal for children attending school I consider it would be a good thing, as most of the parents of children attending school are not in a position to provide proper food for their children.

Dear Sir,

I have to advise you that well has been completed at the Big River Reserve No. 118 Indian Day School. If funds are available would you consider supplying a pump at a cost of about $50.00? With present condition of well there is always a certain amount of danger to the young pupils falling in. If pump cannot be supplied will you grant authority to purchase well pail and rope required?

March 12th.1937

To R. A. Hoey Esq.,
Supt. of Welfare & Training,
Indian Dept. Branch, Mines & Resources,

Dear, Sir,

By Rail

I am enclosing herewith receipts for material purchased for school dinners for the Big River Indian Reserve Day School

When the grant was reissued last year it was given for this school on a basis of a possible 14 to 15 pupils. I received $30.00 for the winter months with biscuits in addition This year I was given to undefstand that the amount would be increased & the biscuits discontinued, so began making school dinners as soon as I returned in Sept. trusting that with careful administration the grant could be made to cover the whole. I continued dinners last year till the end of June, and bought a sack of rice then to finish off the season and to help at the beginning of this. With this and the produce from my own garden I was able to carry on through Sept and part of Oct.

Mr. Davis told me that the Dept. had cut the grant to $5 for this school, though the next school with no more pupils was to get $10, but that he had written to have the matter adjusted as they were still thinking the biscuits were also supplied. The only way to plan at all economically was to buy in sufficient quantities to last the season, which I did By buying a hind quarter of beef I was able to get it at 6¢ per lb. though this meant cutting up the meat myself. Potatoes and some meat I purchased from the natives, and used in addition all the potatoes I had grown here, unfortunately not a good crop.

A letter was received later from the agency warning me not to exceed the $5. as no answer was forthcoming to his letter, but by that time the material was purchased. I wrote to the Dept. through Mr. Davis, and eventually received notice that the grant had been increased to $8. per month for 5 months making $40. in all. There were 23 children on the roll till Christmas, with an average of 20. Since Christmas there have been 20 with an average of 18, except for two weeks when some of them were down with the 'flu'

Knowing the conditions of their homes, and that fish and rabbits were very scarce, during the very cold spell I

was giving the children cocoa on their arrival and a piece of bread when they left. Neither the cocoa, sugar nor bread is included in the receipts and so far has been paid for out of my own pocket.

The dinners are supposed to be discontinued this month which would mean that the children are not even getting one meal a day. I realise the necessity of economy, but surely to neglect the health of the younger generation is the poorest economy. No grant is made on this reserve for a matron, and I have had to pay someone to cook the dinners; neither is there any grant for the issuing of medicines.

The School Inspector's report must be a sufficient comment on the improvement in the pupils on this reserve who have hitherto had a reputation for being too stupid to learn. I am perfectly sure that the marked change is due to the fact that they have been better fed. Practically all the pupils live over two miles from school, some over three, and yet they I think their attendance record will compare favorably with most other reserves.

Surely it is in the interests of economy to build up the health of the younger generation, and it hardly seems right to expect the teacher to bear part of the burden of this I do not suppose there is any other branch of the civil service where the members contribute anything out of their own salary, at least not those of a salary of $1000. or under.

I am writing to you direct, as minister of Welfare hoping that something definite can be done about the matter. I asked for a grant of $75 for the year, which would have ensured a good daily meal throughout the school year. I shall be glad if you will return the receipts as soon as possible as I believe the accounts have to be in before the end of the month. I delayed writing, hoping to see the agent first but was unable to do so.

Yours truly,

Jean Barrett

Dear Sir,

Replying to your letter No. 107-3-5 of the 1st. inst. I am enclosing voucher No. 749 in favour of Miss C. Merritt, Shell River, Sask. covering purchases for mid-day meal Big River Reserve No. 118 Day School.

According to receipts submitted to you by Miss Merritt she exceeded her authority by the amount of $4.00, I am returning receipts for this amount to her. I am only paying the amount allowed by department.

Miss Merritt is absolutely ignoring this office and it is impossible for anyone to get along with her.

Yours truly,

To Mr. Hoey,

Dear Sir,

Thank you for your letter with reference to receipts for money spent on school dinners for the Big River Indian Day School. I had a letter from Mr, Davis however returning two of them, which I enclose, saying that they are in excess of the amount authorised.

This amount was spent before I had his letter stating what the amount authorised was, as it was only by purchasing in larger quantities that I was able to get a reduction in price. It was because of this I wrote to you hoping something could be done in the matter.

I shall be in the East on my trip to the Old Country at the end of June and should be glad to call if you could find it convenient to grant me time for an interview. June 31st would be the most convenient date, as I suppose all branches of the Dept. will be closed on July 1st.

Dear Sir:

We would like to have your authority to undertake the work of having the school fences of this agency repaired as outlined in our estimates on page 9, This expenditure would cost $70.00.

The sum of $35.00 should be expended at the Little Red River School to replace the rotted posts and in buying the necessary wire and staples. The labour necessary in this regard would be done by the Indians.

The Big River Day School needs the same fence repairs as that mentioned above. In this case the Teacher of this school has probably taken up this matter direct with the Dept. as she is in the habit of doing.

We trust that you will see fit to authorize these expenditures.

Dear Sir:-

We would like to have your authority to expend the sum of $2,500.00 in building a new Day School on the Big River Reserve No. 118, as set out on page 9 of our estimates for 1937-38.

The school now in use on this Reserve is a very old one of log construction. It is in a very decayed condition and is really a menace to the users thereof, as it may fall down at any time.

This work should be undertaken as soon as possible. Indian labour would be used as much as possible. I trust that you will see fit to give your approval to begin this work.

Dear Sir;-

I am in receipt of a letter from Miss Merritt, teacher, Big River Reserve, asking that she be supplied with paint and brushes to the value of $5.00 with which to paint the floors of the teacherage, that two new toilets be supplied at a cost of $20.00, she states that those now in use smell abominally and cannot be kept clean. That she be supplied with a 5 gal. kettle, 1 dish pan, 3 hand bowls, 6 enamel plates and a table for serving dinners, washing dishes, etc. at a cost of $13.00, that the teacherage be painted on the outside and the fence be repaired. She states she can have the fence repaired at a cost of $20.00 in rations, that the Indians will do the work if supplied with rations.

(b 75)

Miss Merritt also asks that she be allowed $100 for the midday meal for the ten months, if no biscuits are supplied, or $75.00 if the biscuits are supplied.

There is no question that all she asks is badly needed but it is too late to consider painting the building this fall although the paint might be bought this fall, if funds are available. I am doubtful whether the fence could be repaired at this date, but if so it could be done as a relief measure. The amount asked for the midday meal is not too high with an attendance of 19.

I would recommend that if funds are available her requests be granted.

Dear Sir:-

With reference to EX'D. your letter of November 15th, you may purchase paint and brushes to a value of $5.00 in order to enable the teacher to paint the floors of the teachers' residence at the Big River School.

You may also supply this school with:

1 - 5 gal. kettle
1 - dish pan
3 - hand bowls
6 - enamel plates,

at a total cost of $13.00.

Miss Merritt may also be advised that the Department will allow an amount of $75.00 for purchase of mid-day meal supplies during the coming winter.

In view of the contents of the last paragraph of your letter, no authority is being given at the present time for painting the outside of the teachers' residence or repairing the fence. If the latter work can be done as a relief measure, you may do so.

Nov 18th.1937

NOV 27 1937

To Mr. Hoey,
Supt. of Indian Welfare,
Dept. of Indian Affairs, Ottawa.

Dear Mr. Hoey,

Thank you for your letter of Oct.19th, which I have delayed answering,waiting to hear from Dr. Robinson with regard to the school dinner allowance, as I had a letter from him saying if it were insafficient he would try to get it increased

No doubt you will remember that last year I was allowed $40. and had a difficulty in getting $4.00 spent in excess of this amount. When I mention that the next reserve, with an attendance very little, if any,higher than ours was getting $85 you will perhaps see one of the causes for disagreement, at least between the agent and teacher on this reserve. This is just one of the many little things.

I received the enclosed Nov. 8th. You will notice that it provides for dinners from Nov. to March only. $10 per month is a sufficient allowance, but why for five months only? The children are just as hungry in Sept and April as in December in fact often more so as often there is no fish to be got then and what few rabbits there were have been trapped in the winter.

As I mentioned when in Ottawa, I would like to give them a drink of hot cocoa before school during the winter. They come two or three miles to school, and are very regular, and I feel that after that walk often in a bitter wind, they need something before beginning work. Then instead of a sweet at noon, I believe a piece of bread and lard or peanut butter at four oclock is better. $75.00 and biscuits or $100 without biscuits would cover the cost,as I have been able to purchase beans peas etc. at wholesale prices, and by getting a quarter of beef at a time, and cutting it up myself I am able to get it at 7¢ per lb. The men with children attending school gave me each a sack of potatoes when the agent refused to allow me any out of the community garden. (the gophers got into mine, and in fact the whole garden,whilst I was away) This only meant ten sacks but it showed also that the people do appreciate to some extent what is being done for them

We have started a manual instruction class this year, but are badly handicapped in that we have no room for a bench, the pupils, three boys, are only 10 and 12 yrs. old and we have no lumber. They have done various repair jobs around the school, including making a new set of steps for the

entrance, out of old lumber. Now they are trying to convert an old packing case into a respectable looking cupboard. At present they are using my tools, and really until we have a new school building it does not seem advisable to launch into anything else.

I do wish it were possible for you to see this same school building. For three years it hasbeen condemned as unsafe Two years ago it was discovered that the wood in the structure was so rotten that it crumbled when touched, thus doing away with the possibilities of successful repair. The plaster is held in places with unbleached cotton, which is all there is inside the laths to keep out the cald. This wobbles whenever there is a strong wind, and I am in fear of it falling on the children The wind blows up through the boards like a knife, so that the desk on the wind side have to be dragged away from the walls, thus those children are roasted on the one side and frozen on the other whilst the poor teacher is frozen the whole time as the only possible place for the desk is straight opposite the door, which nothing could make fit, and backing to a wall through which the wind blows on even the calmest day. The toilets, only one of which I have been able to get screened in the three years I have been here, are so old that in spite of constant scrubbings with strong lysol, and the application of lots of lime, they smell most horribly. I know the provincial inspector reports from time to time on the state of the school building but nothing ever seems to come of it, which is still another reason for the appointment of a supervisor for the Indian Dept., though I do realise that the tendency is to cut officials rather than increase them these days.

I wonder, by the way if there is any chance of the Indian Commissioner making any change in the near future. Do you think it would be any use getting in touch with him? So far as the Province is concerned I lost whatever chances I had when I left them for the Indian Dept. I also lost years of service towards pension, as one year with the Indian Dept. cancels all p previous years of service under the Provincial Pension Scheme. I hope some time there will be a scheme under the Indian Dept. which will include teachers.

of British Columbia

Thank you for the consideration which I feel you gave my previous letter. At present it seems seems advisable to remain where I am , though perhaps in the Spring something better will turn up. The chief drawback here is the isolation No Officials seem to be able to get any further than Sandy Lake and I find it very difficult to get a companion as there is no white company on the reserve at all. Consequently I live alone I think however that in the Spring something may be arranged so that I am transferred to a reserve with a farm instructor, and possibly a missionary

Again with thanks,

Yours sincerely,

Cora Merrett.

Dear Madam:-

With reference to your letter of November 15th, Inspector Robertson has already been advised regarding the amount that we are prepared to allow for mid-day meal purposes at the Big River Indian Day School. No doubt he will notify you in the near future. The amount is larger than last year.

Inspector Robertson has also been authorized to arrange for the erection of two new toilets at the Big River School.

All the Indian Day Schools in British Columbia are conducted under the auspices of one or the other of the religious denominations associated with us in Indian work. Right Reverend G.A. Rix, Prince Rupert, B.C., nominates the teachers for a number of the day schools conducted under the auspices of the Church of England in British Columbia. I would suggest that you write to him.

EATON Wallpapers for 1938

EATON buyers examined many samples of wallpapers, and chose these that are sent you as the most beautiful and the biggest values the market offered. Order by the number shown on back of each sample
When you decide upon the sidewall paper you want, be sure to order border to match for around the top of walls—nothing improves the appearance of a room so much as a pretty and effective border. Also order ceiling paper to finish room.

Be Sure You Order Enough

Always order a little more paper than you think you need, rather than run short and have the job delayed. Extra wallpaper is almost always needed later for patching, and later shipments of wallpaper sometimes differ slightly in shade in spite of the utmost precaution—another reason why you should be sure and order full requirements to begin with.

All Wallpaper and Ceiling Paper are Sold by the Single Roll

It is put up and sent to you in double rolls for your convenience and economy in cutting. A single roll covers 30 square feet. There are two single rolls in a double roll. Therefore if you order and pay for 10 single rolls, you will receive 5 double rolls.

Border Prices are Quoted for Single Yards

Borders are printed with two, three or four borders on the one width of paper. Thus if you order 2 yards of border, and it is printed twice on the one width of paper, you will receive 1 yard of paper which you would cut down the center, making 2 yards of border. Three printings on one width of paper make 3 yards of border, four printings make 4 yards of border. It is advisable to order 2 extra yards of border to allow for wastage on corners and matching.

How to Measure Your Room Correctly

The number of feet around the room multiplied by its height gives you the number of square feet in the walls. Deduct 20 square feet for each opening, then divide the balance by 30, for the number of single rolls required for walls. For ceiling multiply the length of room by the width, and divide total by 30 for number of single rolls required.

"Sun-Tested"

All the samples marked Sun-Tested are of papers which are printed in fast colors. These papers are dependable and will give you long, durable service.

"Sunworthy"

As the name implies, such a paper assures you that it is practically non-fading—good for years of service.

HELPFUL HINTS TO DO A GOOD JOB

Paper Ceiling First

Always paper ceiling first. Cut each strip 4 inches longer than room length so that 2 inches overlap at each end. This makes a neat finish when covered by border. Match your stripe and do all your measuring and cutting first
Draw a guide line for your first strip by driving a nail 10 inches from sidewall each end of ceiling. Stretch a cord smeared with charcoal or chalk tightly between nails. Pull down in center and let it rebound against ceiling, leaving an even chalk line.

Matching Strips

Sometimes there is a slight shading in Wallpaper. Examine each roll carefully. Have all the lighter paper on dark side and the darker paper on the light side of room. Return any rolls that are badly shaded
Smearing can be avoided by pasting before trimming. Kalsomining and Tinting must be washed off with warm water and sponge before papering, and walls should be again glue sized. New plaster Walls should be glue sized before decorating with wallpaper.

Wooden Walls and Ceilings

Cover with Decorator's Cotton, tacking it about 8 inches from edge and corners before papering. A coat of glue size will shrink it tight to the wall.

Embossed Paper

Embossed and other heavy papers should not be rolled at the seams when hanging. They must be trimmed at both edges and butted instead of overlapped to secure the necessary good finish

Treating New Walls

New walls, which have never been papered, should be treated with a thin coat of size. Make by soaking 1 lb. of ground glue in hot water. Use it while warm. (Full directions on package.) Use Acorn Sizing Glue. Before sizing walls, fill cracks or holes with Acorn Patching Plaster mixed to a paste with the size and scraped smooth. Wash off Kalsomine or Whitewash with warm water. If walls are rough, smooth off projections before sizing; if very rough, apply a thin coat of paste.

For Painted Walls

Remove all grease and oil from these by applying a solution of one part ammonia and six parts water

Delivery Charges Extra on Wallpaper and Wallpaper Supplies

Please allow sufficient money to cover shipping charges. To estimate weight of your order, figure that Wallpaper weighs approximately 1 lb. per single roll.

June 4th. 1938.

Dear Sir:

I am enclosing a requisition from Miss Cora Merrett of the Big River Indian Day School, for repairs to the school building and residence.

The fence around the building is in very bad condition and certainly needs rebuilding. A water tank was at the school, but in the summer holidays, when the school was closed, the wind blew it away and completely broke it.

In regard to the toilets requested, I was given authority to have these built last fall but it was impossible to build them for the amount allowed, that of $20.00 in all. I would recommend that they be built during the holidays.

The interior of the house has not been done for a period of three years and should be redecorated. A little painting was done only.

This teacher's residence is badly in need of paint on the outside and if there is money available it should be done this year. It will cost $60.00 for paint and $35.00 for labour in order to have this building painted. This residence has not been painted since it was first built. If there is not enough money to paint the building this year then I will include it in the estimates for the coming year; it was not included this year as I felt that there would be sufficient expenditure at this point if a new school was erected as included in our estimates.

Yours truly,

Indian Agent.

EX'D.

Ottawa, June 11, 1938.

Dear Sir:

I am in receipt of your letter of the 4th instant, with reference to repairs required for the school and teacher's residence on the Big River reserve.

In letter of concurrent date, I am advising you regarding the amount available in the current year's appropriation for repairs and improvements at the day schools in the Carlton agency. If you recommend the painting at Mistawasis, it would mean that there would only be $110 left in the appropriation. If, however, you recommend the painting at Little Red River, there would be $135 left.

In either event, the amount remaining could be spent at Big River. I am, therefore, returning the list forwarded to you by the teacher, in order that you can decide what items on it you consider are most necessary this year, keeping in mind that the total expenditure must be kept within the appropriation.

Yours truly,

Encl.

Leask, Sask.,
July 21st, 1938.

Dear Sir:

With reference to your letter of June 24th, file 107-4-5, I am enclosing requisitions covering the authority of $350.00 that has been granted for repairs to the Day Schools and residences. The amounts are as follows.

Big River Day School Residence	$129.81
Big River School, toilets	44.68
Little Red River School & residence	177.30
Total	$351.89

It was my intention, at first, to paint the residence at the Mistawasis school but after checking over the building it was found that the siding would have to be taken off and re-nailed. This condition was due to the fact that nothing has been done on the outside of this building for 16 or 17 years owing to the small amount of money that has been allotted for repairing the day schools and residences of this agency each year.

The Teacher's residence at Big River reserve, the Teacher's residence at the Little Red River Reserve and the school at the same reserve are all fairly good buildings and are the only ones in this agency that could be suitably repaired on the small amount of money granted this year. Sandy Lake School and Residence, of course, will be re-modelled this year as I understand that the Dept. are calling for tenders for this work. The Sturgeon Lake school will do for another year.

Most of the schools,(Day) are old log buildings and it is just a waste of money to spend much money on them.

Yours truly,

R.S. Davis.

BIG RIVER RESERVE

School

There is an old log building, altogether unfit for the purpose. The logs are all rotted and the building is very cold and is apt to tumble down. A new school is badly needed at this point. At this school the teacher sees that the children's clothes are properly washed, and she has secured a log building 20 x 20 which she intends to use for cooking and washing. She requires a cook stove and some dishes. Requisition for these will be forwarded at a later date.

COMMISSIONER'S OFFICE,

REGINA, SASK. August 22, 1938.

IN YOUR REPLY REFER TO
NO. 303-11A.
ALSO TO DATE OF THIS LETTER

The Secretary,
The Department Mines and Resources,
Indian Affairs Branch,
Ottawa.
Dear Sir:

Re: Big River Indian Day School, Big River Reserve, Carlton agency.

The above mentioned is a very old School with no accomodation for cooking or serving a meal or other work. Miss Merrett, the teacher has had an old log building moved near the school which she proposes to fix up and use for preparing the midday meal, washing the children's clothing etc.

She is asking for lumber, wire, nails, etc for fixing up this building. A clothes wringer, washing board etc. to be used for washing clothes. A Jubilee Range to be used for cooking the meal and heating the water for washing. The Indians on this Reserve are very backward. It is Miss Merrett's intention that the children have two sets of clothing in order that they may be properly washed and have a clean suit ready for changing, the washing of these clothes to be done at the school under her supervision.

She also proposes to teach the boys carpentery work and is asking tools for that purpose. She also proposes canning meat to be used in the summer when fresh meat is not available. If the funds are at all available I would recomend that her request be granted, as I feel the goods asked for will be put to good use.

The lumber, nails etc., could be purchased from the West Lumber and Supply co., at Debden, Sask. The other goods are from prices in Eaton's catalog. If this request is granted these goods should be supplied at the earliest possible date.

Yours truly,

Thos. Robertson,
Inspector Indian Agencies, Saskatchewan.

Dear Sir:

I am in receipt of your letter of the 22nd ultimo with reference to the Big River Indian Day School. As no special provision was made in the current year's appropriation for repairs and improvements to the Big River school it is practically impossible to provide the amount requested on the purchase requisitions forwarded with your letter.

In addition the school situation on this Reserve is in a nebulous state. In this connection I would refer you to official letter of August 18. The Department does not feel disposed to incur any heavy expenditure at Big River until a final decision is made regarding the school situation on this Reserve.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

With reference to the supplying of midday luncheo at the Indian Day Schools in the Carlton Agency it has been decided to allow the following amounts for the academic year 1938-39:

Sturgeon Lake Day School			$50.00
Mistawasis	"	"	50.00
Big River	"	"	50.00
Little Red River	"	"	50.00
Montreal Lake	"	"	~~50.00~~
Ahtahkakoops	"	"	50.00

In checking the amounts allowed in previous years it was noted that Ahtahkakoops received more than any of the other schools. There does not appear to be any reason for this as the enrolment at this school is no higher than at some of the others.

Yours truly,

Philip Phelan,

Ottawa,
January 6, 1939.

Dear Sir:

Dr. Thos. Robertson, Inspector of Indian Agencies, has forwarded to the Department the information which you supplied to him regarding the children of school age on the Big River Indian Reserve.

From the information contained in this letter I am inclined to feel that in making proper provision for the education of the children two day schools should be established, one under Roman Catholic auspices and the other under Anglican auspices. The figures that you have submitted indicate that there are sufficient children for two schools.

Could the present school be renovated in order to provide for the education of the Anglican children? If so, please let me have an estimate of the amount that you believe would be required to place both the school and teacher's living quarters in good condition.

If, however, you consider that it will be necessary to provide a new building for each of the schools please let me know if a log building would be sufficient in each case or if you would recommend a more pretentious building.

In either case it is understood that teacher's living quarters would be provided in connection with each school.

If you consider log buildings suitable it is possible that you could arrange to have the logs out this winter.

Please let me hear fully from you regarding the above suggestions before the end of January as it is possible that we may have some funds on hand from the current year's appropriation which would permit us to purchase at least some of the supplies that would be necessary.

In order to permit us to do so it would be advisable, when you are replying to this letter, to give detailed information regarding the lumber etc. that would be necessary.

It is understood, of course, that you will also give an estimate of the cost of the labour required either in renovating one building and building one new building or in constructing two new buildings.

PLEASE QUOTE FILE. 692-1-3

Leask, Sask.,
Jan 24th/1939

Dear Sir:

With reference to your letter of January 6th, file 107-3-5, in regard to the building schools at the Big River Reserve; I quite agree that two schools should be established on this Reserve. While there is a lot of children on this Reserve their homes are pretty well scattered and they are hunting Indians and consequently wander quite a bit during the year. Therefore, I do not believe that the attendance at either school will be large but owing to the religious difficulties it would be advisable to build two schools.

In building these schools I believe that schools 18' x 20' would be large enough with a full size basement. At any time, if we found it necessary to close one of the schools, it could be moved to the other site. The teacher's residence that we now have is in fairly good condition though it will need a little bit of decorating. The present school, however, is beyond repair. Therefore, if the proposed plan is carried out, it will be necessary to build two schools and one small residence.

With reference to putting up a log building I do not believe that this would be satisfactory at this point.

I am very busy at the present time but in the course of a few days I will submit the information that you require in regard to the lumber and building materials and also the labour. I am of the opinion that these buildings could be erected cheaper by hiring a foreman and Indian labour than by contract.

Yours truly,

R. S. Davis, Indian Agent.

Dear Sir:

I desire to refer you to previous correspondence in connection with the erection of two day schools on the Big River Indian Reserve.

After carefully considering the situation existing at Big River it is felt that it would be desirable to supply exactly the same accommodation at both schools. This will mean a combined school and teacher's residence for the Church of England pupils and the same type of building for the Roman Catholic pupils.

It is not our intention to erect a residence separate from the school as this involves considerably larger expenditure and the cost of upkeep is also greater.

The lists you forwarded, and which I am returning to you, request material etc. for a school only to replace the present Big River C.E. day school and for material for both a school and a separate residence for the new Roman Catholic school.

I am, therefore, returning these lists in order that you can revise them by giving the material needed and the approximate cost of the labour for a combined school and teacher's residence for each denomination.

Dear Sir:

I desire to refer to requisition dated the 8th ultimo from the teacher of the Big River school requesting a storage tank for rain water also 4 feet of pipe and 2 elbows.

You do not give any estimate of the cost of the above but if they can be secured at a reasonable expenditure you may arrange for their purchase. Possibly in view of the fact that it is our intention to provide living quarters in the new day school you will not find it necessary to purchase the articles mentioned above.

Dear Sir:

With reference to your letter of April 27th, file 107-3-5, in regard to the two schools for the Big River Reserve, before submitting estimates on your plan of combined schools and residences I would appreciate receiving more information.

I presume that you want to have the teacher's residence upstairs of the school. In this case it will be necessary to build the schools a little larger than I submitted in my previous estimate in order to provide living quarters large enough. The building would have to be at least 20'x 24'. I am enclosing a rough sketch of the upstairs of a building of this size for your consideration. I would appreciate some information as to the amount the Department wish to spend on each building, so that I could estimate accordingly. Do you want sewage and water put in these buildings?

I am enclosing a snapshot of the residence at the Anglican Indian Day school that is now being used. This building is 30' x 22'. I t has a very small and poor basement. If we build a combined residence and school we will have no further use for this building at Big River Reserve. We could have the building moved to the Mistawasis Reserve in the winter time and use it for a residence for the Teacher at the Mistawasis Day School, the present residence is very poor.

Ottawa,

Dear Sir:

With reference to your letter of the 8th ultimo I am forwarding to you, under separate cover, a plan of a combined school and teacher's residence. Please review this and let me have complete details regarding the material required for the two buildings that it is proposed to erect on the Big River Reserve.

It is not our practice to put sewage and water in day schools. At both of these schools only one teacher will be employed and it is considered that only one bedroom is necessary. This is provided on the plan that we are forwarding to you.

This plan provides class room accommodation for 40 pupils. If a class room for 35 only will be necessary you can reduce the size of the building by 5 feet.

RECORDS

Dear Sir,

Can you please advise me as to whether it would be wise for me to go away for any length of time during the forthcoming summer vacation.

As I have mentioned before the only time I leave the Reserve is during this period, and last year I could not make any plans as all manner of rumors were rife anent either a transfer or dismissal.

The Indians are all away during the summer, in fact this week there are only five children left to attend school, though the attendance during the year has been good, and this year I had planned to go to Vancouver, and San Francisco, but can find out nothing definite as to buildings etc. except that there are to be the two schools.

I have asked Mr. Davis's advise, and he says 'Go' but as he is leaving in the near future I do not now feel that it is of any real value. I had planned to leave Prince Albert on the 15th.of July, but do not know whether I should go ahead with the arrangements or not

The proposed plans for the buildings which are to be erected are, I believe, to have the residence over the school, and the present residence, which I spent the whole Easter vacation redecorating, removed to another reserve. Mr. Davis tells me that these plans do not include a water system, except one which will necessitate carrying all supplies up from the basement. This would mean carrying every drop of water needed for the house up two flights of stairs Do you know if such plans have passed as yet? and do please if it is at all possible prevent such arrangements being made. The difference in cost cannot be so very great in comparison with the difference in convenience

I am so sorry to seem a nuisance, but when eleven months have to be spent in a place with no possible outside interests, comfort and convenience in the house do count for so much

to give you some idea of the standard of work carried on here.

Five books are being sent for Exhibition at Prince Albert and Regina, together with samples of handwriting needlework, laundry, and handicraft. Most of the handicraft of the older boys has consisted of keeping the school buildings in running repairs, as I have had neither convenient place, nor tools for a real course of carpentry, together with the garden As they have only been in school four years, and the eldest is only 13, I really am rather proud of their progress, particularly as every girl has an apron for domestic science, in addition to other personal garments including stockings and mittens made as part of the school routine.

You will possibly notice, from the English exercises in the enclosed book, that we were able, with no outside help, to take the trip to Saskatoon to see their majesties. It was really quite an interesting experience.

Yours very truly,

Cora Hurrett.

Dear Miss Merrett:

I have for acknowledgment your letter of the 19th instant, in which you seek information with respect to your vacation of this year and the building of the schools on the reserve.

The question of whether you should leave the reserve or not at this time is a matter in respect to which we can give you little advice. We can assure you, however, that no change is contemplated at your school and that ample notice will be given you when a change is decided upon. It is unfortunate in my judgment that you are at all influenced by rumors that may be in circulation from time to time on the reserve. A school teacher can afford to ignore such rumors at all times and be governed wholly by the instructions that reach her from time to time through official sources.

The actual construction of Indian day schools comes under the Surveys and Engineering Branch of the Department. I have not seen, nor have I had an opportunity to study, the plans prepared for the construction of the two schools on the Big River reserve. I am of the opinion, however, that these plans will be somewhat similar to the standard plans prepared for the construction of such schools throughout the Dominion. Indian day schools built in recent years are up to date and convenient in

every sense. The Missionary from Berens River, where a school was built last year, writes:

> "The Indian day school erected last year is perfect. It is all that an Indian day school should be".

If you have any representations to make to the Agent with respect to conveniences that might be installed, I feel sure the Agent will give them sympathetic consideration. In the case of the Big River schools, it is altogether likely that the actual construction work may be undertaken by the Surveys and Engineering Branch, under the direction of the local Indian Agent.

I am returning herewith the books sent forward with your communication. The work of the pupils appears to be very neat and in my judgment very creditable. It is my hope that sufficient space will be provided in the basement of the new school for the organization of worthwhile handicraft projects.

Dear Sir:

With reference to your letter of June 2nd, file 107-3-5, enclosing a plan for the proposed schools and residences at Big River Reserve, would it be possible to have the Engineering Branch estimate the material required for these buildings? I am leaving on the 21st to pay Annuity in the north and will be away for about two weeks; and on my return will be very busy as the work on the Reserves and in the office will be far behind. It will be over a month before I could submit an estimate on these buildings.

With reference to the plan, I feel that each school large enough for 20 pupils should be sufficient. One bedroom for the teacher is not going to be very satisfactory as the teachers require a room for use as a kitchen as well as a bedroom. Further in the winter time it is necessary for extra accomodation for Department officials.

PLEASE QUOTE
FILE 221-1-6

Leask, Sask.
July 15th 1939

Dear Sir:

I am enclosing two sets of requisitions for the material required in the erection of two schools on the Big River Reserve as requested in your telegram of July 8th 1939. Mr. Jack Sanderson recommended Mr. J. Pare of Debden as foreman carpenter for these schools and he estimated the amount of materials and labour required for the construction of the same.

Mr. Pare estimated the labour cost at $1500.00 for each school, this will include the gravel, freighting of the lumber and the excavation of the basement. I feel that this estimate is a little high and think that each building should be built for $1200.00.

In your telegram you asked me to wire for the advance required but I have just received the estimate today and, being Saturday, the Air Mail will reach you as soon as a telegram. I would appreciate receiving an accountable cheque for $2000.00 and if I require a further advance I will let you know.

I am making arrangements to start the excavation of the basements next week.

Ypurs truly,

R. S. Davis, Indian Agent.

Dear Sir:

I desire to acknowledge the receipt of your letter of the 15th instant enclosing requisitions for the material required in the erection of the two schools on the Big River Reserve.

You may arrange for the purchase of the following for each school:

33 Yards sand	1-7" adjustable thimble for brick chimney
20 " gravel	
100 lbs. hay wire	1-6" adjustable thimble for brick chimney

The blackboard will be ordered from the Government Stationery Office. The other items on the requisition are being ordered by the Purchasing Branch and they are being requested to rush delivery.

Funds for the Big River C.E. school were provided in the main appropriation, while funds for the R.C. school were voted in the special supplementaries. Consequently, two separate cheques for $1000.00 each are being forwarded to you and you should forward separate accountable vouchers for these advances.

A supply of labour return forms will also be sent to you.

The Department will depend on you to see that the buildings erected are sufficiently large to accommodate the number of pupils that will probably attend them. In a report dated December 24, 1938, Dr. Robertson,

R. S. Davis, Esq.,
Indian Agent,
Leask, Sask.

Inspector of Indian Agencies, stated that the number of Catholic children on the Big River Reserve between the ages of 7 and 16 was 35, and the number of Anglican children on the Reserve between the same ages was 22. I mention this because in your letter of June 19 you stated that you considered that a school large enough for 20 pupils would be sufficient in each case.

Yours truly,

Philip Phelan,
Chief, Training Division.

Memorandum:

[redacted]

The Department is erecting on the Big River Reserve two new day schools.

I attach requisition for the materials required for the Big River C.E. day school and I also attach a requisition for the materials required for the R.C. day school. This latter requisition states that the same materials are required for the R.C. day school as are requested for the C.E. day school.

It is important that the materials for both schools be ordered at the earliest possible date and I should appreciate it if you would give the matter immediate attention.

You will note that there is one requisition for the heavier material including the lumber and another requisition for the paint and hardware.

Ottawa,
September 21, 1939.

AIR MAIL EX'D.

Dear Sir:

The Department finds it necessary to return the attached accounts issued in favour of the Prince Albert Plumbing & Heating Company. On both accounts there is a charge of $3.00 for freight. It will be necessary to attach receipts from the railway company.

In connection with the expenditure at the Big River C.E. and the Big River R.C. schools I would point out that funds for the former were provided in our main appropriation while funds for the latter were provided in the special supplementaries. Under these circumstances you should forward separate vouchers for the expenditure at each school.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

FILE 426-1-6

Leask, Sask.,
Sept. 29th 1959.

Dear Sir:

In our requisitions of July 15th for building materials for new schools at the Big River Reserve, Anglican and Catholic Schools, we included the following items for each school:

2 pairs of windows, 8 light check rail, 1 3/8" thick, glass 10" x 10", opening 2' x 3'10", complete with frames, stops, inside casings not required.
2 Storm sash for above windows.
2 full size screens for above windows.

In your order No. 26822-3-3, file 29157-15-3 Sask. of Aug. 15th to the West Lumber and Supply Co. at Debden you omitted to include these windows. These schools are now being constructed and the windows are required at once. May we have the authority to purchase the above materials for each of the schools from the West Lumber and Supply Co. at Debden and add same to the Order No. 26822-3-4.

An early reply would be appreciated.

Yours truly,

R. S. Davis, Indian Agent.

Dear Sir:-

With reference to your letter No.107-3-5. July19th/39. The cheques No. A064305 & A 064306 for $1000.00 each for Schools at Big River Church of England And Roman Catholic will not be sufficient , I find that I will need another $350.00 for each School and expect the work will be finished in another three weeks; It will take this amount to complete the Schools.

Please forward an accountable cheque for each school for the amount of $350.00

yours truly,

Indian Agent.

Ottawa,
September 11, 1939.

Dear Sir:

I am in receipt of your letter of the 31st ultimo with reference to allowances for midday meal purposes at the day schools in the Carlton Agency. In this regard I may say that the Department finds it possible to only allow the same amounts as last year; namely.

Sturgeon Lake Day School	$ 50.00
Mistawasis " "	50.00
Big River " "	50.00
Little Red River "	50.00
Montreal Lake " "	50.00
Ahtahkakoops " "	50.00

The amount available in the appropriation for Indian Education toward the cost of midday lunch at day schools will not permit our authorizing at the schools in the Carlton Agency the amounts mentioned in your letter. As a matter of fact the food served at noon at Indian day schools should consist of a light lunch. If conditions are as serious in the Indians' homes as stated in your letter; namely, that the meal obtained at school is the only good meal that the child gets in a day, you should communicate again with us in order to determine whether or not the relief allowance should be increased.

Yours truly,

The Church of England School will take about 5 weeks to complete. This is all inside work.

These buildings are very well built; the rooms upstairs for the teacher are very small, and will not be very satisfactory for living quarters for teachers.

Will you please have accountable cheques forwarded for $100.00 each to complete these schools.

Dear Sir:

I am in receipt of your letter of the 11th instant in connection with the construction of the Big River C.E. Indian Day School. Please forward as soon as possible the pay lists accounting for the advance of $1350.00 already forwarded to you. We are required to secure an Order-in-Council in connection with those employed in building this school and we require the pay lists in order to show the wages paid each of the workmen.

It is noted that you state in your letter of the 11th instant that the total cost of this school was $3356.02. On receipt of your letter we checked our files carefully and find that the following appears to be the correct figure:

Sir,

I have the honor to enclose herewith, copies of letters received from the Rev. Hugh McKay, Superintendent of Indian Missions, Presbyterian Church, and Mr. Indian Agent Lash, relative to a boarding-school recently opened, adjoining the Muscowpetung Agency.

Until the Department has considered the propriety of making a special grant, the usual one to teachers of day-schools will be made by the Commissioner, as the boarding-school will take the place of a day-school, which Muscowpetung's Reserve is entitled to have.

It is intended that the Institution should draw pupils from Pasqua's Re-serve, as well as Muscowpetung's; and if it succeed in doing so, the necessity of establishing a Protestant day-school upon the former Reserve, may disappear.

It may be well to take the like-lihood of this into consideration, when arriving at a decision in regard to the grant asked for; because, if it become unnecessary to open a day-school upon Pasqua's Reserve, the boarding-school at Muscowpetung's taking the place of one, a saving will be effected by the establishment of the latter.

Church, on a piece of land adjoining Muscowpetung's Agency, which it may be stated is situated on the Indian Reserve taken. It would be observed from Mr Reed's letter that the Indian Commissioner for the North-west Territories proposes to contribute at the rate of the usual grant to day schools, namely $300.00 per annum, to the institution in question, until the Department has considered the propriety of making a special grant towards it.

Mr McKay's institution is similar in character to the institution conducted under the auspices of the Presbyterian Church at Round Lake, in the Crooked Lakes Agency. The latter institution receives an annual subsidy from the Department at the rate of $30.00 per capita up to 60 pupils.

The undersigned considers it would be desirable to grant a similar subsidy to the Presbyterian Boarding School near Muscowpetung's Agency. He would however state that it is not likely that a number equal to more than one half - (or say about forty) - of the pupils who attend the institution at Pound Lake could be accommodated, at least for sometime, at the institution now under consideration. He would therefore recommend that an item be inserted in the supplementary Estimates giving assistance to the boarding school referred to, to the amount of $1200.00 per annum.

OFFICE OF THE

Indian Commissioner,

NORTH-WEST TERRITORIES

Regina, 22nd June, 1898.

H.1.387.

Sir,

I have the honor to refer to your letter of the 3rd February last, in which a temporary arrangement was authorized for the assistance in the upkeep of the Presbyterian Indian boarding school under the Rev. W. S. Moore, near Muscowpetung's Agency.

I beg now to inform you that the pupils have been increasing at such a rate, that the allowance then made, appears to be quite inadequate. On April 1st, the school received a grant at the rate of $75.00 for 10 pupils, for the preceding quarter, while on 16th April, the number had increased to 16, on May 1st, to 21, while now there are 23 children.

I would therefore recommend that, for the current quarter, the grant may be made at the rate already quoted, for eighteen pupils.

Reference to the School Inspector's report, transmitted to the Department, under cover of my letter of even No. of 4th instant, will show that the Presbyterian Church promises to do its part towards the upkeep of the school, that it is being conducted with a careful regard to economy, and that it is doing a good work.

I have the honor to be,
Sir,
Your obedient Servant,

He may for the June quarter that this extra grant is asked and there will, I think, be sufficient money left over to meet the expenditure which will not exceed $130.00 to $140.00 although not.

Dear Sir,

I would respectfully ask the Government, on behalf of our school, to assist us in our work here, by supplying us with school-desks. I do so the more, on account of not having seats enough to accommodate all our children, and have not yet been able to purchase even one desk for our school, through want of funds; and further, because this school has been receiving from the Government, during the past year, only half the amount (30^{00}, instead of 60^{00}, per head per annum) of other schools, such as Round Lake and Morley.

I may say that I have been encouraged to make this application by Mr. Forget, Asst. Commissioner, who, on visiting our

OFFICE OF THE

Indian Commissioner,

NORTH-WEST TERRITORIES.

Regina, 12th February, 1889.

Sir,

In the absence of the Commissioner, I have the honor to transmit herewith, a copy of a letter from the Rev. W. S. Moore, Principal of the Muscowpetung boarding school, requesting some assistance towards the purchase of desks for the school.

As stated by the Rev. gentleman, I recently had occasion to visit his school. The class-room, I noticed, was altogether destitute of proper seats and desks for the pupils; and in this connection, the Principal informed me of his desire to apply for some assistance from the Department; as the means at his disposal could not permit of his incurring expense. The school, I am pleased to say, is doing good work, but undoubtedly laboring under financial

financial difficulties. Any help tending to supplement the comparatively small grant allowed this institution would, I am sure, be well bestowed, and thankfully received.

It affords me therefore great pleasure to recommend the request of the Rev. Mr Moore to your favorable consideration. The sum needed for supplying desks to the school would not exceed fifty dollars.

REV. PROF. HART, B.D.,
REV. PROF. BAIRD, B.D.,

Winnipeg, 5th March, 1896 189

Dear Sir,-

The Committee which has charge of the Indian Missions of the Presbyterian Church in the North West has instructed me to invite your attention to the Indian Boarding School which we have reopened at Lakesend, adjoining Pasqua's Reserve, and I am to say that although at present we ask for no financial assistance for the school, we would be pleased if the Indian department would take the Institution under its supervision and have the Agent and Inspectors include it in their visits.

The school has now an attendance of seventeen children, of whom some four or five are white children who attend as day pupils Of the others, some are the children of parents who are not in treaty relations, but who are as destitute and as ignorant as the majority of Indians, and others are children who have been refused admission to the Regina School, or who are not capable of being admitted to that school on account of constitutional disease. It is our intention to give special attention to children of this latter class. The Principal of the school, the Rev George Arthur,

B[redacted] has taken three sessions of a medical course, and he is assisted by a Matron who is a trained nurse. We hope, therefore, to do what such appliances are capable of doing for the rescue and restoration to health of children who otherwise would very likely be extremely short lived.

At the time of my visit to the school a few days ago there were only two children on the roll who were available for admission to the Regina or any other Industrial School, and it is hoped that the parents of these children may soon be so accustomed to separation from them that it will be possible to persuade them to allow the little ones to be taken to Regina.

In accordance with an interview which I had with you when you were last in Winnipeg, we are counting upon the favorable presentation of the case which you promised to make to secure an increase of the grant to the Birtle School, so that we will receive support for 40 children, which number the building can easily accomodate, instead of for 25 as at present.

Indian Industrial School 279859

at Regina, N.W.T.,

August 14, 1905.

Sir:--

I have the honor to enclose list of names of Indians belonging to the Piapot, Muscowpetung, and Pasquah Reserves. These men had meetings among themselves and decided to ask the Government to build a School on the Muscowpetung Reserve for these three reserves. The names, as enclosed, were written by one of their number at the request of the Indians themselves.

These names have been handed to me with the request that I forward them to the Government, and that I read to them any reply that the Department may send.

In response to the request of these men I forward the names without comment.

I have the honor to be,

Sir,

They are very strongly in favour of having schools established on the reserves and while they realize that the Industrial school does some good towards education they feel that there is something lacking. As I have no doubt every one interested in the Indians also feels my suggestion would be that when boys are educated at an Industrial school and are trained in any particular line, such as farmers, carpenters and blacksmiths, the Department should see that when it comes to the time that those boys leave the institution they should be apprenticed in some way in the trade which they have learned, and should not be allowed to drift back to the reserve where they generally do nothing but look wise and live in idleness.

Dear Sir,

Solomon Totoo of the Muscow Petung Reserve has consulted me to-day on behalf of more than fifteen Indians on this Reserve, with regard to having an Indian School located there. At the present time, the children of the Indians upon the Reserve have to attend the Lebret Industrial School. They complain that it is altogether too far to send their children and that it would be much more convenient to the parents of the Indian children if a small school was located upon the Reserve. I am enclosing herewith a list of the Indians who are anxious that a school be started.

If it is possible for you to meet the request of these Indians, I should be glad if you would do so as quickly as possible and let me know when you expect to be able to do anything. I believe the Indians on this Reserve have subscribed something like $1000.00 to Patriotic and War Funds and they feel that some consideration is due them for this.

Yours truly,

Pii Apelle Agency.
Nov 3rd 1937

Hon. Mr McGill
Supt. General.
Indian Dept. Ottawa.
Sir

Recognising that we are wards of the nation, this letter is not to be construed, has an expression of criticism directed against the Department, we are appealing to you for help and from those that are guarding the interests of the Indians.

For the past fifty years our recidential schools have been in the hands of the religious denominations, a clause in the Indian Act classifies the Indian in two classes, Roman Catholic and Protestant, Education being compulsary the law leaves us no alternative, it forces us to place our children in a religious school from the age of seven to sixteen, From childhood they are taught that religious laws are of first importance, religious duties entire their daily lifes, class room work and academic learning is sadly neglected concentration of thought, strengthening of will power and mental power are not taught them, therefore gradually coming under complete subjugation of religious authorities, as a result they lose the reality of character, integrety and manhood.

Therefore we suggest that you provide us with a day school, so as to enable the Indians to assume responsibility of raising their children, by this method the Indian children would be raised in the environment in which they will eventually have to make their living.

Under the present system after a child have been in a boarding school for ten years they are completely unfit to take their place in the life of the reserve, also they are not sufficiently educated to compete with the white man off the reserve, in any trade or profession.

Superintendent General
Indian Affairs, Ottawa.
Sir!

Twelve months have elapsed, since a petition was signed and forwarded to your Department from the Indians of the Qu'Appelle Agency, so far we have not received an answer.

In our letter attached to the petition we emphasized the fact, that our children are forceably taken from us and placed in these residential schools, with an utter disregard to our wishes, and also, our feelings in the matter are not even considered, to say the least, this attitude towards us has become odious and distasteful to us, it also jeopardises our rights as granted to us by rights of Treaty.

In conclusion we desire to state as sufficient time have elapsed, as stated above, we now, humbly request an answer.

Dear Sir:

I beg to advise that a delegation of the Pasqua and Muscowpetung Bands has waited on me with a proposition that a day school be operated on their reserves. They suggest that a building that has been used as a day school for the children of the Agency for the past four years (which school has now been discontinued) be used for the purpose of inaugurating a school. This room is a part of the ration house and would accommodate about ten children. It is equipped with one teacher's desk and eight children's desks. If started, it would mean buying all the necessary equipment with the exception of the desks mentioned.

This delegation has asked that I take this matter up with you.

Dear Sir:

Re: Attached Letter, Delegation, Pasqua and Muscowpetung Bands, School.

I might say that there is constant agitation among the Indians of these Bands for the establishment of day schools. They object to sending their children to residential schools. They want them at home. I have, however, pointed out to them that I could hold out no hope for the establishment of day schools on their reserves for some time to come, and that in view of the war situation, it would be impossible to find funds for the purpose. They, however, insisted that I submit their proposition to you.

There is no doubt that this school could be established in the present building at a small saving to the Department. It would, however, only accommodate about ten children, and immediately it was started, nearly every family on the reserves would want to send their children there, and those who could not send them would consider they were discriminated against. Consequently it would be a constant source of trouble.

Personally, I feel it would be a great mistake to establish a school on these reserves until such time as one could be built that would accommodate all the children who would wish to attend it.

Dear Sir:

I wish to inform you that a delegation of Indians from the Qu'Appelle Agency, that is from the Pasqua, Muscowpetung, and Piapot Bands, were here in Regina some time ago for the purpose of meeting Mr. Coldwell, the C.C.F. leader.

These Indians informed me that the reason they wanted to see Mr. Coldwell was to get him to take up the matter of securing for them Day Schools instead of having to send their children to Residential Schools. However, Mr. Coldwell was not in the city at that time and they interviewed Mr. Williams, the Provincial C.C.F. leader, who advised them he would let them know when Mr. Coldwell arrived in Regina. Later, they again came in to Regina and I believe met Mr. Coldwell, but it just happened that I was ill at home with a bad cold and was unable to meet them after this meeting with Mr. Coldwell.

The Indians assured me that they had no complaints whatever to make against the Institutions with which they had been dealing, namely the Lebret and File Hills Schools, but they thought the time had come when they should have Day Schools instead of Residential Schools.

This is simply for the information of the Branch.

CORRESPONDENCE BRANCH

I have the honor to acknowledge the receipt of your letter of the 2nd instant, informing me that application will be made to the Department of the Interior, for the use of the south half of section 24, Tp. 20, R17, W., 2 I.M., on behalf of the Presbyterian Indian Mission, who propose to open a boarding school there, for Indian children of Pasquah and Muscowpetung's Reserves.

In reply, I beg to inform you that the Department's promise being that application will be made for the use of the half section, leaves me in doubt whether I succeeded in making it as plain as I intended

to do, that the Mission desires to get possession of the land - in fact to get a deed of it.

I may, at the same time, express a hope that the Department will not only endeavour to meet the wishes of the Mission, with regard to obtaining possession of the land outright, but will kindly keep it before the attention of the Department of Interior, until it shall have been arranged.

My reason for urging this, is that the Rev. Mr. Moore, the newly appointed Presbyterian Missionary, is a most zealous and earnest worker, and has already transported the material for the building to the ground, and consequently, is anxiously awaiting the result.

considerable expense in connection therewith, is naturally anxious about the possession of the site.

In reply to the Department's letter of 22nd of October last, in which it was stated that, on account of certain reasons therein explained, it had been thought well to vest the title to the land, in the Superintendent General of Indian Affairs, it was pointed out in Mr. Reed's letter of even No; of 14th ultimo, that the Commissioner was inclined to suppose that some misapprehension had led to the land being vested as described.

X I have now to inform the Department that the Presbyterian Church has, through the Rev. Mr. Moore, expressed its very strong desire to have the title to the land vested in itself. Mr. Moore asks, if it might not be possible to vest the land - apart from it having to pay for it - in the Church, for so long as its use is

Mr. Moore to homestead the land, dispensing with the oath which binds him to affirm that it is for his own individual use.

The school promises to be a success, if the promises of the Indians to send their children to it, can be regarded as a criterion; and if successful, it will supply a want sorely felt, and practically solve what has proved a peculiarly hard problem, with regard to the education of the children of the Reserves.

The Commissioner is not aware of what difficulties - if any - may exist in the way of gratifying the desire of the Church people, but, in thinking the matter over, he is of opinion that, should any concessions be given

the Presbyterian Church, in the direction herein indicated, for school or mission purposes, other denominations not at present enjoying the same privilege, will most likely consider it their right to have the same concessions granted them.

It is a question, in the Commissioners mind, whether it would not be as well to either offer to the Church the use of the property, as long as they used it for the purpose for which it was granted, the title being vested in the Supt. General; or to make a grant of the land to them, if it could be done, and impose building, and other conditions on them.

Sir,

I beg to say that Cote Band of Indians had a council meeting last week, regarding School for their reserve. The band was divided in opinions in this matter, some wanting a day school similar to the regular public school, while others wanted a combined day and boarding school. After considerable discussion a vote was taken and it was decidéd by a small majority in favor of the combined day and boarding school. The Principal of the Crowstand Boarding School told me that they had decided to sell the entire school roperty including buildings and land at the present site and build a new school on the reserve,. The Indians, however, express a strong wish that the school be built and run by the Department and not in any way controlled or managed by the Church. The Band desire as soon as possible , when all have become definitely located on their lands, to change the school into a regular public school, to-wards which they are willing to contribute a sum equal in amount to that paid by neighboring white people in school taxes. If the Department agrees to their request the Indians are willing to do the labor on the New School building the Department to furnish the material, at such time as a public school is started.

The Band has submitted through the chief Inspector conditions on which they are willing to surrender the south portion of their reserve, which will if accepted, bring the much closer together and make the School convenient for all. In fact they will be near enough together to make a public school feasible. I beg to ask that I be informed as soon as possible reply to convey to the Indians.

Dept. Sir,—

On the 29th ultimo, I had the Cote Band of Indians called together, in council, to sign a surrender of a small portion pf their reserve, prevoiusly omitted in descriptions, and after taking the surrender the Indians talked over school matters, asking me to write you asking for a Day School on the following plan:-

(1.) The school to be non-denominational, as nearly like the Public School as possible, and directly under the Department's control.

(2) The building to be erected by the Department, using the Funds Capital Funds. Indians, who wished to work and were sufficiently skilled, being given work by the contractors who might have the contract.

(3) The School building to be centrally located and a resident(preferrably married)teacher employed.

I promised to report the meeting to the Department but also stated that I did not think the School could be built this season and that in the meantime the children of school age, must go to the Boarding schools. There are about thirty children of school age on the reserve. I talked this proposal over with Principal Mc Whinney and he, at that time, said he would write you approving of this project. I saw him on Saturday last and he said he had not yet written but was doing so shortly. He stated that he was taking over the Birtle school and that no doubt Crowstand would close.

Dear Mr. Scott,-

The matter of a combination Day and Boarding School on Cote Reserve, is one that I should like to bring to your notice. As you are aware, the question of building a new school at Crowstand has been under consideration for the last three years, but during that time conditions on the Cote Reserve have greatly changed, owing to the greater part of it having been surrendered, and the Band living on the remained of it now form a thickly settled community. I am of the opinion that a combination Day and Boarding school would work here to perfection, as fully 70 % of the children on the reserve could attend as Day pupils and the balance as Boarders for five days each week.

I may say that the Indians of this Band have been very anxious to have a day school and complain about the present school, which as you know is not popular with them.

My idea is that a suitable building could be erected to accommodate a staff of four and twenty pupils (Boarders), with all modern conveniences, at a very reasonable cost.

In addition to this there should be a Principal's residence and a detached class-room, for which two buildings we have plans and specifications already made out that could be used, and all that would be necessary would be to get a plan for the Main Building. If you approve I should like to have one made out and submitted to you for consideration.

I may say that I understand the Presbyterian Church has been considering such a proposition for some time and I know that the carrying out of this plan would meet the Indians' wishes also.

Dear Mr. Graham -

I have your letter of the 16th instant, with reference to the educational work on Cote's Reserve.

Some days ago I had almost concluded to discharge or transfer to other schools all the girls and convert the institution for a time at least for boys only. I am afraid, however, that this might prove a hardship both to some of the children and also to the Church, and I am asking that a new Principal be appointed. We will keep the school running as it is until next year.

I am disposed to agree with you that a combination day and boarding school would best meet the needs of the Cote Reserve. When a decision is finally arrived at the plans will be prepared in the Department. In the meantime I should be very glad to have a pencil sketch of a building that

Dear Sir,-

As Principal of the Crowstand Indian Boarding School which was closed on June 30th last , there are several items of information which I would like to have concerning the new Improved Day School about to be erected on the Cote Indian Reserve.

I. What staff does the Department consider necessary for the running of the new School?

2. If this is to be a Day- School what is the purpose of the two small dormitories allowed for in the plan of the proposed building?

3. Would it not be possible by a very slight addition to the cost of building and maintenance also, to make this a semi-Boarding School?

4. What provision is to be made for conveying the more distant pupils to the day-school?

I would not have the Department think that I am asking these questions out of any desire to find fault but from a sincere desire for the good of these people and to know exactly what the Department mean by the term "Improved Day School". I would also like to know when the new School ~~will~~ would be ready for use.

Dear Sir,- 483642

During the last week of July I wrote the Department for some information regarding the new Improved Day School about to be built on the Cote Indian Reserve. I have never received any communication in answer to this letter, and would like to know if this letter was received by the Department, and if so why I did not receive any reply. The principal questions which I then asked were,- I. What staff did the Department consider would be necessary to manage the new school?

2. What purpose did the Department intend to be served by the two small dormitories I understand were provided for in the plan?

3. What provision if any would be made for conveying children to and from school?

Further I would like to ask if it is the wish of the Department that the desks, blackboards and other school material supplied by the Department to the Crowstand Boarding school should be transferred to the new school? If not what other disposition does the Department wish to have made of this material?

Dear Mr. McLean:-

I wrote our Principal, asking him for an estimate for 1916, and he replies that he does not know what is to be necessary for this school, or what workers will be required, and, therefore, cannot give me an estimate. This being a day school, the Government will be responsible for the salary of the teacher, and any other workers, and also for the upkeep of the building. Could you give us any idea of the lines on which you intend to carry on this work ? Will you require a matron, and also a man to look after the building,- the heating, etc. ? What provision is to be made for the providing of lunch for the children attending the school, at noon ? I would be glad to have some information from you on these points.

Dear Mr. Scott,-

I have just received a letter from Mr. McWhinney in which he states that he does not think it will be possible for them to keep the Boarding school open after the first of December and he is anxious to know what is to be done with the staff. His suggestion is that Miss Walker, who is an excellent teacher, should remain, and that Miss Dunbar should be matron,and that we get an Indian man or boy to do the outdoor work, so as not to put these trusted workers, that are now in our employ and are very efficient, out of business. If we are going to be responsible for this work, Mr. McWhinney will have to have general supervision of the School and the mission work on the Reserve, as we would not want to leave this school without proper supervision. Of course we would be responsible for his salary.

I am writing to you personally in this matter because I want you to give it your attention. My opinion is that you had better let us make the necessary arrangements, subject to your approval, because we must notify the parties in our employ and we may have difficulty in getting new workers, and I think it better to use the ones we have, who have been tried and have proved satisfactory.

Dear Dr. Grant,

I have your letter of the 15th. instant with reference to the staff for the new Cote Day school. I think the suggestion to retain the services of Miss Walker, that Miss Dunbar should be matron and that Mr. McKinney should have a general supervision of the school and mission work on the reserve, is a good one, and I am prepared to give it my approval. In nearly all the improved day schools, of which we have several in operation in the western provinces, we have engaged a man and his wife, the man to take up the class work, and his wife to act as field matron, and in addition to these two we have provided a helper. The usual rate of salary has been $600.00 for the teacher, $300.00 for the matron and about $10.00 a month for the helper.

me know what you consider would be fair salaries. It should, of course, be remembered that in the new situation these young ladies will have to provide their own board, all the Government supplies they will have in their hands will be the material for the mid-day meal. I have no doubt we will be able to make some mutually satisfactory arrangement.

Yours sincerely.

Sir,-

As the time is near at hand when the combination school at Cote Reserve is to be opened, I should be glad to know what arrangements are being, or have been made regarding the management of this school. It is true you promised to advise me later on regarding the matter, but as the time is so near for the opening and reports are going around that Mr. McWhinney is to have charge as Principal, but that he will live in the town of Kamsack, thus leaving the building and pupils in the charge of two young women, I should be glad to know if their is any truth in these reports. It is true that you told me a short time ago that the Department and Mr. McWhirney were soon to sever connection, and this makes me think the reports must be groundless, however, I thought it wise to make enquiries before it is too late.

You know the trouble we have had in the past with boys and girls getting together. There was more of this at Crowstand than at all the other schools in the Inspectorate put together. Only last month there was another case of this kind, as you will see from Acting Agent Christianson's report. If the school is to be opened according to the reports above mentioned, it will make further trouble, which can be avoided by having the right kind of management.

There is another matter to which I would refer.

Has Mr. Christiansen the same power as other Agents in dealing with schools ? There is a feeling prevailing that the Agent must not give directions to the teachers regarding the work generally. Now,if the Agent has not this power, when he sees matters he thinks require attention,he might as well keep away from the school altogether.

I should like to make another suggestion before the school is opened,-which is,that all correspondence regarding the school should pass through the Agent's office,and instructions to the Principal should also go through him. There cannot be success if instructions come from three or four people ,each of whom is unaware of what the others are doing.

I have the honour to be,

Ottawa, November 26th, 1915.

Dear Sir -

In the absence of the Deputy Superintendent General owing to illness, I have to acknowledge the receipt of your communication of the 15th instant, in reference to the proposed management of the Cote Indian Day School.

Mr. Scott has given some consideration to this matter, and has been in communication with the authorities of the Presbyterian Church, but nothing definite has as yet been decided upon. Your letter will be brought to Mr. Scott's attention on his return to the office, which, it is hoped, will be in the near future.

Dear Mr. Scott:-

I have just received word from Mr. McWhinney that, now that winter has set in, they will be compelled to close the Boarding School on the 30th of November. The salaries of the matron and teacher will have to be paid by your department from December 1st on. As I understand it, you are responsible for the salaries of all the workers except the superintendent in this day school, and for all the expenses connected with the maintaining of it. Is it your intention that there should be any resident pupils at all ? How are you going to arrange for the mid-day meal for the pupils ?

I was wondering if you would require any of the furnishings in the Boarding School, or any of the equipment there, either in the school or on the farm. If so, we would be glad to sell them to you at a reasonable price.

If the teacher and matron and other help are to live in the school, what about their board ? Will you pay them a salary so that they can board themselves, or pay them so much salary and board in the institution ? These are matters that ought to be

Ottawa, December 3, 1915.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 27th ultimo in further reference to the improved day school on the Gote Reserve.

In reply I beg to say that, as you state the salaries of the matron and teacher will have to be paid by the Department from the first instant, on which date the Crowstand Boarding school was to be closed, it is thought that it would be advisable to continue classes in the boarding school building for day pupils until such time as the new day school building is ready for occupation and I should be glad if you would instruct Mr. McWhinney, who is to supervise this school, accordingly.

While it is not the intention of the Department that there should be permanent resident pupils in this school, there may be exceptional cases where some of the children live at too great a distance to return home every night and provision will be made for keeping a few of them from Monday till Saturday, if necessary.

As to the arrangements for the mid-day meal, sufficient supplies for this purpose will be furnished on requisition through the Agent and a helper will be employed at the rate of $10.00 a month, as you were informed by the Deputy Superintendent General on the 16th ultimo.

The Department will also pay for any fuel used while

In the letter referred to you were also told that the staff would have to provide their own board and that all the government supplies they would have in their hands would be the material for the mid-day meal.

Dear Mr. McLean:-

Referring to mine of December 7th, in answer to yours of the 4th,-I have just received a list of the furnishings at the Crowstand School that might be of use in the Day School, if you require them, and also the prices, as set forth by Mr. McWhinney. There is also a list of the articles in the school that have been furnished by the Department; so that, if you are at the point where you are ready to furnish, or to arrange for the furnishings, this information may be of some value to you.

Mr. McWhinney seems to think that unnecessary delay has been caused by the contractors not being responsible parties, who have charge of the building of the new school. He also states that the distance at which the children are away from the Boarding School would make it impossible, now that it has closed, for them to attend as day pupils.

Dear Mr. Scott:-

Your letter of February 9th received. I am glad that steps are being taken to get that day school building on the Crowstand Reserve completed. It seems too bad that the children should be out of school. I am taking up the matter referred to in your letter with Mr. McWhirney again, as to the employment of the teacher and matron in the meantime. I suppose if we sent on a statement prepared by him as to what salary the Government ought to pay, the amount will be forthcoming.

Our contract with the Government is up on the 1st of April for all this work. I have not been able to get the other denominations to join with me, so that we might approach the Government regarding a new contract. It is certainly time that something was done, as we are not prepared any longer to work under the old one. If I can possibly arrange to be in Ottawa before the 19th, I will

Sir,

487529

As per your instructions in letter No. 431602-1 of Jan. 7th. I beg to state that I have examined and checked the goods at Crowstand School which the Church authorities desire the Department to purchase, a list of which I received in the above letter. In this connection I might say that the prices asked are reasonable with the exception of a few articles which are priced a little high.

My recommendation to the Department is that none or very little of this stuff should be bought as a great majority of it is old and badly worn, as the prices indicate. In my opinion the only articles worth accepting are, refrigator @ $12.00 4 childrens' beds and springs @ $4.00 each and if any quantity of bread is to be made at the new School the bake oven could be procured and installed in the basement.

The reason for my recommendation is that it would be a pity to furnish a fine building, as the Cote School will be when completed, with this class of furniture, and I informed Mr. McWhinney of the above recommendation. If the Department takes these goods over I will check same when moved to Cote School.

I have the honour to be,

The Presbyterian Church owns certain furnishings in the Crowstand Boarding School, as shown on the enclosed list, that they wished to dispose of last winter. The Department was not then prepared to purchase, but if you consider that any of them will be suitable for the new day school, you might make a selection from this list of the articles absolutely needed to equip the new improved day school and fix the price.

After you have made this selection, you may purchase any other article of furnishing you consider necessary. The Department will rely on you to exercise economy

Sir;-

I have the honour to acknowledge the receipt of your letter of the 21st. inst. which was found here on my arrival on the 28th. inst.

I note that the school is to be in charge of Miss Walker, Teacher, at a salary of $450.00, and Miss Sarah Dunbar at $500.00 per year. As the management of this school will have to be under one head and as your letter does not say which one of the two ladies is to be in charge I would be glad to be advised on this point.

2 Your letter does not say anything about boarding arrangements for the pupils and I am therefore in the dark on this subject, although I understand from Mr. McWhinney, the missionary, that he understood from the Church Authorities that the Department were to furnish everything. If this is the case I would like to have full instructions on the matter.

3 I have a few suggestions to make to the Department on the subject of this school. I think it is highly essential that the Indian Agent who is responsible for the Agency should be the one to give instructions to those in charge of the school.

There

There should be no divided authority in this matter. If Mr. McWhinney or anyone else has suggestions to make regarding the school he should make them to the Agent and not to themeat the school. I am merely pointing this out so as to avoid friction in the future which there is bound to be unless this matter is clearly understood at the outset. All correspondence regarding this school ~~xxxxx~~ shmeal come through the Agent.

There is another matter that I think I should bring to your attention. The school is small and there is not sleeping accomodation for more than four children at the most. This being the case I think every effort should be made to have all children attend as day pupils, and those children who live at a great distance from the school should be sent to regular boarding schools where there is ample accomodation waiting for them. I refer to File Hills boarding school and Brandon Industrial school. Of course there will perhaps be cases where it would be a hardship to send children away to boarding schools but these will be few and on the advice and recommendation of the Agent they could be admitted to the improved Day schools as boarders. Once we begin taking in boarders the expense of management will be increased and I feel it will be only a short time before you will be called upon to supply nearly everything that is supplied boarding schools and the training not nearly so good.

If the idea of supplying a mid-day meal only is is followed, it will save a lot of complications and work for the Agent as we will only have to purchase meat, rice, biscuits, tea and sugar, whereas on the other hand if regular boarders are kept we will have to have all the facilities as are kept at a boarding school including additional staff, horses, cows, hens etc.,

The mid-day meal system worked out well at the Assiniboine Agency and if the people who are to take charge of this school will do as well there will be no grounds for complaint. My idea is to impress on the management of this school that it is to be run as a day school and let the boarding schools do what cannot be done here.

Another matter that I am not clear about, and that is regarding the board and maintainance of Miss Walker and Miss Dunbar. I understood from Mr. McWhinney that the Church Authorities proposed that the ladies provide their own board, I only hope this is true as it will be much easier for the Agent not to look after the purchase of the various requirements, of course there will be beef, flour and the other staples that will have to be purchased for the pupils mid-day meal and these articles could be supplied to the staff as well as it would be impossible to keep them seperate from the pupils rations.

With regard to the furnishings required for the new school your instructions to me were to purchase what was absolutely necessary to equipt the school. I did not find anything in the list of furnishings on hand at Crowstand that I thought would be suitable except a few blankets. I have therefore purchased a range,, which I am having installed before I leave here, and the necessary cooking utensils. I could not get any beds or furniture in town, there being only one store here where furniture is sold and this shop carried practically nothing. I will order the beds, mattresses and two cheap bedroom sets in Winnipeg.

The class-room furnishings, desks etc.,I am having transferre from Crowstand School at once, and will have the carpenter place them in the new school. A new desk and a small cupboard for school material will have to be supplied for this room.

I have given instructions to put the soft water tank, of 50 barrel capacity, in at once. It is impossible to get the drainage system put in this fall on account of the scarcity of labour, this will have to be done in the spring.

The cold air shaft made of galvanized iron running down the wall in the basement near the furnace will have to be boxed in for protection against wood being piled and knocked against it. This is being done by the carpenter also.

There are no bins in the pantry for flour, tea, oatmeal etc. ate., these are absolutely necessary and I am having them put in before the carpenter leaves the job.

Accounts covering the purchases made by me will be forwarded to you in a few days.

I hope the foregoing suggestions will be of service to the Department and that definite instructions will be issued as it will save complications in the future.

I have the honour to be,

Sir,

Your obedient servant.

October 13th. 1916.

Dear Mr. Graham,

I have your letter of the 30th. ultimo, with further reference to the management of the new Cote day school. I shall deal with the matters referred to by you seriatim.

It appears to me that Miss Sarah Dunbar, whose duties as matron will be general, including both the school and the reserve, should be the nominal head of the institution. A special letter of instructions as to her duties as field-matron will be sent to her.

Referring to paragraphs 2 and 4, it is to be distinctly understood that this is a day school. It is not proposed to take in regular boarders, but should there be at any time 3 or 4 children, who on account of distance from the school, or for other reasons, could not be expected to attend regularly, they might be kept in the school from Monday morning to Friday night. In such cases, as in other schools, the parents would be

expected to assist in providing their food. I agree with you that when it is found necessary to send children from this reserve to a residential school, they should go to File Hills, Brandon or Elkhorn, if Protestants.

The Indian agent as representing the Department will have direct supervision of this school, and all correspondence relating thereto should come through his office.

With reference to the mid-day meal, you may arrange for the purchase of the necessary food, such as meat, flour, rice, biscuits, tea and sugar. The supplies furnished should be of the same character as those given on the Assiniboine reserve. The arrangements made with the church authorities is that the teacher and matron should provide their own food, but in view of the fact that the salaries which they have been receiving, and are still being paid, are small compared with those paid in a number of other schools, I think that your suggestion, that they be furnished with beef, flour and other staples, is a good one, as these have to be supplied for the mid-day meal for the children, and you may carry

out this arrangement.

I approve of the action you have taken with reference to the furnishings, also the soft water supply, bins in the pantry, etc.

You will be good enough to inform the agent and the others interested as to the conditions on which the school is to be conducted as outlined above. I trust that the institution will be successful, and I know that the Department will receive the sympathetic cooperation of yourself and Mr. Christianson in attaining this end.

Dear Mr. Scott:-

We have just learned that the new school on the Cote Indian Reserve is completed, and that Miss A. E. Walker is to be the teacher, and Miss E. Dunbar the matron. We understand there are to be a number of boarding pupils - perhaps eight or ten. I presume we may regard this as a sort of semi-boarding school.

How is the school to be maintained ? Who is to have oversight of it ? Will Miss Walker have charge of the institution, and next to her will the Indian Agent exercise direct control over the school, or will our missionary, Rev. W. McWhinney, continue to have general oversight ? If the supervision of Mr. McWhinney is withdrawn, it would seem that the only connection the Church will have with the school will be the privilege of submitting the name of a teacher and a matron for the approval of the Government.

In the estimates sent here, the salary of Miss Walker is placed at $450 and board, and that of Miss Dunbar, $500 and board. What will they receive to cover board ? In a communication just received, it is suggested that, if they are to be provided with beef, flour, tea, etc., an allowance of $100 would be sufficient, but, if they have to provide everything themselves, $200 should be allowed.

How will the salaries be paid ? Will the Department forward the money in a lump sum to Dr. Somerville, our Church Treasurer, in the same manner as the other salaries are advanced ? As this school is not just like any of the others in which our Church is interested, we would be glad to know your plans.

We have not had an opportunity as yet to bring this matter either before the Presbytery of Yorkton or our Board, but feel sure that both would prefer that Mr. McWhinney should have general oversight. As he is a Minister of our Church, through him the Presbytery could keep in touch with the work. This is very essential, if we are to have ~~any~~ connection with the school. I fancy the women are not anxious for responsibility, but would prefer to be workers under our Board as heretofore.

In looking over past correspondence, I find that on November 16th, 1915, you wrote to Dr. Grant as follows:-

> "I think the suggestion to retain the services of Miss Walker, that Miss Dunbar should be matron and that Mr. McWhinney should have a general supervision of the school and mission work on the reserve, is a good one, and I am prepared to give it my approval".

Then, in a later letter dated December 4th, 1915, you said:-

> "It is thought that it would be advisable to continue classes in the boarding school building for day pupils until such time as the new day school building is ready for occupation, and I should be glad if you would instruct Mr. McWhinney, who is to supervise this school, accordingly".

These statements seem to us very clear, and the arrangement you have outlined would be satisfactory, but, as we have had correspondence from Saskatchewan recently intimating that the Government is planning to work otherwise, we would be glad to hear from you again.

Yours sincerely,

Rev. Sir,

I have your letter of the 27th. ultimo with reference to the management of the new Cote Day school. It has been arranged that Miss Sarah Dunbar, whose duties as matron will be general, will be the nominal head of the institution; while Miss Walker will have charge of the class-room work. The former will be paid at the rate of $500.00 per annum, and the latter at the rate of $450.00 per annum. It has also been arranged that they shall be supplied for their own use with beef, flour and other staples, provided for the mid-day meal of the children. A special letter of instruction has been sent to Miss Dunbar as to her duties as field-matron. In our improved day school system in the west, it is usual to engage the services of a man and wife as teacher and matron respectively.

and not two ladies as in this case. The engagement of a man and wife for these duties has been found generally satisfactory. The Department is, however, willing to try the experiment of conducting the school on the basis now arranged for, but should it not prove successful, it may be found necessary to institute a change at a later date.

It is to be distinctly understood that this is a day school, and it is not proposed to take in any regular boarders, but should there be at any time three or four children, who on account of distance from school or other reasons could not be expected to attend regularly, they may be kept in the school from Monday morning until Friday afternoon. In such cases, as in other schools, the parents will be expected to assist in providing their food.

The Indian Agent as representing the Department will have direct supervision of this school and all local correspondence regarding its management should come through his office. The Department has arranged with the Agent for the necessary supplies for a simple mid-day meal. These consist of meat, flour, rice, biscuits, tea, sugar, etc. They will be of the same

nature as those given at other improved day schools.

The payment of the salaries of the matron and teachers will be made as usual to the Church. As with other day schools conducted under the auspices of the various religious denominations throughout Canada, your Church will have the privilege of nominating the teachers, but the direct control of the school will rest with the Department through its officers. I have no doubt that Miss Dunbar and Miss Walker will be able to achieve good results on the Cote Reserve, and I am sure that they will receive the sympathetic cooperation of our officers in that district.

Referring to your letter of

No. I beg to acknowledge receipt of your letter of 19th inst. with instructions re opening of the Cote school and I immediately informed Miss Dunbar that we were prepared to open the school. She wishes to know the Department's intention re furnishing the teacher's dining-room, also arrangements for hauling water, keeping fires and like chores. She states that she received the impression from the Church Authorities that the Department would furnish a chore man for the school. I suggested to her that, for the present, until arrangements were made, that they use the pupils' dining-room and if they were prepared to move in that I would send a team to Crowstand for their bedroom furniture next Monday, 30th. inst., and purchase the supplies as stated by you. I informed her that, for the time being I would procure a 1 barrel tank in which could be kept their supply of water for immediate needs and would arrange to have their water hauled for a few days.
If Miss Dunbar agrees to these arrangements school will be opened on the 1st November, in the meantime I presume she is getting advice from Mr. McKinney.

I thought it better to give them all the assistance in my power, for the present, until satisfactory arrangements re these details were made, in order that school be opened on the 1st of the month if possible.

I received a letter from the Department a few days ago stating that Miss Dunbar had been under salary from the Department at the rate of $500.00 per annum as Field Matron for Cote Reserve since January last. Mr. McWhinney informed me that Miss Walker has also been under salary from the Department since last January at the rate of $450.00 per annum.

Dear Mr. Scott.-

I think I should like you to see the enclosed copy of a letter I received from Mr. Christianson this morning.

The furniture for the dining-room, which will consist of a table, four chairs and a small side-board, will be purchased by me. I am also buying two bed-room suites.

You will see from what Mr. Christianson says that Miss Dunbar expects to be supplied with a chore man, which, to my mind, would be absurd. The water is in a well 13 or 20' from the back door.

I was not advised by the Department that Miss Dunbar has held the position of Field Matron for the past ten months, although I inspected the Agency once during this time and visited it five or six times., and I am positive the Agent knew nothing about it.

To be candid, I feel sure this work is not going to be a success under the present arrangements. To begin

begin with, the management of the day school should be under a man and wife,who should be able to do all that is to be done.The salaries that are paid to the present two women would provide for this sort of help. Then again, I am not at all impressed with the teacher and I do not think Miss Dunbar will make a good field matron. My own experience with field matrons has been anything but satisfactory.

There is another matter,which is by no means the least important; both these ladies are completely under the influence of Mr. McWhinney, who as you know has not been a success as a school manager,and who has shown a decided inclination to interfere with the work of the reserve. Mr. Christianson is a busy man, but if we give him the proper start with this school he will do his best to keep it going. I would strongly recommend that if the parties now engaged are not satisfied with the Department's arrangements,that they be relieved and a man and wife engaged instead,even if we had to wait for a time.

I am sorry I cannot speak more encouragingly about this school,but am hoping it may yet be able to get a proper start and show good results.

I do not know that there is anything I can add to my letter of the 13th. October. We will have to give the proposed scheme a fair trial. The Church authorities understand that Miss Dunbar and Miss Walker are on trial in their respective positions, they are also aware that the school is under the direct supervision of Mr. Christianson and yourself.

With regard to their help, I think it is reasonable that they should have someone who could cut wood, draw water and do other heavy work of this nature. In most of our improved day schools we provide help of some kind, and I think we should make

Dear Mr. Scott,-

I am in receipt of your letter of the 14th instant in reply to mine of the 31st ult.

I do not wish you to think for one moment that I shall not do my utmost to make the improved Day School at Pelly a success. I thought it was only right that I should give you my impression of the two ladies who are to take charge of the school. Their general appearance did not impress me. Miss Dunbar has been paid for the past nine months, I understand, but she did not report to the Agent during all this time. I think if she had been in the least interested she would have at least reported herself, instead of living in absolute idleness all the time at Crowstand school, where there was just herself and Miss Walker. Of course it may not have been your intention to have her take up her duties until such time as the new school was opened.

I did not make myself quite clear on this point. It was my intention that the wood should be cut, split and piled at the back door for the kitchen and in the basement for the furnace. The wood was to be cut by machinery and piled by the pupils. As to the water, the well is close to the door and the soft water is supplied by a pump in the kitchen. In view of these circumstances I do not see how a man could be employed. At our File Hills Colony Hospital the Nurse and her assistant, who is an Indian girl, not only look after the furnace, but they care for the cow as well. They also have a garden, hens etc. and I venture to say that these two people have more to do than the two at Pelly will ever have, as the latter can have the larger boys attend to the furnace during the day. However, if in the face of these explanations, you think additional help should be provided, kindly let me know and I shall carry out your instructions.

Dear Mr. Graham,

I never had any doubt that you would try to make the improved day school at Polly a success. The only reason why we retain the services of these two ladies is to placate the Presbyterian authorities who made a to-do about closing the school and throwing these people out of employment. I will leave the matters of detail in your hands and those of Mr. Christianson. If they do not make the thing go, we shall have to get rid of them and try to get a competent married man. I have told the Church authorities that our officers alone would be responsible, and I think they should understand from this that we do not require any guidance from Mr. McPhinney. I think his action in marrying that girl to the deformed

Sir,—

I beg to acknowledge receipt of your letter No.431602-1 of 11th. inst. re my wire of 8th. inst. regarding opening of Cote School. I would say that I sent the wire upon instructions from you contained in a telegram which I received the same day which reads as follows;-

" Ottawa, Dec. 7th.

" M.Christianson,

"Indian Agent,

"Kamsack.

"Have you got possession of the Cote School building, "wire."

I may say I thought it strange to receive such a telegram after sending my letter of the 1st. inst. which gave the necessary information.

Trusting this explanation is satisfactory,

I have the honour to be,

Toronto, Dec. 20th, 1916.

Mr. D. C. Scott,

Deputy Superintendent General,

Ottawa, Ont.

Dear Mr. Scott:-

On November 14th, File No. 431,602-1, you wrote re your plans for the new Cote Day School. In that you stated that the salary of Miss Dunbar would be $500 and that of Miss Walker $450. You stated that "the Indian Agent as representing the Department would have direct supervision of this school, and all local correspondence regarding its management should come through his office". You also stated that "the payment of the salaries of the matron and teacher will be made as usual to the Church".

I have asked the Women's Missionary Society to give me a statement of their payments to this school during the year. They have submitted the following:-

Salary of teacher for 6 months, Jan.-June		$225.00
" " matron " " " " "		250.00
		$475.00
Paid in full by Govt.		475.00
Salary of teacher for 5 months, July-Dec.		$225.00
" " matron " 4 " July-Oct.		166.64
Received from Govt.	$41.65	
Bal. due from Govt.	349.89	
	$391.64	$391.64

The $41.65 that they have received on account of salary for the matron did not come direct from Ottawa, but was sent direct from your Department to Miss Dunbar, and, as she had already received her salary cheque from the Church Offices, she forwarded it here, and the amount was entered as a refund. It seems to me that there is a little confusion in regard to the payment of these salaries. In your letter of the 14th, you state that the payment of the salaries will be made as usual through the Church. At least one cheque has gone direct, and whether others have been remitted in the same way I do not know.

You will see from the foregoing statement that, apart from the $41.65, our Treasurer has received nothing from the Government on account of this school for the six months beginning July 1st. As you have ruled that Mr. McWhinney no longer has any supervision, I cannot write him in regard to this, so am corresponding direct.

Yours sincerely,

Dear Mr. Jamieson,

I have your letter of December 20th. with reference to the payment of salaries to the matron and teacher of the Cote Day school. Confusion has certainly arisen with reference to the payment of these salaries which we can clear up without much trouble.

Miss Dunbar was considered by our Accountant as the field-matron, and is being paid upon requisition from the Agent. I learn that they have sent her November salary direct and she will probably refund it. The Schools Branch has requisitioned for the salary of Miss Walker, and I understand that they are sending you a cheque in payment for her services in full to 31st. December. A cheque for Miss Dunbar's December salary will also go to you in due course.

I have issued instructions that these ladies

In this connection I beg to draw the Department's attention to their letter No.431602-1 of 11th. inst. acknowledging receipt of my wire of 8th. inst. and also censuring me for sending telegram of 8th. inst., which I did upon instructions I received from the Department as explained in my letter No. 14-1 of 19th. inst. As previously intimated in my letter of the 19th. inst., wherein I acknowledge receipt of yours of 11th. inst. and expressing my surprise at receiving your telegram of the 8th. inst., I was even more surprised on receiving the one above quoted. I thought it unecessary to reply to the above telegram but considered it my duty to obey instructions contained therein.

I would ask the Department to acknowledge receipt of this letter as I feel that the censure in your letter of 11th. inst. is not due me. Trusting this clears the matter.

Mr D. C. Scott,
Deputy Superintendent General,

Dear Mr. Scott:-

I have this morning a letter from Miss E. A. Walker at Cote Indian School in regard to her salary, and also that of Miss Dunbar, matron.

Miss Walker claims that her underestanding was that she was to receive $450 with board, room and laundry in addition, and that Miss Dunbar was to receive $500 and board, etc. It now appears that, since moving into the new school, practically the full cost of board has come out of the salaries of these ladies.

I understand that a mid.day lunch is served the pupils. As a result the matron and teacher secure a few staples such as tea, meat, sugar, etc. Miss Walker states that she and Miss Dunbar use comparatively little of these. She intimates that even the coal oil used to light the building has been paid

for out of their salaries.

I have taken this matter up with our Women's Missionary Society this morning, and we have agreed to recommend that the salaries of both of these workers should be increased. Miss Walker intimates quite frankly that, unless the situation is improved, as far as she is concerned she will be forced to send in her resignation. We feel that you should make it possible for her to remain at her work. The cost of living is high, and she is not getting as much as some of those serving at the other schools. For example, the Hurricane Hills School was vacant for three months. Mr. Graham engaged a teacher at $900 a year, and the lady in question willhave the same advantages in regard to the mid-day meal as Miss Walker.

It seems to us that Miss Walker should receive at least $60 per month and Miss Dunbar $50.

DEPARTMENT OF INDIAN AFFAIRS FEB 7 1917

AGENT'S REPORT ON COTE DAY SCHOOL.

Feb. 3rd. 1917. PELLY AGENCY.

497607

This School was opened during December 1916 and school was taught six days during that month before closing for Christmas holidays and was re-opened on January 2nd. 1917. The attendance for January has been rather irregular owing to the severe cold weather and a number of the children have suffered from La Gippe, but I expect the attendance will be of a better average as soon as the weather moderates as the majority of the parents are anxious to send their children to school. Quite a number of the children attending this school previously attended Crowstand School and apparently, what they were then taught, does not seem to be of much benefit to them now. For example, one boy, a lad about 15, who had attended Crowstand School for four years cannot yet read satisfactorily from the 2nd. primary reader. The Teacher and Matron are using their best endeavours but the school has not been in operation long enough to observe any progress.

Considerable inconvenience has been experienced during the recent severe cold weather by inability to heat the building as the furnace is far from satisfactory. Yesterday, Feb. 2nd., it became necessary to dismiss school about 1.30 o'clock as it was too cold for the children to stay in the building despite repeated efforts by the staff and others to produce heat. I have previously reported this matter to Mr. Inspector Graham and he gave me instructions to get Mr. Kelly, who installed the furnace in the new Agency house, to put this furnace in proper working order. Mr. Kelly examined it and he informed me that all the pipe work to the furnace would have to be altered in order to get satisfactory results, but he does not wish to undertake the alteration until spring.

Sir,-

In your report on the Cote Day school, dated February 3rd, you state that,-

"Considerable inconvenience has been experienced during the recent severe cold weather by inability to heat the building as the furnace is far from satisfactory. Yesterday February 2nd, it became necessary to dismiss school about 1.30 o'clock as it was too cold for the children to stay in the building despite repeated efforts by the staff and others to produce heat. Mr. Kelly examined it and he informed me that all the pipe work to the furnace would have to be altered in order to get satisfactory results, but he does not wish to undertake the alteration until spring."

With reference to this I have to request that you will personally visit this school and have the furnace operated as a test under your instructions by the person in charge of it in the school, and at once report the results to the Deputy Superintendent General.

As the furnace installed there is of standard make, of sufficient capacity, and heating conductors and registers of correct capacity, and as similar equipment is working satisfactorily in other buildings erected from the same plans and where the official tests show that a temperature of eighty degrees can easily be maintained in zero weather this being the case, the Department will not permit any changes

changes to be made to the furnace or any portion of the equipment. In the event, however, of your further report stating that the heating is not satisfactory, the Department will at once report to the makers of the furnace and have this examined and tested by them, and on the receipt of their report here, if necessary, further action will be taken.

I had a reply from you Jan. 23rd in which you intimated that you expected to take this up with Mr. Graham on the occasion of his visit to Ottawa. Since then we have had no word. Our District Superintendent for Northern Saskatchewan called at the office a week ago. He feels that action should be taken at once in regard to this. He states that here can be no question about the ability of Miss Walker as a teacher, and intimates that she could very easily secure a much higher salary if she cares to leave the school. We hope that the Department will make it possible for us to retain her in the work.

Dear Mr. Edmison -

I have your letter of the 6th instant, in further reference to the salary of the teacher and the field matron of the Oote Indian Reserve, and in view of the the circumstances I have decided to pay Miss Walker at the the rate of $720.00 per annum and Miss Dunbar at the rate of $600.00 per annum from the 1st of January, last. I shall also see that they are refunded the money paid by them for lighting the building, as intimated in your previous letter.

As you are aware it is the wish of the Department that this school should be conducted in an efficient and successful manner, and I trust that under the management of these two ladies there will be no cause for criticism. Their retention in the respective positions, it is understood, is dependent upon their conducting this work to the satisfaction of those concerned.

Dear Mr. Scott:- File 431602 - 1.

I wrote you January 13th, in regard to the salary of the workers on Cote Indian School. In reply you stated that you were expecting a visit from Mr. Graham and would take up the matter with him.

I wrote you again March 8th, but up to the present have not heardd from you.

I have this morning a letter from Miss Walker, in which she states that she must get a salary of $720.00 a year, beginning December 1st, 1916. She says that unless she gets this, it will be necessary for her to sever her connection with the school at once.

There is, as you know, a great demand for teachers in the Western Provinces at the present time, and it is possible for Miss Walker to get even a higher salary than this, but she is hoping to remain with the work.

Our Board meets next Tuesday. I will be glad to have a reply, that I may bring the matter before our Home Mission Board.

Sir,—

For the Department's information, I beg to say that under the existing conditions the Cote Day School is entirely dependant upon the Agency for assistance in many ways. As the staff at the School have no method of transportation, it becomes necessary for the Agency to haul their supplies from town and also their water as the water in the well is not fit for domestic purposes, and there are many other minor duties which necessitate assistance from the Agency.

I wish the Department to understand that I am not making any complaint in this connection, but I thought it well that the Department should be aware of the conditions as they are.

Madam,-

I have to acknowledge the receipt of your letter of the 5th instant regarding the Christmas and Easter holidays allowed the pupils of the Cote Day school.

In reply I beg to say that the usual holidays are to be granted the pupils at both these periods. It is not the intention of the Department to have teachers make up the time lost while the schools were closed during the recent epidemic of influenza and full salary will be paid for the time the school was closed during the epidemic.

Your obedient servant,

Asst. Deputy and Secretary.

Dear Mr. McLean:-

I wrote you a few days ago stating that Miss Walker, teacher in the Cote Indian School, Saskatchewan, had resigned.

We are submitting the name of Miss Gertrude Lawrence, who is at present teacher at Uclulet on the Pacific Coast. Miss Lawrence has, as you know, had several years' experience. She is anxious to get back into Saskatchewan. I hope this appointment will find your approval.

Please let us know what salary we should offer Miss Lawrence. She has been receiving at the rate of $75.00 per month and I presume she would not consider an appointment under that amount. My own feeling is, as I stated to you, that this is not enough money for an experienced teacher.

Yours sincerely,

Dear Sir,-

Enclosed please find copy of a communication I have just received from Miss Eva Walker who has been teaching at the Kamsack Indian School, Sask. for a number of years. It appears that she was engaged at a salary of $720 a year but she has been paid at the rate of $60 per month, the salary being paid for July and August as well as for the months during which the school was open. Now she is giving up work and she has only received remuneration for the six months in which she was engaged in teaching and nothing during vacation.

Miss Walker wrote me some time ago in regard to this but I assured her that the Department would deal fairly with her. She has done pretty faithful work and I think she is entitled to an allowance for a reasonable vacation. She claims that as she was engaged at $720 a year, that this really amounts to $72 per month for 10 teaching months. She has already received $360. She is now claiming a balance of $72.

Trusting you will be able to forward this,

Yours sincerely,

Reverend Sir,-

I have to acknowledge the receipt of your letter of the 4th instant, enclosing a communication from Miss Eva Walker, late teacher of Cote's Indian Day School, claiming a balance of salary due her for the six months ending June 30th last.

In reply I beg to say that as you were informed by letter of March 16, 1917, Miss Walker's salary was at the rate of $720.00 per annum. This salary was paid quarterly. She was paid $360.00 for the period above mentioned, which is half her yearly salary. As she resigned at the end of June last it is considered that she has been paid the full amount due her for her services and it is, therefore, regretted that the Department cannot make her any further payment on that account.

Dear Mr. McLean,-

I have a letter this morning from Miss Gertrude Lawrence who is now in charge of our Indian school at Cote, Kamsack, Sask. She complains of the salary she received while teaching at Uclulet. She was engaged at the rate of $750 for the 10 teaching months. In her statement we have before us now she claims that she received cheques as follows,- $71.25 at the end of last September (1918) $187.50 at the end of December, March and June. This makes a total of $633.75 for the year rather than $750. She feels she is now entitled to the balance. I have looked over her statement carefully and I feel she should get the extra amount. I hope you can forward this without delay. Miss Lawrence is a good teacher and she was at heavy expense in the trip to the coast from Toronto and back to Saskatchewan.

I have to acknowledge the receipt of your letter of the 15th instant, with reference to the amount of salary paid Miss Gertrude Lawrence for the period she taught the Ucluelet Indian Day School.

In reply I beg to say that cheques in payment of her salary were sent to the Treasurer of the Presbyterian Church in Canada as follows:-

November	9, 1918,	Ck. No.	1934	for	$71.25
January	21, 1919,	" "	2682	"	187.50
April	19, 1919	" "	3631	"	187.50
July	14, 1919	" "	708	"	303.75.

This comprises the total payment of $750.00 being the amount of Miss Lawrence's salary for the school year ending June 30th last.

If Miss Lawrence has not received the above amount this is a matter which should be referred to your church treasurer.

Dear Mr. McLean,-

I have just discovered that we overlooked writing you earlier in regard to the appointment of Miss F. Fox as teacher at Cote Indian School from Jan. 1st. She takes the place of Miss Lawrence. Miss Fox has a second class professional certificate and is an exceedingly competent woman. When Miss Lawrence gave up the work at the end of the year we had Miss Fox, who was acting as Secretary at our Canora Hospital, go over and take her place. She is willing to take the school permanently. I hope you will approve of her appointment.

I do not know just what salary you will be willing to give her but I think you should give the maximum as she is without doubt one of the best qualified teachers on our staff and we are very fortunate in securing her. In looking up our files I find Miss Lawrence received $750 per year for ten teaching months, but I do not think this is sufficient, as teachers no better qualified are throughout Saskatchewan getting from $100 to $125 per month.

Reverend Sir, -

Our Agent, at Kamsack, Sask., informs the Department that it is the intention of Miss S. Dunbar, Matron of the Cote Day School, to resign at the end of the current month, and he also states that she has informed the Presbyterian Church authorities accordingly. You are, no doubt, aware of her intention to resign.

I shall be pleased if you will nominate a suitable person to succeed Miss Dunbar, and to perform the same duties as were performed by her. It is hoped that you will be able to secure the services of a capable woman to begin duties when the school re-opens after the summer holidays, on or about September 1st, next. The salary allowed will be at the same rate as was paid Miss Dunbar, viz: $600 per annum together with the bonus at the rate allowed, viz: $150.00 for the present fiscal year.

The name, qualifications and experience of the person nominated should be forwarded for the consideration of the Department.

It is regretted that Miss Dunbar is giving up work at this school, as her services during the period she has been Matron have been entirely satisfactory to the Department.

Reverend Sir, -

The Department has been informed that it is the intention of Miss Bertha Fox, teacher of the Cote Indian Day School, to give up her duties at the end of the present school year. As you were informed, Miss S. Dunbar, the matron, also intends to leave at the same time.

It will, therefore, be necessary to obtain a suitable teacher and matron for this school, to begin duties after the sum er holidays. I shall, [redacted], be pleased if you will nominate two suitable persons for the positions as matron and teacher, respectively.

The names, qualifications and experience which they possess should be forwarded for the consideration of the Department.

It is regretted that both these ladies are giving up work at this school. Miss Fox has always taken a great interest in the children and the attendance has increased since she took charge. The services of Miss Dunbar have also been satisfactory.

It is hoped that you will be successful in obtaining a teacher and matron for this school in time to begin duties when the school reopens after the summer holidays, on or about September 1st, next.

Dear Mr. Scott,-

After a good deal of advertising and much correspondence, we are at last in a position to recommend a teacher for the Cote School. We are submitting for your approval the name of Miss Minnie Sinclair, Rossburn, Man. She has a second non-professional and a third class professional certificate.

As school is to start September 5th, we asked Miss Sinclair to report without delay.

Yours sincerely,

Dear Dr. Scott:-

I have just had word from Rev. W. McWhinney, our Home Mission Convener of Kamsack Presbytery, notifying us that Miss Sinclair, the teacher at Cote School, has sent in her resignation, to take effect at the end of this term.

Mr. McWhinney has recommended Mrs. Marshall, who has been superintendent of our work at Birtle. Mrs. Marshall, as you may recall, was teacher at Portage La Prairie for a good long time, and is fully qualified.

I hope you will give your approval to the appointment of Mrs. Marshall from January 1st.

3rd November 1923

With reference to Mrs.S.Marshall,teacher of the Cot e Improved Day School,I beg to draw your attention to the fact,that Mr s.Marshall is a very competent and experienced teacher,has the children well in hand and I have noticed a great improvement in the children in their work,cleanliness and deportment.

The number of children on the roll is 38 and the average attendance is 25.9 which does not include the daily attendance of four white children of the Farm Instructor's,so it can readily be seen keeps Mrs Marshall fully employed.

This teacher is in receipt of a salary of $750.00 only per year,and I am of opinion,that it should be raised by $200.00 per year. Her services are valuable to the Department,and am fully convinced that her services should be recognised.

During September the Cote School was inspected by the Public School Inspector and he informed me that Mrs.Mar shall was an excellent t eacher and that his inspection fully confirmed all he had heard about her qualities before he came to carry out his inspection.

also learned from outside information that Mr.Merrill,the inspector offered Mrs Marshall $1200.00 per year if she cared to consider working under him in the Provincial Public Schools,but understand that the proposal has not been considered by the teacher.

I may point out

Sir,

I beg to report that Mrs. S. Marshall, teacher of Cote Improved Day School, Cote Reserve, wishes leave of absence from March 1st 1924 until June 1st 1924, as she feels that she is in need of rest.

The question of salary being paid during the leave asked for is left to the decision of the Department governing such matters.

A Mrs. McCaskill has signified her willingness to act as substitute. She is an experienced and qualified teacher, and is at ptesent unemployed owing to the recent burning down of her school.

Sir:

I have to acknowledge receipt of your letter of the 16th instant, informing the Department that Mrs. S. Marshall, teacher of the Cote Improved Indian Day School, desires three months' leave of absence, from March 1st to June 1st, next, as she is in need of a rest from her duties.

In reply I beg to say that approval is granted for leave of absence to Mrs. Marshall between the above mentioned dates. The arrangement made with Mrs. McCaskill, an experienced and qualified teacher, to act as substitute during Mrs. Marshall's absence is also approved, with salary, as well as any bonus provided by law, at same rate as was paid Mrs. Marshall.

Regarding payment of salary to Mrs. Marshall during the period of her absence, I beg to say it is regretted that it will be difficult, under the regulations of the Auditor General's Department, to comply with this request. In continuing salary to Mrs. Marshall during her absence, and in the employing of a substitute, two salaries would be paid for the same service. This action could be taken only with the approval of His Excellency in Council after receipt of a doctor's certificate setting forth the reasons for the absence from duty.

Dear Dr. Scott:-

I have just had a letter from Rev. W. McWhinney of Kamsack in which he intimates that he has secured a Matron for the Cote School, a Mrs. D.R. Fraser of Yorkton.

Mrs. Fraser has been greatly interested in Church work. As a matter of fact she has been President of the Yorkton W.M.S. Presbyterial. Mr. McWhinney reports her as a superior person. Her husband is with her. They have no children. Mr. McWhinney describes him as a "quiet, respectable man who has been rather unfortunate in business and whose health is somewhat broken."

Mr. McWhinney and the Indian Agent have discussed the whole situation and they feel that his presence will be no barrier but that he will be of very considerable assistance, especially in the Winter season.

Mrs. Marshall has opened the School and has temporary help until Mrs.Fraser's arrival, about the middle of the month.

Trusting this appointment will meet with your approval,

Yours sincerely,

JHE/HC

Rev. Sir:

I have been directed to acknowledge receipt of your letter of the 10th instant, informing the Department that the services of Mrs. D. R. Fraser have been secured as matron for the Cote Indian Day School.

In reply I beg to say that the appointment of Mrs. Fraser as matron is approved. The salary allowed her will be at the same rate as was paid the former matron, Mrs. McMillan, viz. $600 per annum, supplemented by the bonus provided by law. We have noted that Mrs. Fraser's husband is with her, and that the Indian Agent and the Rev. Mr. McWhinney have discussed this situation and they feel that the presence of Mrs. Fraser's husband will be of considerable assistance during the winter season.

We are informing Mr. Agent McConnell, Kamsack, and Mr. Commissioner Graham, Regina, of the approval of the appointment of Mrs. Fraser and the salary she will receive.

Your obedient servant,

I beg to inform you that at the request of the Presbyterian Church authorities approval has been granted for the appointment of Mrs. D. R. Fraser, of Yorkton, to the position as assistant teacher and matron at the Cote Indian Day School. The salary allowed her will be at the same rate as was paid her predecessor, viz. $600 per annum, supplemented by the bonus provided by law. Payment of both salary and bonus is based on ten teaching months in the year.

We have been informed that Mrs. Fraser's husband is with her, but that you have discussed this situation with the Rev. W. McWhinney and that you feel his presence will be of considerable assistance, especially during the winter season.

PRESBYTERY OF KAMSACK

Kamsack, Sask., April 27th, 1925.

Dear Dr. Edmison:-

For family reasons Mrs. Marshall finds it necessary to again resign her position as teacher in the Cote school, such resignation to take effect at the end of June. This I think will be final. Mrs. Fraser who has been so very acceptably filling the position of matron since last September has a Second Class Nova Scotia Teacher's Certificate, with several years experience in Public School work and wishes to take over the work of the class room. I would strongly recommend that she be given this position and that Miss Christina Templeton at present serving as assistant to the matron in the Moose Jaw Boys' College, be appointed matron of the Cote school in her stead. I am enclosing a letter from Mrs. Fraser of Moose Jaw College which indicates Miss Templeton's fitness for this position.

I should like to hear as soon as possible if this change for Mrs. D.R. Fraser and the appointment of Miss Templeton is to be made in order to let Miss Templeton know.

I am,

Yours sincerely,

Signed- W. McWhinney.

Dear Dr. Scott:-

I am enclosing a copy of a letter I have just received from Rev. W. McWhinney, our Home Mission Convener for Kamsack Presbytery.

From this you will find that Mrs. Marshall has submitted her resignation as teacher of the Cote School, such resignation to take effect the end of June.

Presbytery's Committee has recommended the appointment as teacher of Mrs. D.R. Fraser, and suggests the appointment as matron of Miss Templeton. She is at present Assistant Matron in the Moose Jaw College. She is reported as a most capable sewer and housekeeper. She was for some years in a large hospital in Glasgow. The Matron of Moose Jaw College describes her as a young woman of bright, lovable disposition and well suited to work such as she would have at Cote.

I have conferred with our W.M.S. and that Society approves of both these appointments.

Yours sincerely,

Rev. Sir:

I have your letter of the 5th instant, enclosing copy of a communication which you received from your Home Mission Convener for Kamsack Presbytery in which he states that Mrs. Marshall, teacher of the Cote Indian Day School, has submitted her resignation to take effect at the end of June, next. In reply I beg to say that the Department regrets that Mrs. Marshall has found it necessary to sever her connection with Indian school work, in which her services have been so satisfactory.

The Department will approve of the appointment of Mrs. D. R. Fraser, the present assistant, as teacher, from the beginning of the next school year. The total salary allowed her will be at the rate of $85 per month for the ten teaching months in the year.

Regarding the appointment of an assistant teacher and matron, the Department will approve of the appointment of Miss Christina Templeton, whom Rev. Mr. McWhinney strongly recommends for the position. Her qualifications have been noted and are satisfactory. The total salary allowed her will be at the rate of $75 per month for the ten teaching months in the school year.

We are informing the local Indian Agent and Mr. Commissioner Graham, of Regina, of the resignation of Mrs. Marshall and the appointment of Mrs. Fraser and Miss Templeton.

I have noted that the above appointments meet with the approval of your W.M.S.

The Department is in receipt of the December quarter return of the Cote's Indian Day School and it is noted that the return is signed by Mrs. Johnson, substitute teacher. This is the first intimation that the Department has received regarding Mrs. Fraser's illness. Please advise if Mrs. Fraser has yet returned to her duties and, if not, state the probable duration of her illness. You should, also, report on the qualifications of the substitute teacher, Mrs. Johnson, and advise by whom she was secured. In this connection, I might point out that the Department should be promptly notified of the illness of any teacher.

I would, also, refer you to official letter of May 8th, 1925, addressed to the former Agent, Mr. McConnell, with reference to the appointment of Mrs. Fraser as teacher and Miss Templeton as assistant teacher and matron. Apparently, we have not received any report recently with regard to the duties performed by Miss Templeton. I should be pleased to have a report from you regarding the duties she performs.

Sir,-

Replying to your letter No.117-2-1 of the 4th. inst. regarding the Cote Day School and the substituting of a teacher during the illness of Mrs.Fraser; I beg to advise that I notified Mr.Commissioner Graham of Mrs.Fraser's illness and secured permission to close the school until the critical stage was over and at the same time informed him that efforts were being made to secure the services of a substitute.

Mrs.Johnson who substituted until the Xmas holidays, holds a permanent second class certificate and was secured by the Rev.W.McWhinney, the United Church Missionary in the field. Prior to time Mrs. Johnson was secured Miss Templeton, the Matron did assume the duties as teahher, but found this in addition to her other duties, more than she could manage Miss Templeton's duties as Matron at the Cote Day School consist of,-

1. Housekeeper for the residence.
2. Prepare and serve the mid-day meal for the school children and instruct them in table setting and dish-washing.
3. Give instruction in sewing and knitting.
4. Perform duties of Field Matron along with the teacher as far as time and opportunity permit.

Mrs.Fraser has not and is not likely to return to her duties until the Easter holidays as her condition would not permit of her doing so.

School was opened on the 3rd. of Jan. under the Tutorship of Miss S.Leadingham who holds a second class permanent certificate. The Rev.W.McWhinney having secured her services until the Easter recess.

I beg to advise that the United Church missionary in this field, Mr. McWhinney has brought down from Keeseekouse Reserve, four children of the Protestant faith whose parents do not want to send them away to a boarding school. These children are staying at the Gote School, rations clothes &c. to be provided by the church authorities. They are to return to their respective homes each Friday evening and be brought down on Mondays.

This situation has arisen over the fact that one or two other families have consented to and had their children baptized into the Roman Catholic faith since the opening of the St. Philips school on the Keeseekouse Reserve.

I wish to refer further to your 310-11B of the 7th instant, concerning the Cote Indian Day School. The Department had in mind vans for the transportation of some of those enrolled at this school; but, after careful consideration, it has been decided that it would be more economical and satisfactory if six or eight of the children were taken into residence from Monday to Friday. COPY

Kamsack, May 23rd, 1928.

Mr. W. M. Graham,
Indian Commissioner,
Regina, Sask.

Dear Mr. Graham:-

Mr. McKenzie, Indian Agent has told me of a letter which he has just received from you saying that it is not possible for us to keep boarding children in the Cote Day School. I expect to be in Regina next week and would like to discuss this whole matter with you but in the meantime I would like you to consider the following matters in connection with this question.-

1. When the decision was arrived at to close the Crowstand Boarding School and substitute a day school I foresaw that there would be children who would not have suitable homes and others who would be too far away to come and go each day and therefore you will remember that I asked that a small boarding school be attached to the day school. This plan was approved by yourself and by the Department at Ottawa and the plans for the building were drawn and sent to me in 1915. But I suppose it was due to war time economy that the boarding idea was dropped and the Improved Day School was built instead. You will recollect that there was space enough to provide for five bed rooms. It has always been my idea that these should be used for those children who were too far away to come each day so that they could stay at the school from Monday till Friday. However the need for this did not become acute until this spring when the building and opening of the St. Phillips boarding school raised new problems.

2. On the Kesekoose Reserve, not far from the new school, there are several protestant families, some of whose children had been attending the St. Phillips day school. When the day school closed and was to be replaced by the new boarding school these protestant children could not attend as protestants. Efforts were at once put forth by the priest in charge to get them to have their children baptized in the Roman Catholic faith and so be admitted to the school. The only other alternative was for their children to be sent away, to File Hills or elsewhere. To this they were strongly opposed, and you can see the lever this provided for the R.C.Church to get possession of these children.

3. I should say here that I foresaw these difficulties two years ago when I first heard of the probable building of this boarding school. At that time I wrote the Deputy Minister Mr. Scott pointing out that the number of Catholic families on the Kesekoose Reserve was so small that to build this school there would mean encroachment on our work and consequent friction and trouble for the officials of the Department. He promised that my representations would be considered but whether they were ot not I do not know.

n 4. When the question as to what should be done with these protestant children became acute in March and April I told the parents that until some satisfactory arrangement could be made we would take them into the Cote School from Monday till Friday. Father Bruet represented to the parents that this was merely a scheme to get them down to Cote School and then send them away to File Hills or elsewhere without the parents consent. Because of this supposed danger two families formerly protestant had their children baptized and in the case of one family two girls were admitted to the St. Phillips school. The mother of these girls is a member of our Church and the father is a nominal protestant. In the case of two other families we took their four children to Cote School and have been keeping them there from Monday till Friday. At the same time I

www.collectionscanada.gc.ca

took the matter up with Rev. Arthur Barner and Dr. Manning in Toronto. I was going to write you in regard to the matter but understood you were not at home. I thought it best therefore to act through the officials of the Church.

5. Not only on Kesekoose Reserve has the R.C. Church been trying to get protestant children into their school but their agents have been down on Cote Reserve trying to get those children who had a considerable distance to go to seek admission to St. Phillips.

6.. While there was Day Schools on both Cote and Kesekoose Reserves there was equality of opportunity. Since the building of the new boarding school on Kesekoose our work is placed at a decided disadvantage. What I have been asking for is that some action be taken by the Indian Department to place the educational work of both Churches on an equal footing. We do not ask for any favours but we do ask for equal facilities for doing our work.

7. The Indians on Cote Reserve have been asking that the Day School be turned into a boarding school. I have discouraged this as much as possible in the past but now it seems as if some such action should be taken. I would not ask it to be made into a full fledged boarding school but that the buildings be sufficiently enlarged to enable us to keep from Monday till Friday those Cote children who have too far to come to and from each day and those protestant children from Kesekoose who are still farther away. Another solution that has been talked of is to provide vans to convey the children to and from school. This plan has had difficulties where it has been tried elsewhere. If the children are boarded from Monday till Friday some system would have to be evolved of providing food supplies for them.

8. I know that the easiest solution of all would be to have these children go to File Hills or some other boarding school under our Church. I would be quite satisfied and pleased if the parents would agree to this but they are extremely unwilling to have their children sent away. To try to force this would be the means of driving them into the R.C. School.

I shall be in Regina next week attending Conference and shall try to see you and discuss this whole matter. The information in this letter will give you my view point pretty fully in the meantime.

In conclusion let me say that I do not want to raise any difficulties for the Indian Department, but I do want something done which will be fair to all concerned.

With very kind regards. I am,

Yours Respectfully,

Correspondence

Dear Mr. Scott:—

I beg to enclose herewith copy of a letter that I have received from the Rev. W. McWhinney, Missionary in charge of the Cote and Keeseekoonse reserves for the United Church of Canada.

The matter in question was first brought to your attention in a letter from this office, dated the 7th. instant, with which I enclosed copy of one received from our Indian Agent, Mr. E.A.W.R.McKenzie, who informed me that the Rev. Mr. McWhinney had brought four children of the Protestant faith from the Keeseekoonse reserve, and was keeping them as boarders at the Improved Day School on the Cote reserve from Monday until Friday. Mr. McKenzie's letter was forwarded to you with a view of ascertaining whether it was right that Mr. McWhinney should do this or not. I received a reply from you on the 12th. instant #117-2-1, stating that the Department could not approve of the children being brought to the school as boarders, and instructing me to inform the teachers accordingly. On receipt of this letter I took the matter up with Mr. McKenzie, and he, in due course, brought it to Mr. McWhinney's attention, and the letter now enclosed is the result of the Department's ruling. You will note what Mr. McWhinney says in the third paragraph of his letter.

It might be possible to make an addition to this school, and have a few of the children from the Keeseekoonse reserve, who live at a distance from the school, taken in, provided the Church authorities are willing to do this, and the Department are willing to pay the grant. It might be a solution of the difficulty that has now arisen. I would also point out that there are vacancies in the File Hills school for eight or ten pupils all the time, and the Pelly reserves have always been a feeder for this institution.

Yours very truly,

W. M. Graham,
Indian Commissioner.

Sir:-

I have your No. 117-2-1, of the 26th. ultimo, concerning the Cote Indian Day School, and reply to say that on the 30th. May I wrote to you on the same subject.

I am glad the Department has decided to allow them to take six or eight of the children into residence from Monday to Friday. I understand they have nearly all the facilities now on hand to enable them to carry on the work with these children in residence. We have equipped them with stoves and the necessary kitchen furnishings. There may, however, be some small items to be supplied. Rev. Mr. McWhinney is in the City at the present time, attending a Conference of the United Church. He called to see me and I made known to him the contents of your letter and he is quite satisfied with the decision.

Mr Duncan C. Scott,
Deputy Minister of Indian Affairs,

Dear Sir,-

Regarding the denominational difficulty that has arisen between the Cote Day School and the St Phillips boarding school on the Pelly Agency I wish to make the following two requests,-

Before doing so I wish to express my appreciation of your acceding to our first request that accommodation be given in the Cote school for the protestant children from Keseekoose Reserve.

When the emergency arose in April last and I felt we must provide for these children we took them into the school and in addition to the supplies provided by the Department for the mid day meal I had to purchase on my own responsibility certain other food supplies such as butter , rolled oats etc out of church funds which I had on hand and which properly belong to our Mission. I would respectfully ask that at the end of June when the school closes that I be allowed to submit a bill for what I have expended either to the Agent here or direct to you. The amount will be somewhere around ten dollars.

In the next place I would ask that the two daughters of Joe Keshane who were admitted to St Phillips school in April, be not received but sent home and allowed to come to the Cote school or to any other protestant boarding school which they may choose. Joe Keshane is a nominal protestant and his wife is a member of our Church. The two girls in question were both baptized by me when they were infants. They ,the parents, allowed rheir children to be baptized by the R. C. priest at St Phillips and taken into the school for fear that if they did not do this they would be sent away to some distant school. I had told them I would take them into Cote but this priest made them believe that this was merely a step to have them sent away elsewhere without their knowlege or consent.

I am sorry these cases of friction have arises with the St Phillips School but you may remember that in June two years ago I gave warning to the Department that these things would happen if the St Phillips boarding school were erected.

Hoping that these requests I have made may meet with your approval, I Am,

Yours Respectfully,

W. Greenhalgh

I have been directed to acknowledge receipt of your letter of the 8th instant, and with reference to the third paragraph thereof, I beg to say that the Department will favourably consider reimbursing you for the expense incurred in the purchase of food supplies for the midday meal of the pupils of the Cote Indian Day School. Please submit an itemized account, in duplicate, properly certified, to the local Indian Agent, with the request that he attach same to a proper voucher form and forward it to the Department, when payment will be made. It is noted that the amount of the account will be approximately $10.

You will be advised in a separate communication relative to the case of the two daughters of Joe Keshane, who are in attendance at the St. Phillip's Indian Residential School.

MEMO FOR FILE:

When I was at the Cote Indian Day School this summer, I discussed a programme whereby 6 or 8 children would be taken into residence from Monday to Friday. All they can accommodate is really 6. If it is found advisable to take in more, we might have to provide a dining room in a separate building and use the present dining room for dormitory space. It would be advisable to give them a fairly liberal allowance for the noonday lunch. I am taking action on this file to increase the salary of Mrs. Fraser, who has met with considerable success here for the last 4 years.

Mr. E?A.W.R. McKenzie,

Kamsack, Sask.

Dear Sir:-

With reference to increased accommodation for pupils resident in the Cote Improved Day School from Monday until Friday of each week, I would like to call your attention to the immediate need for some provision for dormitory space for the five or six boys now in residence. When Mr. Russell Ferrier, Supt. of Indian Education was here in July he saw the need for increased accommodation and suggested that the present dining room be used for a dormitory and that a one story building could be erected in the rear which would serve as a dining room for day and resident pupils. This I think was a good suggestion.

There is sufficient dormitory space available for the girls, but I think it would be wise to provide a simple fire escape from one or more of the upstair rooms for the safety both of the girls and the staff.

If this is approved, operations should be begun at once so that a surface foundation could be put down before the freeze up. The new building could be heated by a stove.

I would therefore ask you to bring this matter to the attention of the Indian Department as soon as possible so that if possible the building may be erected before winter,

I am,

Yours Respectfully,

I have your 310-11A Gen. of the 15th instant, enclosing a communication from the Rev. Mr. McWhinney, with reference to the Cote Indian Day School. When Mr. Ferrier visited the reserve this summer, he looked into the advisability of providing accommodation for a few boys from Monday to Friday. The present space is suitable for only six children, and I understand that girls are being kept in the school.

It is considered the most economical method of arranging for six boys would be to have them sleep in the present dining room and to erect a small building in which the meals could be served. If you consider this proposal favourably and believe it advisable to provide the building this fall, you might let me have a telegram with estimate of the cost.

Sir:-

I beg to acknowledge receipt of your No. 117-2-1, of the 19th. instant, in reply to mine of the 15th. October, with which I enclosed a copy of letter from the Rev. Mr. McWhinney with reference to the Cote Indian Day School and the providing of additional accommodation for children remaining at the school from Monday to Friday, and reply to say that, personally, I do not see the necessity for this. The Inspectors have been visiting this school regularly for the last 12 years, and this is the first time such a plan has been suggested by anybody. This school was built as an Improved Day School, with facilities to provide a midday meal for children coming from a distance, and it should be maintained as such. We have a similar school at Fisher River, even larger than this, and there is not a resident child in it, although the conditions are equally as difficult as at Pelly. We also have an Improved Day School at Fairford, where we have children living at considerable distances from the school and there are no children resident there. If we provide for the accommodation of 12 or 14 children in this school, as Mr. McWhinney suggests, there being six kept there now, we are getting into a Boarding School of a kind that is not advisable. You will recall that the Government, at considerable expense, built a splendid school at File Hills. This school was not built for the File Hills Indians only. We could not maintain a school with the children from this point alone. Pelly was to be one of the main recruiting points, and a large number of the pupils in the File Hills School today are from Pelly, but if we establish a sort of half industrial boarding school there we are going to cut off the feeding ground for this school and the

children will not begin to get the training they would at File Hills. It is not such a great distance from Pelly to the File Hills School, and, in my opinion, it would be a mistake to do anything that would interfere with recruiting from this point.

We have ample schools to provide educational facilities for the children of this reserve,- Brandon, File Hills, Portage la Prairie and Birtle, and in view of all this I am utterly opposed to spending more money for something that is unnecessary. However, if it is your desire that I should proceed with the work of providing this additional accommodation kindly advise me.

Kamsack, May 13th. 1929.

Mr Russell M-Cr-er,
Supt. of Indian Education,
Ottawa, Can.

Dear Mr Forster,-You will remember the conversation we had last July ,on the occasion of your visit to the Cote Day School in regard to improved accommodation for the pupils who are in residence from Monday until Friday. Last autumn I wrote a letter to the Agent asking that he urge upon the Department the need for something being done in this matter before winter. I understand the letter with an accompanying one from the Agent went to the Commissioner,s Office in Regina and I suppose was sent on to you. We know nothing has yet been done and as a result the matron has had to make sleeping accommodation in the dining room for three or four boys all during the winter. This room has therefore to serve for dining room , dormitory and wash room . Surely the Department does not wish such conditions continued any longer than is necessary.

Your suggestion of last summer that we erect a separate building to serve as a dining room and use the present dining room as a dormitory is I think the best solution of the difficulty. I would urge than a competent builder or architect be sent as soon as possible to decide where this additional building should be put up and how it should be connected to the main building.

As I pointed out to yourself personally and to the Deputy Minister by letter, the conditions which make this necessary are not of our making. Until the St Phillips School was opened it was an easy matter to send children who could not attend as day pupils to File Hills or some other boarding school . But now inducements are offered to get them into St Philips and we have to meet that competition with suitable accommodation right here.

Whenever the parents are willing we are quite s satisfied to have them go to one of our boarding schools. We do not want to build up a boarding system here any more than we can help,but for years to come there will always be a dozen or more children who will need to be accommodated at the Cote School from Monday until Friday.

Some provision in the way of fire escape should also be made for the upstair rooms in the present building. There should also be provided when the proposed addition is erected.

I sincerely hope these matters will receive prompt attention. From the Department,since by this time you will l also have received Mr Inspector Hamilton,s report on the same matter.

Reverend Sir:

With further reference to your letter of the 13th instant, I have now to inform you that the matter has been drawn to the attention of Mr. Ferrier, and I regret to state that the Department cannot authorize additional accommodation for children at the Cote Indian Day School. When Mr. Ferrier returned from the West last year, I wrote to Commissioner Graham for a report. Mr. Graham pointed out that there was plenty of room in our residential schools for these children and that it would be folly to operate a semi-boarding school on the Cote Reserve, while such schools as File Hills and Brandon were not filled to the limit of their accommodation. As the Department concurred in this opinion, our Estimates did not provide any funds for building an addition to the Cote Indian Day School.

I am pleased to inform you, however, that there has been some correspondence concerning electric lighting of the Cote School and the Indian Agency, and I am hopeful that this improvement will be effected in the near future.

DEPT. OF INDIAN AFFAIRE
JUN 14 1929
RECORDS

Kamsack, June IIth 1929.

Mr Russell Ferrier
Supt. of Ind[illegible]
O[illegible]

Dear Sir,-

Replying to the letter No. II7-2-I dated June 5th from the Secretary , Mr McLean wish to express my surprise at the view taken by the Department in regard to the matter of increased accommodation at the Cote Improved Day School. It seemed to me when you were here last July that you were fully impressed with the need of the better accommodation for which we have been asking and in the letter referred to above no sufficient reason is given for the refusal of our request. We have no desire to establish a boarding school on the reserve but we feel that accommodation should be provided for those children who are too far away to attend as day pupils. I am quite pleased to have these children go to Brandon or File Hills but when the parents refuse to send them two alternatives remain, either to remain at home and be deprived of education or be coerced into going to St Phillips boarding School. At the present time there are several children eight or nine years old who are not attending any school because they are two far away to attend as day pupils.

As I pointed out in my previous letter the present conditions here are not of our making. They are due to the Department refusing our request in 1918 for suitable buildings for our Day School and then allowing the St Philips School to be built a few miles away when there was only a very small number of children in the immediate neighborhood to be accommodated. We might well ask, why it is fit and proper to have a full fledged boarding school on the Keeseekoose Reserve but unwise to give boarding accommodation for even a few children on the Cote Reserve. To me this does not look like treating alike the two Churches involved.

In conclusion let me say that I have every confidence in the ability of the Departmental officials to be just in the matter that I believe if they take time to look at this question fairly & reasonably they would promptly grant our request.

I shall hope to hear from you more favourably in regard to this matter in the near future.

WHEREAS there are a number of Protestant Indian children of school age on the Cote and Kesekoose Reserves who are residing too far away from the Cote Day School to attend as day pupils, and

WHEREAS such pupils since the closing of our Crowstand Boarding School in 1915 have been sent to File Hills and other boarding schools, [redacted]

WHEREAS the Indian Department, disregarding the protest of our missionary, Rev. W. McWhinney, has very recently erected a well equipped Roman Catholic boarding school at St. Phillips, five miles from our Cote School, and

WHEREAS the officials of this St. Philips Boarding School have been endeavoring to get these aforesaid Indian children into their school, [redacted]

WHEREAS these Indian parents are much opposed to their children going far away to school, these conditions are placing before the Indian parents the choice of having their children remain uneducated, sending them to a distant school, or placing them in a school not of their own faith, and

WHEREAS by the Department of Indian Affairs spending a very moderate sum of money the Cote Day School can so increase its accommodation as to enable these pupils to be lodged and boarded from Monday till Friday, which system has been tried out during the past year and has been found to work out satisfactorily,

THEREFORE, we the undersigned members of Kamsack Presbytery would strongly urge the Officials of our Home Mission Board to bring such pressure to bear upon the Department of Indian Affairs at Ottawa as will have them take such action before another winter as will prevent this undue discrimination against our educational and missionary work on these reserves.

JUL 30

Dear Dr. Scott:-

The enclosed petition from the Presbytery of Kamsack, urging the Department of Indian Affairs to increase the boarding accommodation at the Cote Indian Day School, has just reached the office.

You will remember that some years ago, when it was found that the buildings of the former Crowstand Boarding School were unfit for carrying on the work, it was agreed to close this institution and to build instead a semi-boarding school on the Cote Reserve. This was to consist of a large school room, with boarding accommodation attached, or in close proximity, which would care for those children who were too far away to attend as day pupils. The boarding accommodation was expected to house from twelve to fifteen children and three or four of a staff. The plans for this building were drawn, but before the building operations began, the Department changed its plan and built only an improved day school.

Since that time, those pupils who could not attend as day pupils have been sent to boarding schools of the Church elsewhere. This worked well until, as indicated in the petition, the Department under protest of the Church built a Boarding School for the Roman Catholic Church only five miles away. A year ago several children were housed in the day school and boarded from Monday until Friday of each week. This was agreed to by the Department, and supplies of food were furnished from the same source.

As you will see from the petition, the Presbytery is now strongly urging that additional accommodation be provided for these pupils too far removed from the school to go home each day. I will be very much pleased if you will give this your attention as soon as convenient.

With all kind regards,
I am,
Yours most faithfully,

Dear Dr. Young,-

I have your letter of the 27th instant concerning additional accommodation for boarding children at the Cote Indian Day School. The Department doubts the advisability of establishing small residential schools and, of course, cannot consider the application favourably while such schools as File Hills and Brandon have not been filled to the limit of their accommodation. The Rev. Mr. McWhinney of Kamsack has corresponded with the Department in this connection and he has been informed that the Department cannot give favourable consideration.

like to ask you is what is the Department prepared to do to place the Cote School on an equality of opportunity with the St. Philips School. As I have pointed out in previous letters and as you will remember , the Crowstand Boarding School was closed in 1915 on the distinct understanding that the Department would build a semi-boarding school on the Cote Reserve. This was not done and although it put us to some inconvenience, we made no complaint because we were on equal footing with the St. Philips Day School. Now by the building of the residential school our Indians who are too far away to send their children to the day school and who do not want to send them so far away as File Hills are sorely tempted as in the case of the grandparents of this Charlotte Cote to put them into St. Philips.

Therefore, I think, I am claiming only what is fair when I ask that some action be taken by the Department to remove this unfair advantage that has been given to the St. Philips people.

I have your letter of the 9th instant and I note your request for a semi-boarding school on the Cote reserve. When the Department is determining any extension in its programme, we are very glad to have the recommendation of whatever churches are interested. I believe your request should first receive the approval of the Missionary Society of the United Church. Perhaps you will write to them in the matter.

And now may I present a personal request?

May I, please, have some more salary? The school is heavy and I work hard. Since the children have been in residence I have preparation of lessons every night the resident children are here.

When my predecessor left she was getting $100 a month. I have a house, which I could rent for $10 a month. In fact I had a rental of $30.00 a month.

If you could do this, I certainly would be grateful.

Sir,-

In a report regarding his visit to the Cote Improved Indian Day School on the 10th instant, Inspector Sparkes writes, as follows:-

> "I fail to see why handwork cannot be taught systematically in this school. For instance, dressmaking, cooking and simple home nursing should be taught the girls while kindred subjects could be taught the boys. Make the lessons of practical value to the children."

The Department is under the impression that Mrs. R. F. Roy carried out some instruction along the lines suggested by the Inspector. If so, it was not brought to his attention but, if she does not do so, please let me have a report, stating if you consider that her other duties are so onerous as to prevent her devoting some time to teaching the subjects suggested by the Inspector to the pupils of the Cote School.

Sir,-

Replying to your letter No.117-2-1 of the 29th. ulto. regarding a report from Inspector Sparkes as to why hadwork cannot be taught systematically in this school, I beg to advise that Mrs.Roy devotes what time is possible in teaching girls sewing and cooking but her household duties are so numerous that very little time can be given to this phase of the work. Mrs.Roy is alone in the residential portion of the school and has to prepare meals for 8 to 10 people night and morning with and additional 20 to 24 for the noon day meal this in addition to bread baking and attending to the resident pupils does not give her very much spare time. If some permanent assistance could be given her either in cash so that she could hire someone to attend to the household duties or an assitant more time could be given to this phase of the work by her.

The report on the Key Indian Day school is satisfactory, as is also the one on the Cote improved Day school. The attendance at the latter school is not as great as I think it should be - there are only 27 children on the roll, and 21 were present on the day of Mr. Hamilton's inspection. The mid-day meal served at this school is quite substantial.

Grade	I	-	8

These children are gradually improving, and speak out much better. They write and spell well and are fair in arithmetic.

The children were well clothed, and clean.

A noon meal is served, consisting of soup, biscuits, bread and tea or milk.

At present 3 boys remain in residence from Monday until Friday night as they live several miles from the school.

Sewing and knitting is also taught, and some gardening done.

The building is in good repair, and is well looked after.

No provision is made for escape in case of fire from upstairs. One narrow hall leads to the stairways, and the chimney runs up along this wall. Sir:

The Department has received the report of Mr. Inspector Hamilton on his recent inspection of the Cote Improved Indian Day School. He states that no provision is made for escape from the upstairs part of the building in case of fire. One narrow hall leads to the stairways, and the chimney runs up along this wall. He also states that if children are to be kept in residence, as has been done during the past year, some arrangement should be made to provide a fire escape.

I shall be pleased to be advised as to what you would recommend in the way of providing a suitable and inexpensive means of exit in case of fire. It is thought that a ladder or rope attached to the sill of an upper window would meet the need. Please give an estimate of the cost of any equipment recommended by you for this purpose. Your early attention to this matter will oblige,

Sir,-

I beg to acknowledge receipt of your letter No.117-2-1 of the 3rd. inst. relative to a suitable and inexpensive means of exit in case of fire at The Cote Improved Day School, and to advise that a rope at each window would be the most economical and would be a suitable escape for this building as each of the five upstairs windows open to the roof of porches below. The rope would have to extend from the inside of the building,just below or beside the window, across the porch roof and from thence to the ground, varying accordingly in length for each window, 15 to 18 ft. for each window.

The rope with five suitable hooks to fasten it to, would cost in the neighborhood of $7.50

This would have to be a special order as rope of this kind is not stocked in the stores but can be ordered when I have your instructions.

The ropes should be attached to strong hooks fastened below the sill of the windows, and, when not in use, could be coiled inside, below the window. It is noted that you estimate the cost of the rope, with suitable hooks, to be approximately $7.50. Ottawa, September 8, 1932.

Sir:

I have your letter of the 30th ultimo, requesting authority to purchase food supplies for the noonday meal and for resident pupils at the Cote Improved Indian Day School.

As our funds are extremely limited this year, it is necessary to enquire carefully into the cost of supplies for noonday meals. I have, therefore, to request that you will state the number of children who are resident in the school from Monday morning to Friday night. You should also state the distance from their homes to the school and if it would not be possible for them to reside at home and attend the school each day as day pupils. If it is not possible for them to travel to and from the school each day, you might state if arrangements could not be made to have them sent to either the Brandon or File Hills Indian Residential Schools. It is found that during the last school year the sum of approximately $200 was expended in the purchase of supplies for meals. We will be unable to provide this amount for the present school year. Please state the minimum amount per month which you consider would be required in the purchase of supplies for the noonday meal for the day pupils; also for the resident pupils, if it is necessary that the present arrangements for these latter pupils be continued. I shall be pleased to have, at an early date, as complete a report from you as possible regarding the continuing of the present arrangements and also as to the above suggestion that the pupils who are too far away to attend school each day be placed in a residential school.

In the meantime, you may arrange for the purchase of the quantity of food supplies considered absolutely necessary for the present month.

Dear Sir,-

By this mail you will received the resignation of Mrs D. E. Fraser who has been teacher of the Cote Improved Day School for the past ten years. Along with her resignation Mrs Fraser has stated that she wishes to return to Nova Scotia where her husband is living and is considerable of an invalid. I understand she is requesting the Department to secure her a pass from the C. N. R. from Kamsack to her home in Truro. Now I do not know whether the Indian Department ever grants such passes to Indian workers but if it can be done I would very respectfully urge that Mrs Fraser be accorded this consideration as she has been a most faithful and efficient teacher and has put in eleven years of very strenuous work in the Cote School, in every way doing all she could for both Indian parents and children.

Under authority of an Order of His Excellency in Council, dated July 31, 1933, with amendments, it is provided that all employees reaching 65 years of age should be retired.

In this connection I would draw your attention to the case of Mrs. D. R. Fraser, teacher of the Cote Improved Indian Day School, who is 66 years of age. It will therefore be necessary to either retire Mrs. Fraser as from the end of the present school year - June 30th, next - or, if it can be shown that her services are such that it would be difficult to replace her, an Order in Council could be obtained, retaining her in the position for a further period of one year.

I am therefore submitting the matter of Mrs. Fraser's retirement for your consideration and would request that you advise the Department as soon as possible whether she should be asked to retire or if it is your opinion that she should be retained for one more year, when an Order in Council, authorizing her retention in the position, will be obtained. However, it will be necessary to state definitely in the application for the Order in Council that the services of Mrs. Fraser are of such a nature that, in the best interests of the work at the school, it would be difficult to fill the position.

Dear Sir: Re: Indian Day School, Cote, Sask.

The Woman's Missionary Society of the United Church desires to nominate as teacher for the Cote Indian Day School Miss Eva Crockett. She has a first-class Saskatchewan certificate and has taught for over nine years in the Residential Schools at Round Lake, File Hills and Portage la Prairie.

This appointment, as you know, is made necessary by the retirement of Mrs. Fraser, who had reached the age of sixty-five.

Hoping this nomination will meet with your approval,

I am

Dear Sir:

I beg to inform you that Miss E.F.Crockett, teacher at the Cote Day School, went to Winnipeg last Saturday evening for the purpose of being examined by a doctor as she had not been in good health for some time. She left without my knowledge and the first information I had was the receipt of a telegram, addressed to Mrs. Roy, the Matron, and received Sunday evening, to the effect that she was confined in hospital and suggesting that another teacher be procured to relieve for a week or more while Miss Crockett was in hospital.

As I had very little information to furnish the Department as to the probable duration of her illness, and my recommendation as to the proposed steps to be taken with regard to continuing with the school work in her absence, I wrote Inspector Hamilton at Winnipeg, requesting him to make enquiries at the hospital and from her doctor in order that he could furnish me with sufficient information that I could make an intelligent report to the Department. I have not yet received a letter from Mr. Hamilton, but since my letter was mailed to him I have received another telegram from Miss Crockett, through Mrs. Roy, to the effect that she intends to give up the school as her doctor has advised her against teaching on account of her health.

Of course the school is closed until another teacher is appointed and I would ask that steps be taken to have the position filled as soon as possible. I think that it would be possible to procure the services of a teacher locally if necessary, but I presume the appointment will be in the hands of the church authorities to some extent, at least they seem to think it should be.

Reverend Sir:

On the 8th instant, the Department telegraphed you as follows:-

"Department informed Miss Crockett, teacher, Cote Indian School, has been obliged give up duty account of illness and school closed. Please nominate qualified successor soon as possible."

The local Indian Agent at Kamsack informed the Department that he received a telegram from Miss Crockett, through Mrs. Roy, the matron, to the effect that she intended to give up the school, as her doctor had advised her against teaching on account of ill health. Miss Crockett went to Winnipeg on the evening of the 2nd instant, for the purpose of being examined by a doctor, as she had not been in good health for some time. She left without the knowledge of the Agent, and the first intimation he had was the receipt of the telegram. She stated she was confined to hospital.

If Mrs. Roy is unable to carry on teaching activities, the classroom will have to remain closed until the services of a teacher are obtained.

I would request that you take up this matter with the Women's Missionary Society of the United Church, with a view to their early nomination of a teacher. I may add that the Department regrets the illness of Miss Crockett.

Sir:

I have your letter of the 4th instant, advising the Department that Miss E. F. Crockett, teacher of the Cote Indian Day School, informed you, through Mrs. Roy, the matron, that, on account of ill health, she intends to give up duties as teacher, upon the advice of her doctor.

Upon receipt of your letter, the Department telegraphed the authorities of the United Church of Canada, advised them accordingly and requested that they nominate the services of a qualified teacher to succeed Miss Crockett, as soon as possible.

The Department regrets the illness of Miss Crockett. I shall be pleased if you will obtain her written resignation and forward same to the Department. As soon as information is received from the church authorities regarding the name and qualifications of the teacher nominated by them, you will be advised. In the meantime, unless Mrs. Roy is able to carry on the work at this school, the classroom will have to remain closed.

Kamsack, Sask.,
27th November,

Dear Sir:

Referring to your letter of the 16th instant, No. 117-2-1, I beg to say that Miss Ruby Jamieson commenced her duties as teacher at the Cote Indian Day School on the 25th instant, and I am enclosing Staff Questionnaire which she has completed as requested.

Mrs. Roy informs me that she has a letter from Miss Crockett informing her that she has submitted her resignation direct to the Department.

Your obedient servant,

J.P.B.Ostrander,
Indian Agent.

Dear Sir:-

I find it necessary to report that the work of Miss R. M. Jamieson, teacher of the Cote Indian Day School, is not very satisfactory, and while I am not in favour of making the change immediately, the matter would be kept in mind and the change made at the beginning of the next school term.

She is sadly lacking in discipline. There has been considerable truancy and she does not seem to be able to control them in the classroom. I find that it is impossible to get any of the children, those who have been attending for several years and those who have recently started, to speak above a whisper in the classroom.

In addition to this, she has a great deal of spare time which could be spent in social service work and things of this nature. This she will nto do. You will remember our conversation Tuesday night about the affairs at this school and the movement which I mentioned with regard to transferring Mrs. Roy and appointing a man as a missionary with his wife for teacher. As I informed you, I do not think this is what is required at all, but what is required is the right kind of a classroom teacher who will co-operate with Mrs. Roy, both in and about the school itself and on the reserve in social service work.

There is no need for any expense to the Department outside of the salary which is now being paid, but there is need for the teacher's salary being paid to the right kind of a person.

I have previously hesitated about reporting adversely in connection with Miss Jamieson, chiefly because two or my own children are attending this school and it might be thought that this is my chief interest. My own children are making fair progress, but they receive no discipline whatever in school and it is necessary for us to attend to that part of it ourselves. The Indian children, however, receive no discipline whatever at home, and it is therefore very necessary that they receive some at the school.

Yours very truly,

Sgd. J.P.B. Ostrander.

Dear Mr. Hoey:-

I beg to submit the attached letter received from Mr. Ostrander, Agent at Pelly.

Mrs. Roy is Matron at the Cote Improved Day School and also Missionary on the Reserve. Owing to the fact that the Minister at Kamsack objects or refuses to conduct funeral services on the Reserve, Mrs. Roy has been doing this work. The Indians object to this. The Church is therefore considering transferring Mrs. Roy and replacing her with a male missionary-teacher.

I understand Mrs. Roy objects to a transfer and is considering leaving the Service. She is an exceptionally good teacher and works among the Indians. We would be very sorry to lose Mrs. Roy and, if any influence can be used to retain her, we believe it should be done.

I would recommend that Miss Jamieson's services be terminated at the end of this school year and that a teacher qualified for and willing to do social service work be engaged.

Ottawa, April 1st, 1937.

Dear Dr. Dorey:

I am in receipt of a letter from Dr. Thomas Robertson, Inspector of Indian Agencies for Saskatchewan.

Dr. Robertson expresses the opinion that you have under consideration at the present time the desirability of changing the teachers at the Cote Improved Indian Day School. It would appear that there is a great deal of dissatisfaction with the work of Miss Jamieson, and I am of the opinion that her service should be terminated at the end of the present school year. Mrs. Roy is also employed at this school, as matron, at an annual salary of $750. In view of the fact that there is an enrolment of only 25 pupils and an average attendance of less than 20, the salaries paid - $950 to Miss Jamieson and $750 to Mrs. Roy - seem to be a little bit out of line with the salaries ordinarily paid for the operation of a small day school.

Dr. Robertson intimates that Mrs. Roy has been rendering good service and is very popular with the Indians. It is altogether likely that a petition will reach you, asking that her services be retained. I have been wondering if it would be possible for you to obtain the services of a married male teacher, whose wife could act as matron. If this suggestion does not appeal to you, I should like you to give some thought to the desirability of securing a capable girl to take Miss Jamieson's place. If you could obtain the services of a teacher interested in social service work, who could cooperate with Mrs. Roy, the results, I feel confident, would be very satisfactory.

I am simply passing on these suggestions to you for your consideration.

Yours very sincerely,

R. A. Hoey,

Dear Mr. Hoey:

I am in receipt of your letter of April 1st relative to the situation in the Cote Improved Day School. I have taken the matter up with Mrs. Loveys of the Woman's Missionary Society, and think that a more or less radical change will take place.

I had in mind suggesting the appointment of Mr. George Harris, who is at present at Norway House as Farm Instructor, to be the Teacher, and Mrs. Harris to be the Matron. I had further in mind that, if Mr. Harris proved successful in this position, he might conceivably be the kind of man who would make a good principal of a larger school. I realize, of course, that it might be better to have a woman teacher, but if Mr. Harris were appointed he could conduct services on the Reserve. Whilst he is not an Ordained man, I think that, with the help of the Minister at Kamsack, the work would be better taken care of.

I wonder whether you would care to give me your opinion about this. I would hesitate very much to make any recommendation which would not be of assistance to you in working out the policy which you have mapped out.

With best regards, I am

Dear Dr. Dorey:

Please pardon me for not replying to your letter of the 13th instant until now. I was anxious to discuss the subject matter of your communication with Dr. Robertson, Inspector of Indian Agencies for Saskatchewan, who is at present attending a conference at Ottawa - hence the delay.

Dr. Robertson and I feel that you would be particularly fortunate if you are able to secure the services of Mr. Harris for the Cote Improved Day School. I feel confident he would accept the position as a challenge and make a real contribution to the welfare of the Indian population. May I suggest that he be engaged on the understanding that he will remain at the school at least two or three years. I would not like to see him removed until the work in that district is thoroughly organized. You might let us have a specific recommendation at your convenience.

Dear Mr. Hoey:

We are now in a position to nominate for the appointments on the Cote Indian Reserve Mr. and Mrs. L. L. Dobbin of Wapella, Sask., Mr. Dobbin as Teacher and Mrs. Dobbin as Matron.

Mr. Dobbin holds a second-class professional certificate, and has taken First Year Arts. He has been engaged in the teaching profession for twenty years, and has had a great deal of experience with New Canadians.

Mr. and Mrs. Dobbin are a cultured Christian couple who have rendered unstinted service to our Church, Mr. Dobbin taking a very active part in Sunday School work.

We will be glad to have your approval of this nomination.

Very sincerely yours,

Dear Sir,-

On the nomination of the Board of Home Missions of the United Church of Canada, the Department is approving the appointment of Mr. and Mrs. L. L. Dobbin as teacher and assistant teacher, respectively, of the Cote Indian Day School. Mr. Dobbin will be allowed salary at the rate of $950 a year and Mrs. Dobbin at the rate of $500 a year. These salaries will commence from September 1st, 1937.

In nominating these teachers, the Secretary of the Board of Home Missions writes:-

Ottawa, August 3, 1937.

Reverend Sir,-

I have your letter of the 30th ultimo, nominating Mr. and Mrs. L. L. Dobbin as teacher and assistant teacher, respectively, of the Cote Indian Day School. Their appointment is approved.

As intimated in my letter of April 1st, it is felt that the salaries allowed at this school have not been in line with the salaries ordinarly paid for the operation of a small day school. It has, therefore, been decided that Mr. Dobbin will be allowed salary at the rate of $950 a year and Mrs. Dobbin at the rate of $500 a year. The salary of each of them will commence from September 1, 1937, and will be paid on the basis of ten teaching months in the academic year.

Dr. Thos. Robertson, Inspector of Indian Agencies, and Mr. J.P.B. Ostrander, Indian Agent, are being notified of their appointment and requested to give them every possible assistance.

Yours truly.

Dear Sir:-

Re Cote Day School:

You will recall discussing with Mr. Dobbin and the writer the matter of Whitehawk and Friday children insisting on the Dobbins keeping them at night and for all meals as well as the noon day lunch.

I discussed this matter with John Friday some time ago and pointed out that it was your wish that this practice be discontinued. John Friday objected very strongly and blamed Dobbins entirely.

Roy Whitehawk applied to have his girl sent to Boarding School but I did not forward the application. School started today and Joyce Whitehawk is attending Cote School, but none of the Fridays turned up. John also mentioned that he would prefer sending his children to Boarding School rather than have them drive to and from school in the winter, but has made no move to have them sent to boarding school.

Dobbins are very anxious to have the Friday and Whitehawk children attend Cote Day School, but they are also very anxious to get away from making it more or less a free boarding school.

It appears that at this time last year Mr. Kerley said it was Mr. Robertson's wish that no children be kept by Mr. Dobbins at night and Dr. Robertson came along shortly after and said the matter had not been discussed with him. These people appear to be still convinced that Dobbins are the only people that object. Under the circumstances would you be kind enough to write a letter to me stating that the Department strongly objects to the Cote School being used as other than a day school, as I would very much like to clear Dobbins from blame.

It is certainly very unfair for the Indians to expect Dobbins to provide bed and board free of charge.

Dear Sir:

Your letter of September 2, addressed to Mr. Christianson, General Superintendent of Indian Agencies, has been brought to my attention.

For some years past the Department was aware that it was the practice to keep some children over night at the Cote School and while we never approved of the practice no specific instructions were issued to discontinue it.

The Department feels that the time has now arrived when definite action should be taken and consequently you should notify the teacher that no children are to be kept at the school over night.

Re: Operation of Cote Improved Indian Day School.

Immediately following our discussion of a few days ago, I made a careful review of the letters and reports on file in respect to the operation of the Cote Indian Day School.

I should explain that the Cote School was established by Mr. Graham, as an experiment, a few years prior to his retirement. Mr. Graham was of the opinion at that time that it might be possible to operate a school in which provision would be made for the board and lodging of the pupils from Monday until Friday, asking the parents to become responsible for the clothing of the children and for their care during the week-ends.

At the time the present teacher and his wife were appointed, a number of children were boarded at the school from Monday until Friday of each week and the teacher's wife was allowed a salary of $50.00 a month for a 9 month period, on the understanding that she would be responsible for the preparation of the meals for these children and their general care. Two female teachers had been in charge of this school for several years prior to the appointment of the present teacher. The arrangement whereby pupils were provided with board and lodging at the school from Monday until Friday was never wholly satisfactory and was recently abandoned. The keeping of children at the school while others were permitted to go home at the close of the regular school period from day to day created a certain amount of dissatisfaction. It is

significant that so far as I am aware no country has ever been able to organize what one might term an intermediate school, half-way between the residential school and the ordinary day school.

You will note that the reports on the teacher now in charge of the Cote Indian Day School are excellent in every respect. It is my understanding that this teacher taught for the full 10 months period last year, although under no obligation to do so. I have just learned that Mr. and Mrs. Dobbin may be offered the principalship of either the Round Lake or the File Hills Residential School. If such is the case it will only be necessary in the future to employ one teacher at the Cote School. The reports on file indicate that this teacher and his wife enjoy a very high reputation in the United Church. They have spent their lives in non-English speaking communities and Mrs. Dobbin particularly has been very successful in the organization and conduct of Sunday Schools amongst central European peoples.

I got the impression from my conversation with Mr. Bryant that he is not very favourably impressed with the work of this teacher. Mr. Bryant finds it difficult to understand why his wife should be paid $50.00 a month as matron. This payment can be easily understood if we keep in mind the organization of the school and the purpose for which it was originally established. I personally attach a great deal of importance to Inspector Waind's report. Mr. Waind's reports are usually very critical and Mr. Dobbin appears to be one of the few teachers whose work appears satisfactory from year to year to the Inspector.

Reverend Sir:

I desire to refer to your letter of the 2nd instant and my reply of the 11th instant, in connection with transferring Mr. L.L. Dobbin from Cote to the Pile Hills Residential School.

Is it the intention of the Women's Missionary Society to transfer Mr. Dobbin immediately? If so, do they intend to nominate anyone to carry on at the Cote School for the balance of the current academic year?

While we have always allowed salaries for two teachers at Cote, the attendance at that school has decreased in recent years. The March quarter return shows an enrolment of 30 and an average attendance of only 17. The Indian Agent visited the Department last winter and at that time the opinion was expressed that the Department was not justified in paying salaries of two teachers at this school. Consequently, I feel that you should suggest to the Women's Missionary Society that only one teacher should be nominated for the Cote School for the academic year 1942-43.

Dear Mr. Hoey :-

Dr. Cochrane requested that I should reply to your letter of May 15th -

We, as a Woman's Missionary Society, are asking Mr. L.L. Dobbin to take up his duties at the File Hills School as soon as he can be released from Cote. We are looking for a teacher to undertake work in this School for the remainder of the year. We hope he may be able to arrive at File Hills by June first.

In the third paragraph of your letter you say that you have allowed salaries for two teachers at Cote. - May I call your attention to the fact that $600.00 is the salary of one teacher at Cote and $500.00 the salary of the Matron for the Reserve, -making a total Government Grant of $1,300.00.

Mrs. Dobbin, who has been acting as Matron, has been giving much time to the Homemakers' Club, which the Department requested should be organized. She has also been a very faithful visitor in the homes on the Reserve and we do feel that this work is sufficiently important that it should be continued. We are well aware, however, that there would not be sufficient work for two teachers and during the past five years there has been only one.

117-8-1

Ottawa,
May 20, 1942.

Dear Mrs. Loveys:

I have your letter of the 19th instant, with reference to the Cote Day School.

I was aware that Mrs. Dobbin has been performing field matron duties, but she has always been classified as a teacher. The reason for this was due to the fact that other field matrons are only allowed a nominal salary and no provision is made for a field matron to draw the salary that we have been paying Mrs. Dobbin. Consequently, it was necessary to classify her as a teacher.

Am I to understand from your letter that Mrs. Dobbin will not accompany Mr. Dobbin to the Pile Hills School? I was hoping that it was your intention to include her as a member of the staff of that school, especially in view of the apparent lack of discipline at Pile Hills for some months past.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

The United Church of Canada has recommended the transfer of Mr. L.L. Dobbin, teacher of the Cote Day School, to the Principalship of the File Hills Indian Residential School. The question then arose regarding a successor and I recall that when you visited the Department you were very pronounced in your opinion to the effect that two persons were not required at this school. On making this suggestion to the Board of Home Missions of the United Church of Canada they appear to disagree and feel that both the teacher and field matron are required. As you know, we have always classified Mrs. Dobbin as a teacher, due to the fact that we have no provision made for a field matron, as such.

Under the circumstances, I should appreciate having a letter from you immediately setting forth definitely your views regarding the future of the Cote School. Your letter, of course, should include a definite recommendation regarding your views about continuing the employment of one or two persons.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

It is not my intention to break up any happy home and I am sorry that I neglected to mention Mrs. Dobbin's name when I told you of Mr. Dobbin's appointment to File Hills. Already they are making plans and hope to take up their work on June first.

I wonder if you would advise me what you consider a nominal salary for a field Matron, since our understanding was that Mrs. Dobbin was classed in this category, and your grant would be continued on this basis.

Attention Mr. R. A. Hoey

My dear Mr.Hoey:-

The Woman's Missionary Society inform me that Mr. L. L. Dobbin will be prepared to leave the Cote Reserve and undertake his duties at File Hills on June 1, 1942. They ask me to nominate to finish the term at Cote Mrs. J. Bennett who is recommended by the Superintendent of Schools. She is an experienced Primary Teacher.

I am also asked to nominate as Matron of the School Miss Maud Rogers. She is willing to undertake the work on June 1, 1942.

In your letter of May 15th you suggest that there had been two teachers formerly and that the idea of the Department was they were not not justified in paying the salary for more than one teacher. As my information is that there have been only two women at Cote in recent years, one a Matron and the other a teacher, I have been wondering whether your reference to the second teacher was to the one whom the Woman's Missionary Society call the "Matron". I would be glad if you would put me right on this matter when you let me know whether you accept these nominations for the Woman's Missionary Society.

Believe me,

Very sincerely yours,

Dear Doctor Cochrane:

I have your letter of the 22nd instant, nominating Mrs. J. Bennett as teacher and Miss Maud Rogers as matron of the Cote School.

The appointment of Mrs. Bennett is approved and she will be allowed salary at the rate of $95.00 a teaching month plus bonus. I note that she will begin duties on June 1.

I regret that at the present time I am unable to approve the appointment of Miss Maud Rogers as matron. As I stated in the last paragraph of my letter of the 15th instant, the Indian Agent visited the Department last winter and at that time the opinion was expressed that the services of a matron were not required. Recently I wrote to him again with a view to ascertaining if he has changed his opinion. There has not yet been time for him to reply and until he does so I cannot see my way clear to approve the appointment of a matron.

Dear Sir:-

I wish to acknowledge receipt of your letter of May 20th, File 117-2-1 in connection with the transfer of Mr. I. I. Dobbin to pricipalship of File Hills Teridential School and appointment of a successor for Cote Improved Indian Day School.

I recall discussing Cote Day School when visiting your Department during the winter and am of the opinion that as far as the actual school teaching at Cote Day School is concerned, one teacher is all that is required. I believe I pointed out that Mr. Buck at Key Day School taught almost as many pupils as attended Cote Day School, and that Mrs. Buck also prepared a noon day lunch for all the children with an allowance for supplies amounting to half that supplied to Cote Day School, and she received no payment whatever for this work, while at Cote Mr. and Mrs. Dobbin both received salaries. In discussing the matter I maintained that Mrs. Buck should also be entitled to some monthly compensation.

A field matron working with the teacher, really interested in the spiritual and bodily welfare of the Indians who would spend a good part of the time out on the reserve, visiting the homes and encouraging and helping the mothers to better living conditions, improving sanitation, giving simple first aid instruction in the case of the sick babies, etc, could, I think do a great deal of good on this Cote Reserve, There are a few homes that are farther than three miles from school, and an active matron should be able to visit every home frequently on foot, without any great hardship.

It has been said here that the Catholics are converting the United Church members to their faith, with possibly some truth, but more real active missionary work on the part of those in charge of the work here would overcome this to a great extent. I would suggest the organization of a good Sunday School Service every Sunday instead of the regular Sunday Service which is attended by ~~the~~ a faithful few each Sunday. The Sunday School Service could in time include an adult Bible class, which I think would be attended by many adult Indians, with one or two that would be glad to teach a class. We possibly cannot do a great deal with many of the old Indians, but with the school children and younger people, there are great possibilities of helping them morally.....

them morally and spiritually.

In conclusion I would say that it would be possible to carry on here with one teacher for the duration of the war providing some provision is made for the preparation of the noon day meal. It would, I expect, be necessary for the teacher to keep a maid for help and company.

Regarding the missionary work about on the reserve, I have already stated my views. By the way, I understand from Mr. Dobbin that the new missionary is on the way here from Toronto, and is expected to arrive to-morrow or the next day.

Miss Corner the new teacher at Cote day school requests permission to open the school on September the first in order to take advantage of fine summer days, and then not open school until February 1st after the Xmas holidays. January is generally a very cold month, and as many of the children have three miles or more to drive or walk to school, I think you will agree that it would be a very sensible arrangement to teach the month of September instead of January.

I wish to acknowledge the receipt of your letter of 31st ult. under file # 117-2-1 with regard to Cote Day School teachers.

At the time Mr. Dobbin was appointed to assume the duties of the principal of Pile Hills School Mrs. Bennet was selected by him and which selection was concurred in by the Women's Missionary Society of Toronto, to substitute for him to the end of the school term, June 30th. Mrs. Bennett was not engaged to assume the duties of the teacher for Cote beyond that date, but the Women's Missionary Society made the recommendation, I assume, to the Department to engage (Miss) Rev. Cote Improved Indian Day School

I wish to inform you that while visiting the Pelly Indian Agency I inspected the above mentioned school and found that two ladies had taken charge but I suppose this is none of my business because I was never notified that this change had taken place.

The teacher is a lady who has been ordained as a Minister in the United Church. Her name is Miss Corner and she hasn't taught for years but I suppose this makes no difference. The other lady, a Miss Russell, is a housekeeper.

The attendance at this school so far has been very slow.

Re Cote Day School, Cote Reserve:

The Rev. Miss Corner has been in charge of Cote Day School since July last, assisted by Miss. M. Rogers as Matron. The latter has had many years in various mission fields and proved to be capable and understanding and she was very well liked by everybody. Unfortunately her health has not been good. She had a heart condition which made it necessary for her to take periods of rest and finally the doctors insisted that she give the work up. She went East last week.

Miss Corner has made little if any headway with the mission work. She is of a more or less retiring nature and does not appear to get in common contact with the Indians, especially the men who are not generally in favour of a woman preacher. As a teacher she works hard, puts in hours after school on preparation of desk work etc. but does not appear to have the special ability to make a good teacher. She also has had difficulty in handling the larger boys. Miss Rogers had practically assumed all the responsiblity of conducting the school and now that Miss Corner is left to her own resources, I am afraid she will find the situation difficult.

Miss Corner is a woman of splendid character, trying to do her best, but in my opinion a man should be on the job, although many women teachers could handle the school very well.

Miss Rogers was going to talk the situation over with Miss Lovies of the Women's Missionary Society at Toronto when she returned as Miss Rogers also realized that a man on the job would be much better for the mission work as well as the school teaching. A married couple with the man to teach and preach would, I think, be the best arrangement for this Cote Day School if this could be arranged with the W.M.S.

Re: Cote Indian Day School,
Cote Reserve, Saskatchewan.

Dear Doctor Dorey:

I am today in receipt of a letter from Indian Agent Bryant, which reads in part as follows:-

"Miss Corner has made little if any headway with the mission work. She is of a more or less retiring nature and does not appear to get in common contact with the Indians, especially the men who are not generally in favour of a woman preacher. As a teacher she works hard, puts in hours after school on preparation of desk work, etc., but does not appear to have the special ability to make a good teacher. She also has had difficulty in handling the larger boys. Miss Rogers had practically assumed all the responsibility of conducting the school and now that Miss Corner is left to her own resources I am afraid she will find the situation difficult.

"Miss Corner is a woman of splendid character, trying to do her best, but in my opinion a man should be on the job, although many women teachers could handle the school very well.

"Miss Rogers was going to talk the situation over with Miss Lovies of the Women's Missionary Society at Toronto when she returned as Miss Rogers also realized that a man on the job would be much better for the mission work as well as the school teaching. A married couple with the man to teach and preach would, I think, be the best arrangement for the Cote Day School if this could be arranged with the W. M. S."

I have been wondering if it would be at all possible to secure a male teacher for this school. The enrolment at this date is 27 and the average attendance for the last quarter, 12.8. In view of this enrolment it would not be possible for us, under existing regulations, to allow an amount greater than the salary for one teacher. We would be prepared, however, to pay at the rate of $100.00 a month for the full 10 month period.

It would be deeply appreciated if you would review this matter with the object of letting me know in due course what the prospects are for securing a male teacher or a missionary teacher for this school for the coming academic year.

Yours sincerely,

Dear Mr. Hoey: Re - Cote Indian Day School
Your File 117-2-1

I have your letter of June 14th, the contents of which are by no means surprising. Indeed, if anything else had happened, I would have been much surprised. I have sent a copy of your letter to Mrs. Loveys of The Woman's Missionary Society, who will give the matter consideration.

I cannot think that it would be possible to get a man teacher, with the present scarcity of men. The only suggestion that I could make would be that your Minister might be persuaded to expedite the suggestion which I have made to him in writing, namely, to confer with the Hon. Humphrey Mitchell and get some of these conscientious objectors, who are trained teachers and who are married, and put such a man at Cote. It might be possible to get some man like Mr. Schellenberg. I will take this up with Mrs. Loveys.

Re: Cote School

I visited this institution on Saturday morning, the 26th instant and naturally there were no children there at that time, but I went over the place and had a long talk with the Rev. Miss Corner, who is the teacher there.

The school is in fair shape but there are a certain number of repairs that will have to be made - for instance; a new cistern in the basement. I was informed, and I saw the cistern, that it has gotten full of little holes. This was caused by the zinc gradually rusting. The furnace is also in bad shape. This was a misfit in the first place and 28 years ago I wrote reams of letters regarding this furnace and I finally got it changed so that it would heat the school. Mr. Bryant is going to get Mr. Barrie from Pelly, who is a tinsmith, to look at the furnace and the cistern, also some eave-troughing that has fallen off the school, and find out what it will cost to effect the repairs.

Repairs

The fence around the school also needs repairing. Probably all new posts will have to be put in. Mr. Bryant will also attend to this in due course.

The attendance at the school is what caught my attention. There are 29 on the register and I suppose a lot more of school age that are not registered, but the attendance would I do not suppose average 15 during the year. However, the Department have that information. I talked very seriously on the matter of attendance with Miss Corner and she admitted frankly that she had done her best to get the Indians to attend but just simply could not awaken them to the fact that their children had to come to school to get an education. For instance; she informed me that the two that were her star pupils in attendance had lost 17; days during the year. Others stayed away for days and days at a time. In fact these are her exact words " if the children want to stay at home the Mothers will let them do so" and you know the result. I talked to Mr. Bryant, the Agent, on this matter and he made the statement that he did not try to encourage the elder boys to attend school as Miss Corner could not handle them. The Rev. Miss Corner seemed to be quite a fine woman but she may not have the necessary qualifications for making a good teacher. No doubt she has the education, but whether she has the qualities to pass this on to the children is more than I know. However, to start with the management of the school is not what it should be. As you know this is what they call an Improved Day School. Five bedrooms upstairs and several rooms downstairs. It has a large furnace where cordwood sticks are used. In fact I think the furnace box is 48" long. Miss Corner

me herself that it was an awful job for her to put on the furnace. In her own words she stated -" I have to drag the sticks over to the furnace and then get some of the children to help me put them into the fire box. As a result the school was terribly cold last winter and never got warm until night.

The other lady that was at the school broke down about three months ago and had to go east.

You know probably better than I do, because I am not a teacher, that children do not get much of an education unless they go to school more or less regularly. Therefore you might say that the way the school is going at the present time, with only 50% attendance, it is more or less of a joke.

I had an opportunity of speaking to one of the Councillors before I left there, John Pelly, who has a fairly good education and speaks good English and I asked him to speak to the band and tell them that unless these Indians sent their children more regularly to school it would probably be necessary for our Department to close up the Institution, and John realized this. Whether my advice to him will be followed by the other Indians or not I do not know. He was the only one I had an opportunity of speaking to as I left in the afternoon.

I realize that teachers are very hard to get, but whoever is there it takes a man to fire the furnace.

The repairs that are necessary will be taken up later.

Dear Doctor Dorey:

A report recently received from Saskatchewan indicates that it would be advisable to transfer Miss F.M. Hodgson, teacher of the Assiniboine Day School, to another school. Might I suggest that she be transferred to the Cote Day School to replace Miss Corner. You will recall Mr. Hoey wrote to you about Miss Corner in a letter dated June 14 to which you replied on June 16.

On the occasion of your next visit to Ottawa we will explain fully our reasons for wishing Miss Hodgson transferred, but, as mentioned above, we would appreciate your arranging this matter before September 1.

Re: Campbell SWINCOSKI, et al - T.I.'s
Indian Act - Cote Reserve, Sask.

1. Adverting to your report in this connection, dated the 13th instant, please be advised that whilst members of this force are truant officers for the purposes of Section 10 of this Act, it is not understood why you recommend that a truant officer be appointed for the Cote Reserve, particularly as this is apparently the first occasion that you have been required to give any attention to the matter of truancy.

2. Under these circumstances it is not considered necessary to recommend the appointment of a truant officer for this Reserve. However, if in the future you find that this matter requires more attention than you can provide, you may discuss same with the Indian Agent, who, if necessary, would no doubt make suitable recommendation, regarding the appointment of a truant officer, to his Department.

1. In the above connection, please be advised that on the 12th instant, J.L. BRYANT, Indian Agent, contacted the writer and complained that Miss Elizbeth ROBERTSON, Cote Day school teacher was having difficulty maintaining regular attendance of her pupils at school. Mr. BRYANT advised that no Attendance officer had ever been appointed on the reserve in question and he requested that police action be taken under section 10 of the Indian Act. At 9.00 AM this date the writer patrolled via Pol/Car Code 6260 to the Cote Reserve, where I went over the subject with J.L. BRYANT. I suggested that it might be advisable to have a truant officer appointed, if the matter was likely to need much attention. The principle offenders appeared to be the children of Campbell SHINGOOSE, John PELLY, George Bell COTE, Victor SHINGOOSE, James SHINGOOSE, Roy WHITEHAWK and Allan FIDDLER, all treaty Indians.

2. Heavy rains on this date made it impossible to travel the reserve trails by car, and it was decided that it would probably suffice at the moment, if I contacted the teacher in question, and warned what students that happened to be in attendance this date as to their future behaviour. I found only six students in attendance at the school, and Miss ROBERTSON the teacher, advised that the attendance of all had been very poor, in the past. She considered however that the extremely wet day would no doubt account for the absence of many of the children. I warned the children, present, as to the consequences of truancy, and that police action would result if the truancy continued. The teacher intimated that she believed that the warning so given, would probably have the desired effect for a time at least, and that she would again take the matter up with the Indian Agent, if the truancy continued.

3. I advised Mr. BRYANT of the action, taken and it was decided to take no further action this date. Should further complaints of this nature arise, warnings in writing will be given the various parents. The writer would respectfully request that this subject be taken up with the Superintendent General of Indian Affairs, with a view to having a truant officer appointed for the Cote reserve district. This file is being considered closed at this time to be reopened in the event that further action by the Police is requested.

QUARTERLY REPORT ENDING JUNE 30th, 1945, ON PELLY INDIAN AGENCY

XX XX XX

Schools

Due to the man power shortage it has been necessary to get along as best we could with available teachers in our day schools, staffed by one of the church missions as they are. The first concern of the church mission is to supply a missionary, generally some one is chosen who is not much success in a parish and little thought is given to his or her ability as a teacher, and in most cases they have had no teacher experience and are anything but a success at the job. Under the present set up I doubt if we can ever hope to get the results that we should normally expect, and it is unfortunate for the children that spend several years at these schools seeking an education.

Kelly Agency,

Kamsack, Sask, July 7th, 1946.

75-17

I beg to submit herewith a report on the affairs of this Agency, for the quarter ending June 30th, 1946.

EDUCATION:-

Miss Robertson of Cote Day School has returned to her home and I understand will not return. She is a very fine woman and certainly did not spare herself trying to manage a very heavy school. However she shas been in poor health and latterly the children became very difficult for her to handle, infact they were almost out of hand entirely. in the appointment of a successor I think we should insist on a male teacher. as I do note think there would be a bit of use sending amother woman teacher for this difficult school. There is also to be a ch change ay Key Day school, and here again I hope we can have someone appointed that really knows something about teaching and the handling of Indian children. Nothing definite has been done about starting day school at Valley River. We may have to use some of the new ~~church~~ catholic church for this purpose until we can build a school at a rental of $40.00 per month, but here again I would not recommend starting a day school there unless we can be assured that a male teacher that has some experience can be supplied for that point.

St Philips Residential school has built an addition to the present school and will be able to accommodate more pupils this coming term. This school is well managed, children are happy and on the whole parents are satisfied with the results.

Ottawa, July 16, 1946.

Dear Doctor Dorey:

I am advised by Indian Agent Bryant that Miss Robertson does not intend to return to duty at the Cote Indian Day School for the academic year 1946-47. The Agent states that she did good work but that recently she has not been enjoying good health.

If it is at all possible, we would like to have a male teacher at this school, as the Agent states that the children require more discipline.

Yours sincerely,

Dear Col. Neary,-

I am advised by Mrs. Loveys of the Woman's Missionary Society that they desire to nominate Miss Helen Lawson to be the Principal of the Port Simpson School, and Miss Mary Winifred Johnson to be the teacher at Cote Day School. Mrs. Loveys is away and consequently I cannot give you any more information about these appointments, except to say that Miss Helen Lawson is a teacher of some years' experience. As soon as Mrs. Loveys get back. I shall see that you have the information for your files.

In the meantime, I shall be glad to know if you will confirm these nominations with this sketchy information.

Yours sincerely,

Miss Johnston of Cote Day School finds the large number of pupils and grades quite a heavy task. She is a diabetic and has not enjoyed the best of health the latter part of the term. She is now in the Hospital at Moose Jaw with orders to reduce 30 pounds and remain on a diet. Miss Johnston is well qualified and can manage very well when enjoying good health.

Extract from letter from Inspector Ostrander, dated November 4, 1947. Original on 117-5-1

The attendance at the Key's and Cote Day Schools was very unsatisfactory. That of the Key's School was 70.23%, and that of the Cote School 58.95%. The Key's School, with 26 on the roll, had an average daily attendance of 18.26. The Cote School, with 44 on the roll, had an average daily attendance of 25.94. I pointed this out to Indian Agent Mr. J.L. Bryant, and the teachers concerned, and drew the attention of Mr. Bryant to the fact that Family Allowances payments should be stopped in many instances. Mr. Bryant is to immediately warn the parents that failure to greatly improve the attendance will result in loss of Family Allowances payments, and possibly prosecution. Aside from the matter of attendance I feel that very little is being accomplished at either the Cote Day School or the Key's Day School, and I do not consider the teachers concerned are giving the service which we are entitled to expect.

Re: Cote Day School.

When making up the 1948-49 estimates I neglected to include an extra class room and another teacher for Cote Day School. There are 45 pupils on the roll this term and this will probable increase by at least another 10 next year.

There were 36 at school today, I am sure you will agree that even this number is more than enough for one teacher to properly handle and that two teachers are required to do justice to the children and teachers. As an emergency measure the large dining room could be used as a class room for the little tots but eventually another class room should be added to the present structure. I trust that these items may still be included in the 1948 1949 estimates.

In his report dated December 1, 1947, Mr. J. P. Cerebyzski, School Inspector, makes the following comments concerning the above [redacted]:

"The minimum essentials of the curriculum are being adequately covered. The lessons are well prepared and effectively administered. The work in arithmetic is being presented in a simplified [redacted] meaningful form. The same psychologically sound method is employed in the presentation of other subjects in the course of study. The writing, reading, spelling, health and social studies receive additional emphasis.

"The library in this school is inadequate. A greater variety of simple and well illustrated reading material should be provided. Since the interests of the Indian children are somewhat different from their so-called white neighbors, the development of reading habits presents a problem and a challenge to the teacher.

"Hot noon lunches are being served in the school free of charge tothe pupils. The allowance for noon meal made by the Department is absolutely insufficient. I would strongly suggest the increase in this allowance.

"The classroom is too overcrowded. It is strongly suggested that an additional classroom be provided for grades I and II class. It is absolutely impossible to do justice in this overcrowded classroom.

COPY

Kamsack, Mar. 27th, 1916.

Dear Dr. Grant:-

The following is the schedule of claims for Miss Dunbar's and Miss Walker's salaries for the quarter ending March 31st:-

Miss A. F. Walker.....	Teacher.....	$112.50
Miss Sarah Dunbar.....	Matron.....	125.00
		$237.50

I was told that the man who was foreman on thework at the new school last fall was in town about a week ago. Further than this I have heard nothing of the work being recommenced. The weather has continued cold but to-day it shows some signs of our long winter breaking up at last. We moved into town about three weeks ago and are about settled in our new quarters now.

Yours sincerely,

W. McWhinney.

Dear Mr. McLean:-

I am forwarding you a statement that I have received from Rev. W. McWhinney, Principal of the Crowstand School, dealing, with the salaries of Miss A. E. Walker and Miss S. Dunbar. According to previous arrangement, the Department was to become responsible for the salaries of these two workers from the first of the year until they took up their work in the Day School that is now in course of construction, but not yet completed. Would you please send forward one cheque in favour of Miss Walker for $112.50 for the quarter ending March 31st, and another in favour of Miss S. Dunbar for $125.00 covering the same period ? If you will forward these cheques here, we will see that they are sent to the proper parties.

Yours truly,

A.S.G.-A.V.

Ottawa, April 4, 1916.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 31st ultimo enclosing a copy of a statement from the Rev. Mr. McWhinney with reference to the salaries of the teacher and matron at the improved day school on the Cote's Reserve for the quarter ending March 31st.

In reply I beg to say that a cheque for $237.50, being the amount of salary due for that quarter is being made payable and sent to the Presbyterian Church in Canada.

It is expected that this school will be completed early in June, next. The Department would like you to instruct both the teacher and matron to take their annual leave before that time, so that, when the school building is ready, they can take up their duties and continue in the work without any further interruption for holidays.

Ottawa. February 25, 1922.

Reverend Sir,-

I have to acknowledge the receipt of your letter of the 23rd instant, enclosing a communication from Mrs. Jones, Treasurer of the Woman's Missionary Society, with reference to the amount of salary paid the teacher and matron at the Cote's Improved Indian Day School.

It is noted that she claims an unpaid balance of $222.75. This arises from the fact that beginning September 1st, last, a new teacher and a new matron were placed in charge of the Cote School. In computing salaries for the September quarter for new teachers the Department has been accustomed to pay on the basis which the number of days taught during that quarter bears to number of days in the school year. In the cases of Miss Sinclair and Mrs. McMillan the return showed that they were in charge for 17 days in the September quarter and, accordingly, the former was allowed 17/200 of $700.00, or, $63.75, and the latter 17/200 of $600.00, or, $51.00.

As the school year ends on June 30th, the Department has always made the necessary adjustments at that time and paid any arrears in salary that might be due. In the present case the balance of $222.75 would have been paid in June next.

For your information I enclose copy of the Indian Day School Regulations shewing the procedure adopted. However, as possibly the Woman's Missionary Society desire this amount in order to close their books for the year 1921, a cheque for the balance due is being sent now instead of in June next.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Ottawa, July 28, 1924.

Sir:

The Department is informed by the Presbyterian Church authorities that Mrs. Marshall, who resigned in March last as teacher of the Cote Indian Day School, has been persuaded to return and continue the work at that school until next spring at least. We are approving of her re-engagement as teacher and the salary allowed her will be at the same rate as she previously received.

The Church authorities have not yet nominated a matron to succeed Mrs. McMillan. As soon as we have their nomination for this position, you will be advised.

Your obedient servant,

J. D. McLean,

Sir:

I beg to inform you that at the request of the Presbyterian Church authorities approval has been granted for the appointment of Mrs. D. R. Fraser, of Yorkton, to the position as assistant teacher and matron at the Cote Indian Day School. The salary allowed her will be at the same rate as was paid her predecessor, viz. $600 per annum, supplemented by the bonus provided by law. Payment of both salary and bonus is based on ten teaching months in the year.

We have been informed that Mrs. Fraser's husband is with her, but that you have discussed this situation with the Rev. W. McWhinney and that you feel his presence will be of considerable assistance, especially during the winter season.

Ottawa, May 8th, 1925.

Rev. Sir:

I have your letter of the 5th instant, enclosing copy of a communication which you received from your Home Mission Convener for Kamsack Presbytery in which he states that Mrs. Marshall, teacher of the Cote Indian Day School, has submitted her resignation to take effect at the end of June, next. In reply I beg to say that the Department regrets that Mrs. Marshall has found it necessary to sever her connection with Indian school work, in which her services have been so satisfactory.

The Department will approve of the appointment of Mrs. D. R. Fraser, the present assistant, as teacher, from the beginning of the next school year. The total salary allowed her will be at the rate of $85 per month for the ten teaching months in the year.

Regarding the appointment of an assistant teacher and matron, the Department will approve of the appointment of Miss Christina Templeton, whom Rev. Mr. McWhinney strongly recommends for the position. Her qualifications have been noted and are satisfactory. The total salary allowed her will be at the rate of $75 per month for the ten teaching months in the school year.

We are informing the local Indian Agent and Mr. Commissioner Graham, of Regina, of the resignation of Mrs. Marshall and the appointment of Mrs. Fraser and Miss Templeton.

I have noted that the above appointments meet with the approval of your W.M.S.

Sir:

I have your letter of the 12th instant, regarding the engaging of substitute teachers at the Cote Indian Day School during the illness of Mrs. Fraser.

Your explanation regarding the engaging of Mrs. Johnson until the Christmas holidays is noted. It is also noted that this school was reopened on the 3rd instant and that Miss S. Leadingham will act as substitute teacher until the Easter holidays, as it is not likely that Mrs. Fraser will be able to resume her duties until that time, but that she wishes to return to duty when able to do so. You should inform the Department at a later date when Mrs. Fraser resumes her duties.

I have your letter of the 19th instant, relative to the request of the matron at the Cote Improved Day School for leave of absence from May 24th, next, for the balance of the present school year, in order that she can visit the Old Country during the summer holidays.

In reply I beg to say that the Department will approve of this leave of absence being granted the matron from the date mentioned, and of the appointment of Mrs. F. Owens to take over the matron's duties during her absence. Mrs. Owens will be allowed salary at the same rate as is paid the present matron, but we will be unable to continue the matron's salary, as it will not be possible to pay two salaries for the one service at this school. Sir,-

The Department is in receipt of the March quarter return of the Cote Indian Day School and it is noted that you have not advised whether or not Mrs. Roy assumed duties on January 1st last as authorized by official letter of December 14th, 1928. Please advise me in this regard as soon as possible. In future, it is desired that she sign the quarterly return as well as Mrs. D. R. Fraser and, also, forward a brief report detailing her activities.

Sir,-

Replying to your letter No.117-2-3 of the 11th. inst. re sending Mrs.Foy assuming the duties of Matron at the Cote Improved Day School as from Jan.1st.1929, I was under the impression that my notification of Dec. 13th. last that Miss Templeton was relinquishing her duties at the end of Dec. and that they would be assumed by Mrs.Foy, was sufficient as I received a letter from the Department dated Dec.14th. advising me of this change. Mrs.Foy assumed the duties of Matron at the Cote Improved Day School as from Jan. 1st.1929, and your instructions that she sign the quarterly return along with Mrs.Fraser, forwarding therewith a brief report detailing her activities, have also been conveyed to Mrs.Foy and will be carried out on the June return.

Sir,-

I beg to advise that during the time of Mrs.Fraser's indisposition last Month, a period of five days, the Cote School was in charge of Miss Jacket of Kamsack, whom Mrs.Fraser paid the sum of $ 22.50.

When the payment was made of this amount the Rev.W.McWhinney asked me to take the matter of the account up with the Department as he is under the impression that a teacher is entitled to a number of days sick leave with pay or that if such a regulation exists, the amount for a substitute teacher would be paid by the Department.

Would you please advise if it is in order to forward a voucher for the amount in favor of Mrs.Fraser or not?

My car is used to visit sick or absent school children, to take resident children five miles on their way home every Friday after four o'clock, to transport school Inspectors every Saturday, to take children to dentist or eye when necessary, and to visit sick adults or ladies on Tobe Reserve.

Apart from this I frequently take the Indians to or from town at their request and to church on Sunday evening.

Sir: 604

I have to inform you that the authorities of the United Church of Canada, under whose auspices the school is conducted, have nominated the services of Miss Eva Crockett as teacher, to succeed Mrs. D. R. Fraser, at the Cote Indian Day School. Miss Crockett has a first class Saskatchewan certificate and has taught over 9 years, in the Residential Schools at Round Lake, File Hills and Portage la Prairie.

The Department is approving the appointment of Miss Crockett, with salary at the rate of $95 per teaching month. I would request that you give her every assistance you can in the work at this school.

Dear Sir:

I beg to acknowledge receipt of your letter of the 9th instant, No. 117-2-3, in connection with voucher No. 832, in favour of Mrs. Roy, for a payment she made to Miss Kathleen E. Lawrence for assistance during the absence of a teacher.

In reply I beg to say that Mrs. Roy was anxious to try to keep the class-room open until a teacher could be appointed in the place of Miss Crockett, who was confined to hospital. She therefore decided that she would teach in the class-room, and to do so, it was necessary to have assistance in the preparation of meals, and the care of the sleeping quarters. I informed her of the contents of your letter of the 12th November, number 117-2-1, and particularly the last sentence thereof, but she still wished to continue with her intention to keep the class-room open and engaged Miss Lawrence to assist her. I did not give authority for this, but informed Mrs. Roy, after she had paid Miss Lawrence, that I would forward the receipt to the Department for consideration.

I was aware that Miss Lawrence was at the school for the week ending 23rd November, but made no arrangement for her payment. However, Mrs. Roy paid her for 5 days @ $1.50 per day and it seems only fair that she should be reimbursed as her intentions were for the best interest of the school.

Dear Mr. Scott,-

I beg to acknowledge the receipt of your letter of October 1st. and other official correspondence with regard to the subject of a combination Day and Boarding school for Cote Reserve.

I am sending herewith a sketch of a proposed school, which has been prepared with great attention to details, and I think if this plan is followed it will suit our requirements. A school of this kind has been in my mind for a long time. Rev. Dr. Grant who was here yesterday looked over the plans and was well pleased with them.

You will notice that the building is to be heated with hot air, as this system is far more easily managed. Experience at File Hills school and elsewhere has led me to decide that for a building of this kind hot air is the most suitable.

The plumbing is worked out to meet all requirements allowing ample closets and bath-rooms.

I would draw your attention to the fact that the building is only 48' X 34' and still it provides room for 16 or 18

regular boarders, for a married Principal(who should be teacher as well) and two of a staff. The dining-room and kitchen are large enough to provide for the additional pupils at the mid-day meal.

I am strongly of the opinion that the Principals of our Boarding schools should live in the building in order to look after the morals of the pupils and I have therefore provided quarters for the Principal in the building and am not sending a plan for an additional residence. Another reason for having the Principal living in the school proper is that as a Boarding school the grant earning power is extremely small and will not warrant keeping up a spearate establishment.

The class-room should be a separate building similar to the one at File Hills.As you have plans of this in Ottawa,it will not be necessary to send a sketch.

I have tried to get away from the costly boarding school and at the same time provide a school that will meet all requirements on Cote reserve. All that will be necessary in the way of a staff will be a Principal (teacher also) ,a cook and a matron,

The cost of this building will be between twelve and fifteen thousand dollars.

Yours sincerely,

Ottawa, March 10, 1915.

Sir,-

I beg to inform you that blue prints of the preliminary plans prepared for the combined Boarding and Day school, Cote Reserve, Sask., are being sent you by concurrent mail.

Plans have been prepared from the sketch sent in by you, but include other arrangements which are necessary to fully womply with Departmental regulations for boarding schools. The building will be heated with steam as it is impossible to do this satisfactorily with hot air furnaces, owing to the number of pipes which would have to be carried to the several parts of the building.

The accommodation provided in dormitories is for 12 boys and 12 girls, and class-room for 56 pupils, which can be increased if necessary. The other accommodations provided will fully meet requirements.

Should it be necessary to ppovide for more dormitory accommodation by a slight re-arrangement in the plans, accommodation can be provided for 40 pupils.

You are requested to give the plans consideration and return to the department with your criticism thereon as soon as possible when the plans will be completed.

Sir,-

I have the honour to acknowledge receipt of your letter above quoted,which remained unanswered until I had made a visit to Pelly,where I wished to get further information regarding the number of children that would likely attend the school it is proposed to build on Cote Reserve.

As you are aware,the Indians on Cote Reserve want a day school,and as I understand it, we are meeting their wishes half way by giving them a combination day and boarding school,that is to be managed by the Presbyterian church,on the per capita grant system. A school,such as we propose,will ,at best, have only half the earning power a boarding school would have.It is therefore necessary to make the buildings as compact as possible,so as to run it with the least possible number of staff.So far as I can see at present we cannot hope to get more than 16 boarders and if I am right, it seems to me we might be able to curtail the building in some respects.Take the matter of infirmaries, do you not think that one room would answer the purpose ? From past experience at File Hills and other points,the space set aside for this purpose almost seems lost,as it is very rarely used.With the few children who will be living in this

this school the necessity for such space will be correspondingly less and the chances are that boys and girls will not be sick at the same time.If only one room can be set aside it will mean something.

As the Principal will have to live in the building and will be a married man with possibly two children,I think a re-arrangement of the front rooms would be a great advantage. I think that on the right of the main entrance there should be two bed-rooms with closets and entrance between the rooms, and the present sewing-room,which need not be very large, moved over to the left hand side to take the place of the corner bed-room.

Ground Floor;- I think it would be wise in view of the limited number of the staff to make the matter of supervision as easy as possible,and would suggest that the main passage be divided by a partition with a door;this would insure the complete separation of the boys and girls and would not necessitate a member of the staff being in constant attendance. In this matter we cannot be too particular, as we have had a great deal of trouble with boys and girls getting into each others quarters,and now that we are putting up a government building,we should,if possible,make it so that this trouble can be avoided.

As the earning capacity of this school will be less than half what it is at the present Crowstand school,the staff must be just half what it is at present and if you can re-arrange the plan ,doing away with one infirmary and making the dormitories much smaller, it

it would fill our requirements. Of course,if it were a boarding school we are going to build,we could add a few feet to the present plan and have a perfect building. But the Indians are pressing for a day school and all the accommodation we need is for sixteen children.

The staff accommodation as it now stands appears to be ample.

When it is decided to build great care should be taken as to the location of the building.

I would judge from the plans that there is to be no underground basement.Everything apparently is above ground. I presume the Department has its own reasons for having it done this way,but I have never seen a building of this kind without a basement.

Ottawa, April 15, 1915.

Sir,-

I beg to acknowledge the receipt of your letter of the 6th instant and answer to Department's enquiry, concerning the proposed combined boarding and day school plans for the Cote Reserve, and in reply to say that in the opnion of the Department a school cannot be carried on successfully with 16 pupils, and with 24 pupils for which dormitory accommodation has been provided only by the strictest economy. With respect to the Isolation Infirmary to which you refer particularly, these are necessary even if never used, as it is of the utmost importance that cases of infection, if such occur, should at once be isolated to prevent the danger of contagion to the balance ofthe school.

The size of the building is determined to a great extent by the dormitory accommodation and that required in the basement,and even if one of the Infirmaries was omitted, the size of the building could not be diminished to any appreciable extent, providing for actual requirements.

If 16 pupils only are available on the Cote reserve and none from other sources for this school, it is for the Department to consider if an improved day school only,with provision for residence and children's dining-room would not be more advisable than the combined boarding and day school. I have,therefore,to request that you will favour me with your opinion on this matter.

Ref.: Your Letter of the 15th. instant 19 15, No. 431602

Sir,-

I have the honour to acknowledge receipt of your letter above quoted concerning the plans of the proposed Boarding and Day school at Cote Reserve.

The Indians of this reserve have been pressing for a Day school for a long time and have been led to believe that they would get one some day. The idea of a combination Day and Boarding school was suggested by the Presbyterian Church officers, and I am sure they had no idea of having such an elaborate building as the one for which you submitted plans. I must confess I was surprised when I saw them and the first idea that struck me was that we would be building a Boarding school and not a small combination school.

DEPT. OF INDIAN AFFAIRS, MAY 1915 ARCHITECT.

The plan I submitted was, in my opinion, too elaborate, if anything, but when I saw your plans, with additional rooms, extensive water system and extra bath-room I at once felt that the school could not be run on the grant from 12 or 16 pupils even with the additional Church grant.

I feel sure that on Cote's reserve there will not be sixteen Boarders, as the members of the Band are determined to have their children at home, but if we should have, say 14 Boarders, it seems to me that there ought to be some kind of a building that could be made to meet the requirements at very little cost.

The Secretary,
Dept. of Indian Affairs,
Ottawa.

cost. There are lots of private dwellings in this country with ten or twelve children in them and I am satified these children are as well looked after as we would expect our Indian pupils to be .

With reference to the last paragraph of your letter it would appear that your idea is that we mightb be able to get pupils from other reserves as boarders. If we did this we would be going back to the Boarding school system, but I doubt if you could get them. If the Department cannot figure out a smaller and simpler building for housing 16 children, I would suggest that an improved Day school be built. If will meet with the Indians' approval, but I doubt if the Church would like it.

I have the honour to be,

Sir,

DEPARTMENT OF INDIAN AFFAIRS

Kumsack, Sask., May 21st 1915.

Dear Sir,-

Some time ago I was informed that the Department had not yet fully decided to go on with the building of the Semi- boarding and Day School on Cote,s Reserve this year. Would you kindly let me know now if a final decision has yet been arrived at in this matter. There are several things which arewaiting for this final decision and it would accommodate us very much to know exactly what we may expect this year.

Hoping to receive from you a favourable reply as to the building being proceeded with at an early date, I Am,

Yours Respectfully,

Rev. Sir,-

I beg to acknowledge the receipt of your letter of the 21st instant in reference to the building of a combined Day and Boarding School at Cote reserve, and in reply to inform you that the Department has decided to erect an Improved Day School, as it is apparent that a Boarding School cannot be financed with number of pupils obtainable there. The Rev. A.S. Grant, D.D., the Superintendent of Board of Home Missions for the Presbyterian Church in Canada, will no doubt communicate with you direct as to the Church's decision in the matter.

It is proposed to undertake the erection of the Day School as soon as the plans and specifications have been completed.

Memorandum,

Mr. Scott,-

Tenders for the inproved Day School to be erected on the Cote Reserve at Saskatchewan, were advertised in the papers circulating in that District, and in response the following tenders have been received:-

A. E. Hawthorne,	Kamsack, Sask.,	$11,100.00
H. L. Hanks,	Dauphan, Man.,	8,000.00
Snyder Bros.,	P.la Prairie,Man.,	7,980.00
Thos. Patterson,	Yorkton, Sask.,	7,960.00
Brown Con. Co.,	Winnipeg, Man,	7,700.00

All of the tenders have been accompanied by the necessary deposit security. The tender of the Brown Construction Co., for $7,600.00 is the lowest received, and as this is a fair and reasonable price for the work to be done, I would recommend that their tender be accepted.

The Department's estimate for the erection of this building is $7,500.00.

His Royal Highness
The Governor General in Council.

The undersigned has the honour to report that, an improved combined Indian day school and teacher's residence being required on the Cote Indian reserve at Kamsack in the province of Saskatchewan, tenders were called for and the following were received,-

A.E. Hawthorne,	Kamsack, Sask.,	$11,100.00
H.L. Hanks,	Dauphin, Man.,	8,000.00
Snyder Bros.,	P. la Prairie, Man.,	7,980.00
Thos. Patterson,	Yorkton, Sask.,	7,960.00
Brown Con. Co.,	Winnipeg, Man.,	7,700.00
The Wolver Con., Co., Ltd.,	Winnipeg, Man.,	6,600.00

The undersigned would recommend, pursuant to the requirements of sub-section 2 of section 36 of the Public Works Act, that the contract be awarded to the lowest tenderers, The Wolver Construction Company, Limited, for the amount of their tender as above cited, namely, $6,600.00, money being available for the purpose from the vote for Indian Education (No. 300, Appropriation Act, 1915). The Architect of the Department states that this tender is fair and reasonable for the work to be done.

I beg to advise you that your tender has been accepted for the building of a combined Indian day school and teacher's residence on the Coté reserve, Province of Saskatchewan, for the Department of Indian Affairs, at your tendered price of $6,600.00.

Inclosed herewith, in duplicate, you will please find contract, which be good enough to execute at once and return to the Department, and after being signed by the Deputy Superintendent General, a copy will be sent you.

Copies of plans and specifications marked "A" and "B" respectively are also being sent you by concurrent mail under separate registered cover, which you will also sign and return with the contract.

You should note particularly that the contract must bear the company's official seal, if registered, and otherwise the signature in full of each member of the company, witnessed before being returned here.

As soon as the contracts have been executed due notice will be given you to proceed with the work .

Your obedient servant,

J.D. McLEAN

Ottawa, April 9, 1932.

Sir:

I have to acknowledge receipt of a requisition from the matron of the Cote Improved Indian Day School for supplies for the use of the school.

In this connection I have to say that you may arrange for the purchase and delivery of the following: 3 brooms, 4 scrub brushes, 4 gals. coal oil, 1 quart floor varnish, 1 garden rake, 1 axe, complete, and 1 gallon water pail. After the purchase of the above supplies has been made, you should forward an itemized account, in duplicate, properly certified, covering the cost.

With reference to the request for table oilcloth and kitchen linoleum, please report whether you consider this equipment to be absolutely necessary. I might say that our funds are extremely limited, and it is necessary that all expenditure be kept as low as possible and only the most necessary supplies furnished. If you consider that the oilcloth and linoleum are absolutely necessary, you should give an estimate of the cost.

Your obedient servant,

A. F. MacKenzie,
Secretary.

OFFICE OF

DEPT. OF INDIAN AFFAIRS
MAY 5 1932
RECORDS

Kamsack, Sask.

No.14.

30th.April,1932.

Sir,-

Acknowledging receipt of your letter of the 9th. inst.No.117-2-5 relative to table oilcloth and linoleum for the kitchen floor at the Cote Improved Day School, I beg to advise that both of these are necessary as what is now there in use is completely done.

In this connection I also beg to advise that the cost of linoleum will be approximately $ 19. which should last for several years, whatcwas put down previously was floor oilcloth which only last a very limited time. Linoleum will be much more permanent. With regard to the oilcloth for the tables this will cost in the neighborhood of 45¢ per yard and would suggest that another time this needs renewing to cover these tables with veneer and paint them which would be permanent except possibly a coat of paint once per year. While the expenditure would be out of the question this year I have however inquired into the cost which for veneer, placing and paint would cost in the neighborhood of $ 3.50 per table, the oilcloth of course is only around $ 1.50 but requires renewing each year.

In view of the necessity of both these may I have your authority to purchase the table oilcloth and linoleum, also your advice as to whether an item covering the cost of veneer and paint for this purpose should be placed in the estimates this year.

Edmond McKenzie

Sir:

I have your letter of the 30th ultimo, relative to the table oilcloth and linoleum required at the Cote Improved Indian Day School.

In reply I have to say that, in view of your report that these materials are necessary, you may arrange for the purchase from a firm on the list to receive consideration of the quantity of kitchen linoleum required. It is noted the cost will be approximately $19. You may also purchase the quantity of table oilcloth required for the tables. This material, while serviceable, should be purchased as cheaply as possible. After the purchase of the above supplies has been made, please forward an account, in duplicate, properly certified, covering the expenditure incurred.

It will not be necessary for you to include in your Estimates for next year an amount to provide for the cost of veneering and painting the tables.

117-2-5.

Ottawa, September 8, 1932.

Sir:

I have your letter of the 30th ultimo, requesting authority to purchase food supplies for the noonday meal and for resident pupils at the Cote Improved Indian Day School.

As our funds are extremely limited this year, it is necessary to enquire carefully into the cost of supplies for noonday meals. I have, therefore, to request that you will state the number of children who are resident in the school from Monday morning to Friday night. You should also state the distance from their homes to the school and if it would not be possible for them to reside at home and attend the school each day as day pupils. If it is not possible for them to travel to and from the school each day, you might state if arrangements could not be made to have them sent to either the Brandon or File Hills Indian Residential Schools. It is found that during the last school year the sum of approximately $200 was expended in the purchase of supplies for meals. We will be unable to provide this amount for the present school year. Please state the minimum amount per month which you consider would be required in the purchase of supplies for the noonday meal for the day pupils; also for the resident pupils, if it is necessary that the present arrangements for these latter pupils be continued. I shall be pleased to have, at an early date, as complete a report from you as possible regarding the continuing of the present arrangements and also as to the above suggestion that the pupils who are too far away to attend school each day be placed in a residential school.

In the meantime, you may arrange for the purchase of the quantity of food supplies considered absolutely necessary for the present month.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

Kamsack, Sept. I4th I932.

The Secretary,
Department of Indian Affairs,
Ottawa, Can.

Dear Sir,-I have just been informed by Mr Agent McKenzie of the Pelly Indian Agency of a letter received recently from you in regard to expenditure at the Cote Indian School in which the following points were stressed?-

I. The expenditure of $200 during the past year for food supplies was too great and must be reduced.

2. It was asked if the pupils who have been boarding in the school from Monday until Friday could not go home each night and return in the morning.

3. It was also asked if these pupils could not be transferred to the boarding schools at File Hills or Brandon.

Now as supervisor of this school for The United Church of Canada I would urge that there be no reduction in the necessary supplies for the Cote School in order to provide fittingly for the few pupils who lodge and board there from Monday until Friday. Also while we do not object to pupils being transferred to these boarding schools if the parents so desire ,we do not think any undue pressure should be brought to bear to bring this about.

There has been,I think considerable change of late years in the officials of the Department and perhaps you are not aware o of the conditions and the un derstanding under which the Cote school was built in I9I5. At that time the Presbyterian Church agreed to the closing of the Crowstand Boarding School which had previously supplied educational facilities to these reserves,with the understanding that a semi-boarding and day school would be erected on the reserve. The plans for such a school were drawn but suddenly the Department decided instead to build an improved day school. From I9I6 until I928 this was conducted as a simple day school where the pupils received a warm midday meal. At that time the Department erected the St Philips Boarding School five miles away and at once the Roman Catholic Church began to encroachand try to entice the pupils from our day school. To secure a small degree of equality of school opportunity we secured the consent of the Department to board several pupils,from a distance,from Monday till Friday I urged. that we be given additional lodging accommodation but was refused. The injustice of the situation lay in the fact thata large and costly boarding school was erected for one Church and the other was refused the expenditure of a few hundred dollars to provide for the needs of a few pupils who were too far away to attend as day pupils. Since then we have been utilizing some extra space to accommodatenot more than five or six pupils . Last year and now there are only three or four. It costs the Department $I50 to $I60 to maintain a pupil in a boarding school. I ask you is it reasonable to object to an expenditure of something like $200 to maintain three or four pupils for the year.I am heartily in accord with any effort to save money where it can be saved without inflicting hardship but the Cote school is not the place to cut down expenses . The matron makes good use of all the supplies received and there should be no curtailment.Further,these pupils l live too far away to allow them to attend merely as day pupils.

Commedning these matter to your consideration, I Am,

Yours Respectfully,

Rev. McGillivray

Sir,-

Replying to your letter No.117-2-5 of the 8th. inst. regarding supplies for the Cote Day School, I beg to advise that at present there are only two resident pupils there, both from the Keesekonse reserve, nine miles distant. The Protestant families on that reserve raise an objection to sending their children to File Hills when there is a boarding school, (St.Philips,R.C.) on their reserve. If we had any way of forcing them to send their children away, there would be no need of boarding any pupils at the Cote School during the week, except for the noon day meal. This was the very reason for keeping resident pupils at Cote as the indians there who were protestants turned R.C. rather than send their children away and these people are still of the same opnion. I would much to see resident pupils not kept at the Cote School as they haven't proper facilities there to do so, but run into this same objection by the parents as soon as they are approached regarding sending them to File Hills.

In working out on a per capita basis the amount of the supplies for meals $200. for last year, it cost less than 5¢ per capita for these supplies,per day, so it could not be lowered unless we were to dispense with the noon day meal entirely, and also the resident pupils.

Rev. Sir:

I have your letter of the 14th instant, regarding the food supplies required for the midday meal and for the resident pupils at the Cote Improved Indian Day School.

In reply I have to say that, in view of your report and also that of Mr. Agent McKenzie, the Department will approve of continuing the supplying of food of the same type as furnished last year. Mr. McKenzie is being informed accordingly, and requested to arrange for the purchase of the supplies considered absolutely necessary and to keep all costs as low as possible. At the present time he states there are only two resident pupils, and, if this number does not increase, the cost of the supplies should be considerably lower than last year.

I have your letter of the 20th instant, with reference to the food supplies for the noonday meal and for the resident pupils at the Cote Improved Indian Day School.

In reply I have to say that the Department has received a communication from Rev. W. McWhinney, Supervisor of this school for the United Church of Canada, urging that there be no reduction in the supplies for the few pupils who board at the school from Monday until Friday and for the regular midday meal to the pupils. As the Indian parents refuse to allow their children to be sent to the File Hills Residential School, it is considered that the providing of supplies should be continued, and you may arrange for the purchase, from time to time, of the various food supplies as formerly purchased. It is noted that at the present time there are only two resident pupils. It should, therefore, not be necessary to incur as large an expenditure as last year. The Department will rely on you to see that only the supplies considered absolutely necessary should be furnished and that all costs be kept as low as possible. The above authorisation is for the present academic year ending June 30th, next, only.

Itemized accounts, in triplicate, properly certified by you, should be forwarded for payment.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

Sir,-

I beg to advise that from present indications we won't have sufficient money to run our plant at the Agency to the end of the fiscal year, owing to repairs and excessive gasoline consumption. We can only operate it until about Dec. 31st, as we have to have the engine overhauled again and will have very little left then to buy gasoline and oil.

As we furnish light to the Cote School, which uses easily half our output, owing to the distance the electricity has to be transmitted to that point, could an amount for repairs and supplies up to $ 100. be charged against school vote, which would carry us until the end of the fiscal year. There hasn't been anything charged against the school for light since the plant was installed.

No.14.

7th.Dec. 1932.

DEPT. OF INDIAN AFFAIRS
DEC 12

Sir,-

I beg to advise that the Cote Improved Day School require at least one dozen electric light bulbs for the school and residence. One half dozen were requisitioned on the Sept. quarter but no authority has been thus far granted for these.

They have 5 bedrooms and a hall upstairs to light and have three bulbs to do this with, in the basement three rooms and stairway, furnace room, vegetable room and clothing room and one bulb to light this with, in the residence 4 rooms 1 porch and have two bulbs for this, in the class room 6 lights and two porches, they have three bulbs for this. The fact that the bulbs have to be moved around so much does not add to their life at all. In view of the above could the school be supplied with one dozen electric light bulbs costing in the neighborhood of $ 3.00

Your obedient servant,

Edmond McLaughlin

Ottawa, March 31st, 1933.

Sir,-

The Department is in receipt of your Voucher No. 791, for $10.00, in connection with the cleaning of the outside toilets at the Cote Indian Day School. This account is being paid, but I would point out that no authority was given for this expenditure and, on reviewing previous accounts submitted, it is noted that you have forwarded vouchers amounting to $30.00 for cleaning of the toilets since last June. This expenditure appears to be excessive and I would direct your attention to circular letters of November 14th, 1932, and March 16th, 1933, and would request you to conform strictly to the instructions contained in these letters.

In reviewing your Voucher No. 709 of December 10th, last, it is noted that it included a charge of $5.00 for removing screens and putting on storm windows. No such expenditure should be authorized in future as these services are considered part of the duties for which a janitor's allowance is paid.

I wish, also, to direct your attention to official letter of November 21st, last. In future, accounts submitted for expenses in connection with the electric light plant at the agency should not be marked "chargeable to Cote's School".

Sir,-

Replying to your letter No.117-2-5 of the 31st. ulto. relative to the cleaning of the outside toilets at the Cote Day School, I beg to advise that Chas.Calwell who has been doing this work states that there are three of these which have to be attended to each month during the winter and three times during the summer months, this together with the winter accumulation of ashes that is also removed in the spring for which he has been receiving $40. per year. I informed him that the amount was considered excessive and would he undertake the work for a lesser amount, he states that he will take it on this year for $ 30. If this receives your favourable consideration can vouchers for this work be forwarded either quarterly or half yearly.

I have informed the Matron at the Cote School regarding the storm windows.

Dear Sir,- Re heating plant Cote Indian School

In accordance with your request, I beg to report that on April 25th. last I made a thorough examination of the above heating plant and find as follows,-

1. The cast iron fire box of furnace is cracked in several places, these cracks have opened to the extent of half an inch and in rear end there are several pieces of casting on the point of falling out, in fact if the wood used for firing is not carefully placed in fire box, the end would be completely knocked out in a short time. The openings in fire box also create a continuous fire hazard as the suction of the air circulating through the warm air passages will tend to draw the sparks from the fire box and deliver them through the hot air registers into the rooms above.

2. The grates in the fire box are also burned out.

3. The brick work around the top and at the front of furnace is cracked and in several places has fallen out, the joints in the radiator drums also require to be cemented with furnace cement and one direct draft damper installed.

I might add that this furnace was overhauled and reinstalled in 1923 and the ten years service since has completely burned out the fire box and other parts which cannot be replaced as this furnace is obsolete and it is impossible to procure any repairs except grates, consequently it will be impossible to begin another winters firing with the furnace in this condition, in fact it is nothing short of a miracle that there has not already been a fire.

It has also been reported to me that the distribution of hot air in the building is very unsatisfactory as notwithstanding a strong fire it is impossible to heat that part of the building exposed to the wind and it would not be advisable to replace the present furnace with one of the same type and installed under similar con-

Sir,-

I beg to advise that following up a report of the Matron at the Cote School that when she lights a fire in the furnace it filled the whole of the building with smoke, I examined the furnace and also had Mr.Soeder of Kamsack examine the furnace and pipes and enclose herwith his report on the present condition of the heating plant at the school.

There is no need of the furnace at present but with the previous repairs asked for it is found about that it would be more or less a useless expenditure as even then the fire hazard could not be overcome owing to the condition of the present fire box.

The question of steam heat was gone into about two years ago but at that time the fire box had not broken down or the brick covering given way as at present.

Can some change of this heating plant be carried out during the summer holidays as otherwise the question of heating the building will be impossible?

Ottawa, May 23, 1933.

Sir:

I have your letter of the 17th instant, regarding the condition of the furnace at the Cote Indian Day School and enclosing the report of the plumbing contractor who examined the heating plant.

In this connection I would refer you to your letter of the third ultimo, with reference to repairs which would be required to place this furnace in a serviceable condition for the coming winter. I may say that our funds are extremely limited, and, as no special provision was made in the Estimates for the supplying of a new furnace, it will be possible to authorize only the repairs that are absolutely necessary at the present time.

The installing of a steam heating plant, to replace the present hot air system, would entail too large an expenditure to be considered at present. It is hoped that, with no large expense, the present furnace can be repaired and made satisfactory for another winter's use. I would request that you furnish an estimate of the cost of renewing the grates, taking down the brick work around the furnace and replacing with new mortar, supplying three lengths of hot air pipes and having the furnace door welded.

Your early attention and report, giving details as to cost, is requested.

Your obedient servant,

A. F. MacKenzie,
Secretary.

14th.June,1933.

Sir,-

Replying to your letter No.117-2-5 of the 23rd. ulto. regarding the heating plant at the Cote Day School, I beg to advise that at the time my letter of 3rd. April was written the furnace still had fire in it and a thorough examination could not be made. As soon as the fires were let out it was found that the repairs previously asked for would not place the furnace in a fit condition to use as the fire box is now completely done.

Although Mr.Soeder recommends steam heat to get a more even distribution of heat in the building would the Department consider another hot air furnace, our present pipes for hot air and registers could then be used. A furnace suitable would cost in the neighborhood of $ 300.

An estimate of the cost of the former repairs asked for would be about $ 45. but then there is nofire box to build from, or rather the present one is completely done, the details of repairs asked for is as follows,-

Renewing grates	Est.cost $ 20.
Labour brick work	15.
New brick and lime	7.
Welding door	3.

These however are of no use unless there is a fire box.

If it is impossible to furnish a new type hot air furnace could the matter of the heating plant be referred to Mr.Murison on his next visit as the furnace will not be required until the Fall?

Ottawa, June 10 , 1932.

Sir:

The Department has had recent correspondence with Mr. Agent McKenzie, Kamsack, Sask., regarding the heating equipment at the Cote Indian Day School. He states that the present hot air furnace is practically beyond repair and that it is necessary to install a new one. He reports that the cost of a new hot air furnace, using the present pipes for hot air and registers, would be approximately $300.

Owing to recent orders for a reduction in the Appropriation, it is doubtful if the Department can provide funds to the above amount. No doubt, you will be in the Pelly agency in the near future, and I would request that you visit this school, inspect the present heating equipment and report what you would advise be done at the lowest possible expense in order to provide for the heating of the building during the coming winter. You should give consideration to repairing the present furnace, if possible to do so without large expense.

I may say, for your information, that it will not be possible to provide food, etc., for the number of pupils who are kept in residence at this school from Monday to Friday in each school week. The keeping in residence of these children will have to be discontinued if it is intended that any part of the cost be provided by this Department.

Any recommendation you make for the heating of this school for next winter will be considered. As stated, it is doubtful if we could provide funds to the amount of $300 for a new furnace.

I have your letter of the 14th instant, regarding the installing of a new heating plant at the Cote Indian Day School and giving an estimate of the cost of a new hot air furnace, using the present pipes for hot air and registers.

In reply I have to say that the Department is referring this matter to Mr. Inspector Murison, asking him to report concerning the best means to provide heating for this school for the coming winter and at the lowest possible cost. Owing to recent orders for a further cut in the Appropriation, the Department is at present in doubt as to whether funds for the purpose of installing a new hot air furnace can be provided or not, and it may be that other arrangements for the heating of this school will have to be made for next winter. After Inspector Murison's report is received, consideration will be given as to what can be done to provide heating facilities for next winter.

Further with reference to food supplies for Cote School and your letter No.117-2-5 of the 20th. ulto. does this apply also to supplies which have been furnished in the past for the noon day meal at that school, as during the summer months there are only two to three resident pupils? All of the day pupils however have been given a noon day meal for several years. Does this also apply to the issue of flour rice and biscuits which we have on hand in the Agency warehouse for the Cote School?

If the meals are to be discontinued altogether there will be then no issue of these to the school, this would also apply to the meat issue from the butcher shop during the summer months.

I have been asked these questions by the missionary in the field and as the letter is not clear as to whether all the meals are to be discontinued or only those pupils that are resident.

May I have your instructions so that I can pass the information on to the Rev.W.McWhinney?

The Superintendent General of Indian Education
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir

About the end of the month of June Mr Agent McKenzie of the Pelly Indian Agency showed me a letter which he had received saying it was the intention of the Department to cut off certain food supplies from the Cote Day School. We were not just clear as to whether this meant the cutting off ,of all food supplies or only those for the few boarding pupils who remain in the school from Monday till Friday.

Since this same matter was under consideration about a year ago I would ask you to look up on your files my letter of September 14th 1932 and your reply of September 24th. This letter of mine ,I think shows very clearly that the conditions under which the Cote School was established and the excellent work it has done since entitles it to special considerations. Further ,it should be remembered that the action of the Department in erecting the St Philips School five miles away makes it imperative that no action be taken which would interfere with the Cote School meeting the needs of its proper constituency.

If these food supplies are cut off it means that a considerable number of these pupils would be transferred to residential schools. It should not be necessary for me to point out that these children are being educated in the Cote School in a much more economical way than they could be in a residential school where each would cost in the neighborhood of $150.00 per year. Hence if economy is the aim of the Department such action would mean increased rather than lessened expenditure.

For many years I have held that the policy of the Department should move towards the day school system replacing the residential schools and thus leading the Indian parents to assume a greater responsibility for the support and up bringing of their children. In a recent conversation with Honourable C. J. Murphy he quite agreed with me in this policy and asked me to write the Department in regard to the Cote School matter.

I would therefore urge most strongly that there be no lessening of the providing of food supplies for the Cote School. At present the parents are bearing a goodly share of the support of their children and at the present time to attempt to lay any heavier burden upon them would lead to injury and not benefit. You can depend upon it that as supervisor of this School and Missionary on the Reserve I am each year exacting as much self support as possible from the Indian parents.Such a gradual advance we hope some day will lead the Indian to assumex the same responsibility as our own people .

Commending this whole matter to your sympathetic consideration,

I Am,

Yours Very Respectfully,

W. McKinney

Rev. Sir:

I beg to acknowledge receipt of your letter of the 4th instant, with reference to food supplies for the children at the Cote Indian Day School.

In reply I beg to say that Mr. Agent MacKenzie is being written and informed that, owing to the reduction in our Appropriation, we can only allow a sum not exceeding $125 for the purchase of food during the academic year 1933-34. This amount is intended to cover not only the cost of food for the children who are in residence but also the cost of food used for midday meal purposes.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Sir:

I beg to refer you to official letter of June 20th, last, with reference to supplying food for the children at the Cote Indian Day School. In connection with this matter, the Department is in receipt of a letter from Rev. W. McWhinney.

It is found that during the academic year 1932-33 there was an expenditure of approximately $150 for food supplied the children at this school. Our funds this year have been reduced and, after considering the matter fully, it has been decided to allow a sum not exceeding $125 for the purchase of food at the Cote Day School during the academic year 1933-34. This amount is expected to cover not only the cost of food for those children who are kept in residence but also the cost of the midday meal.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Sir,-

I beg to acknowledge receiptof your letter No.117-2-5 of the 13th. ulto. regarding Cote Indian Day School and in connection with the resident pupils wish to advise that during the holiday months, July and August there are no pupils kept at the school, they are all returned to their parents during the holidays.

With reference to biscuits, we received 900lbs. of biscuits this year 100 lbs of which were issued to the Keys Day School and the remainder held for use at the Cote School. In addition to this we have on hand,-

13 sacks of Flour
50 lbs. Rice

for the Cote Day School.

Up to June 30th.last meat was issued to the school each month while the school was in session.

With regard to it's not being necessary to issue meat during the summer months, as July and August are already omitted which other months do you wish to dispense with the meat issue?

Sir,-

I beg to acknowledge the receipt of your letter of the 4th instant, with further reference to the food required for the children kept in residence at the Cote's Indian Day School.

In this connection, I would refer you to official letter of the 9th instant, in which you were authorized to incur an expenditure not exceeding $125 during the academic year 1933-34. I note from your letter of the 4th instant that you have on hand for this school 900 lbs. of biscuits, 13 sacks of flour and 50 lbs. of rice. Under these circumstances, the Department considers that it may not be necessary for you to expend the amount authorized in official letter of the 9th instant. Our funds this year are greatly reduced and Indian Agents are expected to exercise every economy. The Department will depend on you to only authorize the purchase of the supplies which you consider are absolutely necessary.

Your obedient servant,

A. F. MacKenzie.

INSPECTOR'S OFFICE,
REGINA, SASK., 18th August, 1933

Sir:-

Referring to Department letter No. 117-2-5, dated June 19th last, with reference to the heating equipment at the Cote Indian Day School in the Pelly Agency, I beg to inform you that I have just completed an inspection of the Pelly Agency and while there I visited the Cote Day School and made a thorough examination of the heating plant.

The school staff were all absent on their vacation. I however managed to gain access to the furnace room. I found that the condition of this furnace is very bad. As a matter of fact I consider it unsafe to have a fire placed in it. The cast iron fire box is burned out. It is cracked in several places at the sides and some of these cracks have opened nearly one half inch. There are openings at the rear of the furnace and several pieces of casing are on the point of falling out. A jar such as might easily happen by throwing a stick of wood in too far would knock the whole end of the furnace out. As it is, I could see plainly into the hot air chamber. These openings in the fire box create a continuous fire hazard, as the air circulating through the surrounding air passage will tend to draw the sparks from the fire box and deliver them through the hot air registers into the room above. In my opinion the fire box is beyond repair and unsafe for further use. A new furnace is, in my opinion, absolutely necessary if the school is to be continued. I would not take the responsibility of operating that school during the winter months until the heating equipment is put in order. The estimate of $300.00 is very reasonable.

Sir:

I have to refer to your letter of June 14th, last, regarding the installation of a new heating plant at the Cote Indian Day School and giving an estimate of the cost of a new hot air furnace, using the present pipes for hot air and registers. In this connection I have to say that Mr. Inspector Murison, who recently visited this school, is of opinion that a new furnace is absolutely necessary. He states, further, that the estimate as submitted by you for the purchase and installation of a hot air furnace at a cost of $300 is very reasonable.

I have to request, therefore, that you will arrange for the purchase and installation of a hot air furnace, of the capacity and type that would be satisfactory to heat the building and to be connected to the present pipes and registers. The business should be given to a firm on the approved list. If necessary, you may consult Mr. Inspector Murison regarding the purchase and the work in connection with the installation. You should see that a satisfactory job is completed and that the total cost is kept within your estimate, viz.: $300. I enclose an encumbrance certificate authorizing an expenditure to that amount. After the work has been completed, please forward an account, in triplicate, properly certified, covering the cost. You should state on each copy of the voucher that the expenditure was incurred under authority of E. R. No. 882.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Sir:

I have your 310-11A of the 18th instant, with reference to the heating equipment at the Cote Indian Day School. In this connection it is noted that, in your opinion, a new furnace is necessary.

The Department is today communicating with Mr. E.A.W.R. McKenzie, Indian Agent, Kamsack, Sask., authorizing him to arrange for the purchase, from a firm on the approved list, of a hot air furnace of the capacity and type that would be satisfactory to heat the building. He is being instructed to communicate with you, if necessary, regarding the purchase of the furnace and the work of installation. It is noted that you consider the estimate of $300 for this work, as submitted by Mr. McKenzie, is very reasonable.

Sir:

With reference to requisition dated the 26th ultimo, for supplies for the Cote's Indian Day School, I beg to say that you may purchase 2 brooms, 2 scrub brushes, 4 gallons coal oil and the wire absolutely necessary for a clothes line.

It is noted the teacher requests 25 yards towelling. In this regard, I would point out that the Department paid for 12 yards towelling for this school - your Voucher No. 11 of December 15th last. Under these circumstances, we are not prepared to authorize the purchase of a further quantity at the present time.

Sir,-

Referring to your letter No.117-2-5 of the 5th. inst. insofar as it concerns 25 yards of Towelling asked for, I beg to advise that the former 12 yards was used by the teacher in supplying each of the children an individual towel of their own, which is taken home each Friday and washed brought back on Monday and kept at the school for their use, the towelling in question is required for the residence to be used for the dishes present supply is almost completely done although from time to time it has been supplemented by the use of flour sacks, cut in two.

Could this item be again considered as it is for another purpose than the last purchased?

No.14.

Sir,-

I beg to advise that of the amount of $ 125.00 authorized for the purchase of food for the Cote Day School in Department letter No.117-2-5 of Aug. 9th last, approximately $114. of the amount has been expended, which amount includes $ 6.55 covering items purchased for cleaning, such as soap, bon ami &c. This leaves a balance of $ 11. for the school's requirements in the food line to last until the end of the academic year, June 30th. next. The school is going to experience difficulty in getting through until the holidays as they will be unable to purchase meat as well as other supplies on the balance.

At present the children are being fed on bread, potatoes and rice pudding.

Could this be supplemented by meat being supplied until the school closes in June next?

117-2-J

Kamsack, April 13th 1934.

Mr A. F. McKenzie,
Secretary of Department of Indian Affairs,
Ottawa, Can.

Dear Sir,-

Under date of August 4th last year I wrote you pointing out several important reasons why the appropriation for supplies to the Cote School should not be reduced. You replied saying that you were allowing $125.00 for supplies for the year 1933 and 34.But during the year certain other supplies than food such as soap etc that were formerly supplied from the Agency have been cut off and these also had to be charged up against the $125.Then too the attendance at the Cote School has been larger during this year than the previous one when the allowance was $150.Hence at the present time with two months and a half yet to run before the end of the year there is only something like $11.00 left to provide for three or four boys in residence for five days of the week and provide for the mid day meal of about twenty five other children. You will readily see what an impossible task you are placing upon the matron of the school and what a menace such curtailment of feed means to these childrenIn a letter to Mr Agent McKenzie you suggest that meat should not be required for the children during the summer.Now if you consider that Indian children more than many others require a certain amount of meat in their diet in order that they be maintained in health,you will realize how unjust it would be to treat these children in this way. By the treaties made with the Indians the Government of Canada has placed itself under certain moral obligations,aside from the legal obligations, to educate the Indian children. In the residential schools provision is made not only for boarding them in a fitting manner but also for clothing them. Surely an Improved Day School should demand sufficient suitable food stuffs to give these children one satisfying meal during the day. I was Principal of a residential school for fourteen years and I have been supervisor under our Church of this Cote School for seventeen years, and I cannot see why children in a day school where the Indian parent bears the large part of their maintenance should not receive fair and reasonable treatment for one meal in the day.

Mrs Roy, the matron is careful in all her management . There is no w waste but she has a mother heart and she should not be asked to set Indian children down to a meal of which she is ashamed. Furthermore these children cannot properly do their work in the class room if they are hungry.Such a condition is not creditable to the Government of this Dominion.

Instead of crowding the day schools to the wall,it seems to me the policy of the Department should be to increase their efficiency to such an extent that in time they would to a great extent take the place o of the much more costly residential schools.

I am in thorough sympathy with every proper move towards economy but I am quite sure there are many other places where economy can be practised with much better results than in cutting down the already meagr allowance to this school. I would ask that Mr Agent McKenzie be notified at once to procure meat and such other supplies as are necessa ry to maintain the school properly to the end of the term.

Trusting that this matter will meet with a favourable and sympathetic reception from you, I Am,

Yours Very Respectfully,

W. McCaskill

Rev. Sir:

I beg to acknowledge receipt of your letter of the 13th instant, with reference to food supplies for the children of the Cote Indian Day School.

As you were informed in official letter of August 9th last, the Department can only allow a sum not exceeding $125 for the purchase of food during the school year ending June 30, 1934. Owing to the reduction in our Appropriation, it will not be possible to increase this amount.

Ottawa, May 9th, 1934.

Dear Mr. McWhinney:

I have your letter of the 23rd ultimo, with reference to food supplies at the Cote Indian Day School.

I find that the Department has only paid accounts for food supplies to the amount of $95, and, as there is approximately $30 unexpended, I do not consider it necessary to authorize an increased amount. In addition to the expenditure mentioned, I am informed by departmental officials that biscuits, flour and rice have been supplied from agency stores.

Very truly yours,

Rev. W. McWhinney,
Kamsack,
Sask.

MEMORANDUM:

The Honourable the Superintendent General,-

I am returning Rev. Mr. McWhinney's letter of the 23rd ultimo.

At the Cote Indian Day School, there is an average attendance of approximately 25 children, and the Department has for many years found it difficult to satisfy the demands made by Mr. McWhinney. When it was necessary to reduce expenditures, department officials considered that $125 would be an adequate amount for midday meal purposes at this school for the academic year 1933-34. I find that, since last September, accounts have been submitted amounting to approximately $95. This means that some $30 can still be expended without exceeding the amount which the Department promised. I may add that, in addition to this expenditure, the school has been supplied with 300 pounds of biscuits, 13 sacks of flour, and 50 pounds of rice. Under these circumstances, I feel you will agree that the expenditure that has been authorized is fairly adequate.

I am of the opinion that Mr. McWhinney's reason for urging increased expenditure for food supplies is partly due to the fact that, without the Department's approval, three or four children, whose parents live at a considerable distance from the school, are kept in residence at the Day School and, consequently, have to be supplied with all their meals.

I trust that the attached letter will meet with your approval.

Deputy Superintendent General.

Ottawa, May 11th, 1934.

In further reference to your letter of the 13th ultimo, regarding the purchase of food for the Cote Indian Day School, I beg to say our records show that approximately $95.00 has been expended in the purchase of food since last September. You forwarded accounts for a larger amount than this, but these accounts included the cost of cleaning articles, such as soap, Ben Ami, etc. As you were authorized in official letter of August 9th, last, to expend an amount not exceeding $125.00 for food during the academic year 1933-34, you are therefore in a position to authorize a further expenditure of approximately $30.00.

In your letter of August 4th, last, you stated that you had on hand for the Cote School 900 lbs. of biscuits, 13 sacks of flour and 50 lbs. of rice. Please let me know if you have supplied these articles to the school.

Sir,-

I beg to advise that the posts of the Cote school fence are completely done and require to be renewed, most of them are rotted at the ground and are being held in place by the wire, as there is almost sufficient wire posts only and top rails require to be renewed.

The following is approximately what would be required to put the fence in shape.-

155 posts 6 in. for 3½ ft. page wire estimated costs 12½ea.	$ 19.38
25 lbs. Staples @ 9¢	2.25
25 lbs. spikes for top rails @ 7¢	1.75
Labour hauling posts, digging holes placing posts and stretching wire cutting top rails	25.
	$ 48.38

Former top rails were 2 X 4 these are all done but poplar rails for this purpose can be secured close to the school. Chas.Caldwell an indian on Cote reserve will undertake the labour for the above mentioned price.

May I have authority to have this work done as other wise their garden will be open to any stray animals that might be around?

Dear Mr. McWhinney:

I have received your letter of the 15th instant and note your request that the sum of $150 be allowed for the purchase of food for the children attending the Cote Indian Day School during the academic year 1934-35.

The sum of $125, which was allocated for food at this school during the current academic year, compares favourably with the amount allowed for similar purposes at other Indian day schools; and, as our Appropriation has not been increased, it is difficult for the Department to grant a larger amount for the academic year 1934-35. However, your request will be noted, and, if there is an increased attendance and funds permit, the Department will favourably consider allowing slightly more during the next academic year than was paid during the current year.

Very truly yours,

Kamsack, Sask., June 6th, 1934.

To Honourable T. G. Murphy,
Supt. Gen. of Indian Affairs,
O t t a w a, C a n a d a.

Honourable and Deer Sir,-

I have your letter of May 25th in reference to the allowance for supplies for Cote Improved Day School for the 1934-35 academic year and note what you say in regard to $125.00 being the amount allowed other Indian Day Schools. I think you will find that the attendance at Cote School is much larger than in most other such schools. In addition it should be kept in mind that in addition to the food materials required for the mid day meal, provision has to be made for several pupils who live at the school from Monday until Friday each week. During the past year there were four such pupils and we expect to have two more during the coming year.

I wish to thank you for the desire you have shown to deal fairly with us in this matter and hope that your Department may be in a position to allow us the $150 or as near to that amount as possible. I am,

Yours very respectfully,
(sgd.) W. McWhinney.

Sir,-

I beg to acknowledge the receipt of your letter of the 31st ultimo, with reference to supplying meals at the Cote Indian Day School.

In reply I beg to say that, for the academic year 1934-35, the Department can only allow the same amount as last year, viz., $125.00. This amount is expected to cover not only the cost of food for these children who are kept in residence but, also, the cost of the midday meal.

Quotations are now being obtained for biscuits and it is expected to ship these early next month.

No.14.

Sir,-

I beg to advise that the range at the Cote Day school is in such a condition that it is next thing to impossible to do any cooking and baking with it. The fire box has been repaired and now the oven is found to be giving way at the bottom which if repaired would necessitate rebuilding the whole thing. The stove is of a type which has been dicontinued and very hard to get even the necessary repairs at times for the fire box. It if the high oven type and the whole ov oven would need to be replaced, the cost of which I would judge to be about half what a new range of the regular type would cost. This stove has been in bad shape for several years and has been placed in the estimates for that length of time but it has now reached such a condition that any repairs made can only be temporary as something else burns out short;y after. The range has been in use since 1915, 19 years of service which is about the length of time that any stove of that description will last.

011

What they need is a regular six round range with the oven in the usual place which gives them that much more room on the top of the stove for cooking. These cost in the neighborhood of $ 85. to $ 95.

In view of the above and the fact that the school will require something to cook with almost right away, may I have authority to purchase a suitable range for them?

Kamsack, Nov. 28th 1934.

Dr Magill,
Deputy Supt. of Indian Affairs
Ottawa, Canada.

Dear Sir,-

Last Spring I had some correspondence with Hon. T. G. Murphy in regard to the amount of money allowed the Cote Day School for food supplies for the noon day meal and also for the maintenance of the five or six pupils who lodge and board at the school from Monday until Friday. I urged that for this academic year that at least ~~$125~~ $150.00 be allowed. Some time ago I was informed by the Indian Agent Mr McKenzie that only $125.00 had been allowed. Then more recently I was told that the supply of beef formerly supplied from the Agency stores was to be supplied no longer. Now I have understood that it was the policy of the Department to encourage the Day School form of Indian education to such an extent that some time in the future it would largely supplant the work done in the residential schools. If this is so I cannot understand why such a treatment as referred to above is meted out to the Cote School, which means trying to crowd it out of existence.

I would therefor ask your attention to the following features in this matter,-

1st There are about thirty pupils to be given a mid-day meal and five pupils to be fed from Monday until Friday.

2. Meat is an important item of diet for an Indian child and pupils in residential schools are supposed to have meat at least once a day.

3. Owing to weather conditions the school potato crop was almost a failure and forty or fifty bushels of potatoes will have to be purchased out of the amount allowed for food.

4. If these five pupils in residence from Monday until Friday were sent to a residential school it would cost the Department in per capita grant $750.

5. Is this economy, to force these children to a residential school? The matron in the Cote School is exceedingly careful in the use of all supplies but surely it is not fair to ask her to do the impossible or to see these children underfed and their health suffer in consequence.

For about fifteen years I was principal of a residential school and for thirty one years I have been missionary on this Reserve. For the past eighteen years I have been supervisor of the Cote School for the Women's Missionary Society and feel that I can speak with some authority in regard to the matter of the treatment of Indian children.

I am in hearty sympathy with every effort of the Department along the lines of economy but it is a pity to see economy misplaced and I feel that this is decidedly the case in this matter of supplies for the Cote School.

I would urge therefore that the school receive its supply of beef from the Agency stores as formerly and that the amount allowed for other supplies be increased from $125.00 to at least $150.00. Surely this is an insignificant amount in comparison with what is spent on the residential schools.

Trusting that this matter will receive your sympathetic attention, I Am,

Yours Very Respectfully,

W. McKenzie

Sir:

With reference to supplying food for those children who are kept in residence and also for midday meal purposes at the Cote Indian Day School, I beg to say that the Department is today in receipt of a letter from Rev. W. McWhinney stating that the amount provided is too small.

In official letter of September 7th, last, you were authorized to expend the same amount as last year, viz., $125. In view of the representations made by Mr. McWhinney, it has been decided to increase this amount by $25. This means that the sum of $150 will be expended during the academic year 1934-35 in the purchase of food for those children who are kept in residence and for the midday meal.

As your letter of September 10th, last, stated that you have a sufficient supply of biscuits on hand for the Cote School, the Department considers that the biscuits and the amount allowed, viz., $150, should be sufficient.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Kamsack, Sask. Dec. IIth 1934.

Mr A. F. Mckenzie,-
Secretary ,Department of Indian Affairs,
Ottawa, Canada.

Dear Sir,-
I have your letter of December 4th saying that the Department had agreed to my request for an increase of the amount allowed the Cote School for food supplies from $I25 to $I50. For this I wish to thank you very sincerely.That $25 will mean very much to relive anxiety about the proper feeding of these children. But I would respectfully ask you to reconsider the other request I made that the Agent be instructed to supply the necessary beef from the Agency stores as has been done for the past eighteen years. Perhaps you may think that this $25 should be used to meet that need ,but you will perhaps know that in the past two or three years bens and rice and tea have been cut off from the supplies allowed this school. The tea of course was for the staff and this is not important but the other two items are important. It will therefore take this $25 to supply these and other necessary supplies as well as the beef required from the spring until the end of June.
I assure you I do not wish to appear importunate in my requests for I am asking only for that which I feel to be necessary for the proper maintenance of one of the bestrun day schools under the jurisdiction of the Department.
Mr Mckenzie tells me he can secure an animal for beef for about $I5 and I would ask you to instruct him to do this and supply the beef to the Cote School,the same to be charged to the Dpartment.
Trusting that this request will meet with your approval,I Am,

Yours Very Respectfully,

Rev. Sir:

I beg to acknowledge receipt of your letter of the 11th instant, with reference to the amount allowed for food supplies at the Cote Indian Day School.

I wish to point out that our Appropriation for the current fiscal year is smaller than it was for the past fiscal year. In spite of that fact, the Department is allowing, this year, an increase of 20% over the amount allowed last year. Under these circumstances, it is felt that very fair consideration has been given to the Cote School, and we are not prepared to allow any more than the amount mentioned in official letter of the 4th instant.

Mr A. F. McKenzie,-
Ottawa, Canada.

Dear Sir,-

Your letter of the 17th came to hand some days ago and I note that you say, that since the estimates for the Department for the current year had been reduced and that you had made the increase from $125.00 to $150 for the maintenance of the Cote School you were of the opinion that you had dealt reasonably well wit this School.

Now with all due respect for the degree of familiarity which yourself and others in the Department have with the different Indian Schools permit me to say that since none of you have ever visited this School I do not think you fully understand the conditions and the very creditable work that is being done or you would not hesitate to grant very much more than I have been asking.

Sometimes I wonder if there is some one locally who is influencing your judgment in this matter, or if there is an underlying desire and purpose to crowd out this school in order to give wider scope and opportunity to some boarding school. It does seem very strange thatper capita grants of $150 are paid to boarding schools and here we are maintaining a school for $150 of a grant which cares for thirty children. Is it then asking too much whenwe ask for sufficient extra to buy a beef animal to supply beef to the children? Is it creditable to the Department that the matron has to send the boys out to snare rabbits to furnish the children of wards of the Government of Canada with a little meat?

As I said in my former letter I am in hearty sympathy with everything that makes for economy but there are right and wrong places for its exercise. I venture to say there is not an Agency in the West where many times fifteen dollars is spent in far less needful ways than in providing proper food for these children. When I say this I am speaking of that which I know to be fact.

Now I hope you will not think I am over persistent in this matter but when I know positively that I am asking only for what is right and reasonable I shall not drop this matter until I have made every effort to have the Department see this business somewhat as I do. I hope however that the good sense of Hon. T. C. Murphy as well as the Deputy Minister and yourself will see that justice is done without continuing this correspondence any further.

I Am,
Yours Very Respectfully,

Sir,-

In official letter of the 4th ultimo, you were advised that the Department would allow $150.00 during the current academic year for the purchase of supplies required for midday meal purposes and for feeding the children who live, during the week, at the Cote's Indian Day School.

We are now in receipt of another letter from Reverend Mr. McWhinney, requesting that we allow an additional $15.00 for the purchase of meat.

It has been decided to allow this extra amount and, therefore, the amount expended for midday meal purposes at the Cote's School from September 1st, 1934, to June 30th, 1935, should not exceed $165. You should so inform Mr. McWhinney.

SEP 18 1935
RECEIVED

Sir,-

With reference to the supplies for the noon day meal and meals for the resident pupils of the Cote Day School for the academic year 1935-36, I beg to advise that the following supplies would be required:

2 cases DriMilk	$ 52.00
Groceries	75.00
Meat 10 months @ $6.00	60.00
	$187.00

$165

In Department's letter No.117-2-5 dated Jan. 7th. last, authority was given up to $165.00 for the purchase of food supplies during the academic year 1934-35, the increase this year is owing to the meat supply being extended to 10 months, as no meat is issued out of the warehouse here during the winter months.

As school has now opened, could I have your authority to purchase up to the above amount for the year, part of the supplies will be required now as there is very little food on hand.

OFFICE OF
INDIAN AGENT

JAN 21 1936

Kamsack, Sask.,
18th January, 1936.

Dear Sir:

R

I beg to acknowledge receipt of your letter of the 15th instant, No. 117-2-5, in connection with the electric current supplied to the Cote Indian Day School.

In reply I beg to say that I received no authority for the installation of the current in this school. The current had been supplied the school from the time that the Delco plant was first installed at the Agency, and I assumed that, as the Kamsack power was taking the place of the old Delco plant for the remainder of the lighting, and there was no further expense in connection with the installation, no additional authority was required in connection with the lighting of the school.

If it is not the intention of the Department to furnish light to this school it is only necessary to disconnect the wires.

The Department originally paid for the wiring of this school. In the Auditor General's Report for this Agency for the fiscal year 1929-30 there is a charge of $1850 for installing a Delco plant and $1000 of this was charged to the Education Vote, apparently referring to the Cote Day School as that is the year the plant was installed at the Agency and the day school wired.

Dear Sir:

I have your letter of the 18th instant with reference to electric current supplied to the Cote Indian Day School.

Payment of the account which you submitted will be made, and you should also forward at the end of each month the account from the Electric Company for supplying current to the school.

This is an increase in expenditure at this school, and the Department will expect the teachers to keep the electric consumption as low as possible. You should so inform them.

Yours truly,

D. M. MacKenzie,

W.
COMMISSIONER'S OFFICE,

No. 310-11
ALSO TO DATE OF THIS LETTER

REGINA, SASK., 22nd February, 1936.

Sir:-

I beg to submit the following report of a visit which I made to the Cote Indian Day School in the Pelly Agency on the 14th instant.

Miss Ruby M. Jamieson has been in charge of the classroom as teacher since November last. She has a First Class certificate for Saskatchewan. I was very favorably impressed with her. She appears capable, has good control over her pupils, and he class organization appears to be good and I consider her work is very satisfactory.

There were 23 Indian pupils present out of an enrollment of 27. In addition to these, two of the Indian Agents and three of the Farming Instructors children attend regularly. The attendance has been good during the present quarter, with the exception of the last week in January and the first week in February when an epidemic of influenza reduced it. Apart from these two weeks the daily attendance has been from 18 to 23, which is very good considering the unusually severe weather we have had since the New Year.

I found the classroom clean and tidy. The children presented a healthy and clean appearance and they appeared to be warmly clothed.

This is what is called an Improved Day School. There is a matron in charge, Mrs. Roy, who prepares a mid-day meal for the Indian children. Mrs. Roy is a good housekeeper and takes an interest in the welfare of the children.

I made an examination of the building and wish to draw the Department's attention to the condition of the basement foundation. It is very badly cracked and day light can be seen through the cracks. The result is that, notwithstanding there is a hot air furnace in this basement, the temperature of the basement was below freezing point on the day of my visit. With conditions such as this you will understand that it is difficult to heat the building. An item has been placed in the Estimates for 1936-37 to cover the cost of repairing this basement wall and I would strongly recommend that the work be done during the coming summer. I consider this important, as at present it endangers the condition of the building as well as making it uncomfortable.

EX'D.

Ottawa, February 28, 1936.

Dear Sir:

I have your 310-11 of the 22nd instant, reporting on your recent visit to the Cote Indian Day School. The Department is pleased to note that the teacher, Miss Ruby M. Jamieson, is performing satisfactory services and that there is a good attendance of Indian children; also that they were healthy and warmly clothed. It is further noted that the matron, who prepares the midday meal for the pupils, takes an active interest in their welfare.

Regarding the condition of the basement foundation, I have to say, for your information, that the following items are provided in our Estimates for the coming fiscal year for this school:

(1) Rebuilding foundation and basement walls .. $200.00
(2) Painting .. 250.00.

As recommended by you, this work could be done during the coming summer holidays, and I would request that either yourself or the local Indian Agent draw the matter to the attention of the Department, stating definitely the work that should be carried out, how you would propose that the labour be performed and the approximate cost of materials and labour.

Yours truly,

A. F. MacKenzie,
Secretary.

OFFICE OF
INDIAN AGENT

Kamsack, Sask., MAR 27 1936
24th March, 1936.

Dear Sir:

As previously reported to the Department, and provisions made in the estimates therefor, the foundation of the Cote Day School building is in bad shape.

As a result of this, the cistern, for storing rain water, was burst by frost during the extremely cold weather of the past winter. I have examined this cistern and I do not think it is worth repairing. It was made of galvanized iron about twenty years ago and the metal is about at the end of its usefulness. It is located close to the fuel chute and the outside entrance door, and as a consequence is in the coldest part of the basement. It should be on the other side of the furnace, where the basement is warmer and, to move it there, it would have to be taken down.

I would recommend that a new cistern be made and placed in the proper location in the basement. The cost of material and labour would be about $50.00. This would include labour to make minor changes in the eaves-troughing, which would be necessary in changing the location of the cistern.

As you are aware, the water situation at this school is not good and, when there is no water stored in the cistern, it is necessary for all the washing water to be hauled from the river to the school, a distance of about half a mile. I would be glad if authority could be given me for this expenditure as soon as possible after the first of April, in order that the cistern can be completed in time to catch any early rain-fall.

Your obedient servant,

J.P.B.Ostrander,

Ottawa, March 31, 1936.

Dear Sir:

With reference to your letter of the 24th instant, the Department has provided in the Appropriation for the fiscal year 1936-37 an amount of $200 for re-building the foundation and basement walls of the Cote Day School. On the recommendation of Inspector Murison, who visited this school on February 14th, it was decided not to proceed with this work until the summer holidays.

In addition to the amount stated above, we will have available another amount for painting, but it is not the Department's intention to do any exterior painting this year owing to lack of funds. Consequently, if the repairs to the foundation will cost more than $200, part of the money provided for painting could be used.

If you consider that any repairs that may be made to the foundation and basement walls during the summer holidays will not damage the new cistern, which you recommend be installed at once, you may proceed with the latter work. It is noted from your letter that the cost of the material and labour for the new cistern will be approximately $50.00.

Yours truly,

T. R. L. MacInnes,
Acting Secretary.
